**RE: Halite Energy Group's Proposed Underground Gas Storage Project,
Preesall, Lancashire**

As a HR and recruitment business I am writing in support of the above project.

If this project was to go ahead the employment opportunities for the area would be immense and would really impact the local economy in a very positive way i.e. 1050 direct jobs and 1830 indirect jobs.

The opportunity to move local people from a life on benefits to full time employment with career prospects is an opportunity too good to miss.

I urge you to grant the required DCO so Halite can start to build this project.

Thank you for your consideration.

Yours sincerely

Nigel Finch
Director
