Subject: EDF Energy's Relevant Representation - River Humber Gas Pipeline Replacement Project

River Humber Gas Pipeline Replacement Project – EN060004

The Planning Inspectorate Ref; 10031553 (EDF Energy)

To whom it may concern,

EDF Energy submitted a Relevant Representation in relation to National Grid's proposed River Humber Gas Pipeline Replacement Project (Ref; 10031553). EDF Energy submitted its representation in order to protect its assets in the vicinity of the Project and advised the Planning Inspectorate, at the time, that the Company would update the Examining Authority on matters associated with its representation.

In this regard, please accept this email as notification of EDF Energy's wish to withdraw its representation. Following further consideration, the Company is satisfied that the Project, as described in the application documentation, would not impact its assets in the vicinity of the Project and business interests.

I hope this provides the Examining Authority and Planning Inspectorate a suitable update. Should the Project materially change in any respect, EDF Energy request further notification. I would be grateful for confirmation of receipt of this email.

Should you have any queries, please do not hesitate to contact me.

Kind regards,

Zoe

(for and on behalf of EDF Energy)
