Subject: Ezzo Pipeline Project ASI request
Date: 20 October 2019 17:42:34

Dear Examining Authority,

Ezzo Southampton to London Pipeline Project
Interested Party: Nick Jarman, reference: 20022545
Submitted in response to the requirements to meet Deadline 1

With reference to the Queen Elizabeth Park (QEP), Farnborough, section of the project.

Request

1. I request that the Examining Authority carry out an Accompanied Site Inspection to the Queen Elizabeth Park section of the pipeline, which is publicly accessible land.
Purposes of the ASI:
 1. To see the installation width of the previous pipeline (which is currently in use) and compare to the requested installation width of the proposed pipeline.
 2. To see the approximate location of the current pipelines, by observing the above-ground markers.
 3. To observe the location and tree cover in the area of the proposed drive pit for auger boring under the A325 (Environmental Statement (Volume D) Appendix 8.2, section 1.23).
 4. To ensure that all notable trees affected in the park are correctly logged in the project documentation.
 5. To ensure that the impact on the surrounding residences has been assessed and logged.

2. I also submit a request for me and one other person to attend the Farnborough section of this ASI.

Yours faithfully

Nick Jarman
