12th October 2015

Dear Mr Aston,

**Application by National Grid Gas plc for an Order granting
Development Consent for the River Humber Replacement Project**

Thank you for the opportunity to comment on the Examining Authority's first round of written questions and make further submissions relating to the River Humber Replacement Project.

Summary of relevant representations

Anglian Water has previously submitted representations relating to the Draft Development Consent Order (DCO) dated 26th June 2015. The following is a summary of the representations previously submitted:

Anglian Water is in principle supportive of this development.

There are a number of assets that may be affected by the proposed route of the gas pipeline and associated works. Anglian Water would require the standard protected easement widths for these assets and for any requests for alteration or removal to be conducted in accordance with the Water Industry Act 1991.

We have requested specific protective provisions for the protection of Anglian Water. These protective provisions are in addition to those included in Schedule 10, Part 1 of the Draft DCO.

Anglian Water also requested changes to the wording of Articles 16 (Discharge of Water) and 31 (Statutory Undertakers) of the Draft DCO.

Written Representations

Anglian Water wishes to reply upon our representations previously submitted in June 2015 and does not intend to make any further written representations at this stage.

Attendance at Examination

Anglian Water would wish to attend the compulsory acquisition hearing and issue specific hearings relating to the Draft DCO.

Comments on Statement of Common Ground (Drafts) from Deadline 1

We are currently in discussion with the applicant regarding the Statement of Common Ground with Anglian Water (Examination document 8.1.13). As part of which we are discussing the specific protective provisions for the benefit of Anglian Water and the suggested changes to the wording of the Draft DCO as set out above.

Should have any queries relating to this letter please let me know.

Yours sincerely

Stewart Patience
Planning Liaison Manager
