Subject: Request for additional issue ofr discussion at hearings of the 4th February.
Date: 02 February 2015 14:22:00

Dear Steffan, as you know the MPA and its fellow objectors intend to be present at the hearing on 4th February dealing with Minerals. We request that a further issue is listed on the agenda and I should be grateful if you could ask the Inspector if this is acceptable. The issue is as follows,

"What alternative methods have National Grid considered for locating the pipeline on the existing embankment across the quarry which are as effective as the specification submitted?"

I am tasked to lead the objectors' case but we wish to call Mr. David Carter, a geotechnical engineer, to deal with this aspect of the hearing.

In addition, I have been instructed to tell you that Mr David Watts, owner of W Clifford Watts would like to address the CPO hearing on Thursday.

If you have any queries about these requests, please get in touch,

regards

Malcolm Ratcliff
for the MPA W Clifford Watts & others
