EA DEADLINE 8 SUBMISSIONS

Dear Sir/Madam,

A REPLACEMENT HIGH-PRESSURE GAS PIPELINE WITHIN A BORED TUNNEL BENEATH THE HUMBER ESTUARY AND ASSOCIATED DEVELOPMENT, INCLUDING A CONNECTING PIPELINE, MINOR MODIFICATIONS TO PAULL ABOVE GROUND INSTALLATION AND ASSOCIATED TEMPORARY LAY DOWN, WORKING AND MITIGATION AREAS.

FROM PAULL, EAST RIDING OF YORKSHIRE TO GOXHILL, NORTH LINCOLNSHIRE.

We would like to provide the following deadline 8 submissions.

Revised Draft Development Consent Order (Document 3.1D)

We can confirm that we have further comments in respect to the DCO requirements. We can also confirm that the Protective Provisions are agreed, apart from clause 22 which deals with indemnity. This matter is still being discussed with National Grid who have said that they cannot agree to it. Our position is that the clause must remain. The matter is now with National Grid to respond.

Revised Book of Reference & Schedule of Negotiations

Most of the detail in the book of reference is now correct. The only correction now required is in relation to plot 16 (following the merger with plot 30), where the Environment Agency need adding as a "category 2 owner" in respect of rights of way over what was previously plot 30.

In respect of the schedule of negotiations:

UNCLASSIFIED

Plots 20.1, 20.2, 21,24,28,29 – heads of terms have been issued and agreed for a “temporary easement” not an “abstraction lease”.

Plots 33 and 34 – we have had no request to enter any agreement in respect of these plots. No heads of terms have been sent to us (and therefore none have been agreed).

We understood from previous discussions that plot 33 was no longer required for the scheme. We are not overly concerned about plot 34, as our only interest is the half width of the road under the ad medium filem presumption.

We await clarification and, if necessary, corrections on the above points.

Should you require any additional information or clarification, please don't hesitate to contact me on the details below.

Yours faithfully
