

Updated Schedule of Statutory Undertakers

The Yorkshire and Humber (CCS Cross Country Pipeline) Development
Consent Order

Statutory Undertaker	National Grid Update
Northern Powergrid (Yorkshire) plc	The solicitors for Northern Powergrid, Watson Burton, have agreed final form documentation and asked for engrossments to be issued for the parties' execution.
Network Rail	National Grid is in negotiation with Network Rail over the terms of the contractual documentation in respect of asset protection and land rights.
Drax Power Limited/Capture Power Limited	The position remains as set out in the iteration of this document at Deadline 4.
BT Openreach	The position is as set out in the iteration of this document at Deadline 4.
Kingstone Communications	The position is as set out in the iteration of this document at Deadline 4.
Yorkshire Water Services Limited	Engrossments of the alternative contractual protective provisions agreed with Yorkshire Water have been executed by Yorkshire Water and are undergoing final National Grid governance procedures prior to its execution.
Northern Gas Networks Limited	The position remains as set out in the iteration of this document at Deadline 4.
Ineos Manufacturing (Hull) Limited	<p>As set out in the iteration of this document at Deadline 4, Ineos and National Grid have reached an advanced stage in negotiating the terms of an asset protection agreement. National Grid has reverted to INEOS on the small number of remaining points it has raised and a response is awaited.</p> <p>Separately, as set out in the iteration of this document at Deadline 4, National Grid has issued National Grid's preferred documentation for the acquisition of necessary land rights for the authorised development over INEOS's subsurface stratum interest. The principle of</p>

	the easement is agreed but Ineos' solicitors are to provide any comments following their review.
National Grid Electricity Transmission PLC	Negotiation of asset protection documents is at an advanced stage. A form of documentation with few points outstanding is currently with the solicitors for National Grid Electricity Transmission PLC and National Grid Gas PLC for consideration.
National Grid Gas PLC	
Government Pipeline and Storage Systems	<p>Background is provided in the iterations of this document at Deadlines 3 and 4. Government Pipeline and Storage Systems ("GPSS") wrote to National Grid on 26 February 2015 stating that:</p> <ul style="list-style-type: none"> • Section 16 of the Land Powers (Defence) Act 1958 applies its protections to GPSS apparatus affected by the authorised development; • Section 16 consent is properly applied for following the planning stage, in this case after the DCO is made, before contracts are let, so that the application for consent can contain an appropriate level of detail. Applications take 6-8 weeks to determine; • However, GPSS would also like the benefit of a set of protective provisions covering drawings approvals and expenses which it provided. <p>GPSS's solicitors have subsequently agreed with National Grid's solicitors that it would be appropriate to enter into an agreement instead and the parties are working towards agreeing terms.</p>
The Canal and River Trust	As set out in the iteration of this document at Deadline 4, it is understood by National Grid that Canal and River Trust (" CRT ") is satisfied with the principles of the pipeline crossing under river navigation at the River Ouse and appropriate protections for the purposes of the

Statutory Undertaker	National Grid Update
	<p>Examination because:</p> <ul style="list-style-type: none"> • following a request from CRT, Work No. 5C of Schedule 1 (authorised development) of the DCO (document reference 3.1 Rev D) commits National Grid to a minimum depth of 3.5 metres beneath the true clean bottom of the River Ouse; • the email from Mr Martyn Coy of the CRT to PINS of 29 January 2015 clarifies that details of the crossing are a matter for processes under its Code of Practice to take place prior to commencement of works, which does not require National Grid to enter into any documentation at this stage. <p>National Grid has considered the Code and provided to CRT a draft agreement specifying certain terms in the Code which would not be appropriate in the particular context of this project.</p>
Driffield Navigation Trust	<p>The Trust has instructed solicitors and land agents. National Grid continues to seek to understand the Trust's position from them in order to progress legal documentation, which includes in particular clarifying the nature of any interest which the Trust has in land. National Grid has, in the interim, provided the Trust with an agreement in respect of assert protection similar to that provided to the CRT.</p>
Environment Agency	<p>As noted to the Examination at the issue specific hearing on compulsory acquisition matters, heads of terms for appropriate easements have been agreed with National Grid, and the drafting of the option agreement is currently being finalised between both parties' solicitors. It is anticipated that completion will be soon.</p>
