Dear Sir/Madam

Planning Act 2008 (as amended) and The Infrastructure Planning (Examination Procedure) Rules 2010 (as amended) - Rules 8(3) and Rule 17

Application by Keuper Gas Storage Limited for an Order Granting Development Consent for the Keuper Gas Storage Project

Changes to the original application

On 30 June 2016 the applicant submitted details of a variation to its original application. The proposed change relates to a move of two precise level points at Yew Tree Farm. Details of this change can be viewed on the National Infrastructure Planning website and can be accessed through the following link:

<https://infrastructure.planninginspectorate.gov.uk/document/EN030002-001095>

I am now inviting comments on this proposed change and will need to consider whether this represents a material change to the application that was the subject of public consultation and environmental impact assessment.

This change is referred to in two revised plans which were submitted on 30 June 2016 and can be assessed following these links:

<https://infrastructure.planninginspectorate.gov.uk/document/EN030002-001096>

<https://infrastructure.planninginspectorate.gov.uk/document/EN030002-001097>

The two precise level points in question would be moved as follows;

- Point 3046 (as shown on application drawing 13-03-01/HOL/24/343) [APP-119] would move north east by approximately 25m; and
- Point 3076 (on the same drawing) would move west by approximately 15m.

To assist me in my consideration of this change, I would welcome comments on the proposal, and in particular on whether it represents a material change to the application such that I should not accept it.

Please submit any comments that you wish to make on these changes by email or in writing to the above addresses by **Thursday 14 July 2016**.

The original examination timetable item 15, Deadline 6, is amended accordingly to include this deadline.

If you have any further queries, please do not hesitate to contact us.

Yours faithfully

Jonathan Green
