Mr Johansson,

Apologies but I should have added that for the avoidance of doubt, until such time as an agreement is reached between my client and the Promoter, Yorkshire Water maintains its objection to the project in question.

Regards

Mr Johansson,

Please note that my client Yorkshire Water will not be represented at the Preliminary Meeting tomorrow. However, I can report that negotiations are continuing between Yorkshire Water and the Promoter in relation to an agreement that provides Yorkshire Water with the protective provisions that it requires. Yorkshire Water are hopeful that an agreement will be completed soon. Please can you pass this information onto the Examining Authority.

Regards
