1. Introduction

1.1 Purpose of Document

- 1.1.1 A Statement of Common Ground (SoCG) is a written statement produced as part of the Application process for a Development Consent Order (DCO) and is prepared jointly between the applicant for a DCO and another party. It sets out matters of agreement between both parties, as well as matters where there is not an agreement. It also details matters that are under discussion.
- 1.1.2 The aim of a SoCG is to help the Examining Authority manage the Examination Phase of a DCO application. Understanding the status of the matters at hand will allow the Examining Authority to focus their questioning and provide greater predictability for all participants in examination. A SoCG may be submitted prior to the start of or during Examination, and then updated as necessary or as requested during the Examination Phase.

1.2 Description of the Project

- 1.2.1 Esso Petroleum Company, Limited (Esso) launched its Southampton to London Pipeline Project in December 2017. The project proposes to replace 90km of its 105km aviation fuel pipeline that runs from the Fawley Refinery near Southampton, to the West London Terminal storage facility in Hounslow. In spring 2018, Esso held a non-statutory consultation which helped it to select the preferred corridor for the replacement pipeline. In autumn 2018, it held a statutory consultation on the preferred route for the replacement pipeline. In early 2019, it held a second phase of statutory consultation on design refinements. The application for Development Consent was submitted to the Planning Inspectorate on 14th May 2019.

1.3 This Statement of Common Ground

- 1.3.1 This SoCG has been prepared jointly by Esso as the applicant and Hampshire County Council (Hampshire CC) as a prescribed consultee and Local Authority as defined within the Local Government Act 2000. Hampshire CC has interests in the SLP Project, as a Local Planning Authority, as Highway Authority, a service provider to its businesses and residents, and as a landowner affected by the project.
- 1.3.2 For the purpose of this SoCG, Esso and Hampshire CC will jointly be referred to as the “Parties”. When referencing Hampshire CC alone, they will be referred to as “the Authority”.
- 1.3.3 Throughout this SoCG:
- Where a section begins ‘matters agreed’, this sets out matters that have been agreed between the Parties.

- Where a section begins 'matters not agreed', this sets out matters that are not agreed between the Parties.
- Where a section begins 'matters subject to ongoing discussion', this sets out matters that are subject to further negotiation between the Parties.

1.4 Structure of the Statement of Common Ground

1.4.1 This SoCG has been structured to reflect matters and topics of relevance to the Authority in respect of Esso's Southampton to London Pipeline Project.

- Section 2 provides an overview of the engagement to date between the Parties.
- Section 3 provides a summary of areas that have been agreed.
- Section 4 provides a record of areas that have not yet been agreed.
- Section 5 provides a list of ongoing matters (if any) that will be agreed or not agreed by the Parties during examination.
- Section 6 provides a record of relevant documents and drawings

2. Record of Engagement Undertaken to Date

2.1 Pre-application Engagement and Consultation

2.1.1 The table below sets out the consultation and engagement that has been undertaken between the Parties prior to the submission of the DCO application.

Table 2.1 Schedule of pre-application meetings and correspondence

Date	Format	Topic	Discussion Points
04/12/2017	Correspondence	Project introduction	The project sent a letter to planning team at the Authority regarding: <ul style="list-style-type: none"> Map of current route Project timeline Project introduction
19/01/2018	Hampshire Officers Forum	Project introduction	The Authority's Head of Strategic Planning was not able to attend and asked to be kept informed.
19/01/2018	Hampshire Members Forum	Project introduction	The Authority's elected representatives were not able to attend.
23/02/2018	Hampshire Officers Forum	Project briefing	The Authority's Head of Strategic Planning attended the forum meeting and was briefed on the project and proposed engagement processes.
23/02/2018	Hampshire Members Forum	Project briefing	The Authority's elected representative was not able to attend.
Feb to Nov 2018	Correspondence	Planning and ecological contacts	Liaison over appropriate contacts and availability of environmental records and survey information, including from Hampshire Biodiversity Information Centre.
01/03/2018	Briefing note	Non-statutory (Corridor) consultation	Briefing note sent to all Local Authorities and councillors of wards/elected members within each corridor option.
01/03/2018	Correspondence	Data Request	Information was requested from the Hampshire Historic Environment Record (HER) for undesignated assets, finds and monuments (including monument records, Areas of High Archaeological Potential (AHAPs) and County Sites of Archaeological Importance (CSAIs)).
02/03/2018	Correspondence	Data request	Liaison with the Authority over GIS and other data requested for the project.
08/03/2018	Meeting	Initial Meeting with Hampshire Highways	Project briefing and discussion of Highways issues with Hampshire CC Deputy Director of

Date	Format	Topic	Discussion Points
			Highways, Head of Highways and Head of Highways (Asset Manager).
15/03/2018	Correspondence	Commitment to Community Consultation – early view	Email sent to the Authority containing Commitment to Community Consultation (CtCC), and details of councillors that will be notified ahead of launch.
15/03/2018	Correspondence	Queries on consultation	Request for clarification received from the Authority on non-statutory (Corridor) consultation, requesting copies of maps of the corridors. Information sent in response.
19/03/2018	Correspondence	Non-statutory (Corridor) consultation launch	<p>The project sent the Authority three letters:</p> <ol style="list-style-type: none"> 1) Notification of launch letter (as a potential future statutory consultee) 2) A notification letter as a landowner, with a Person with an Interest in Land questionnaire and land plans 3) Draft CtCC with a separate cover letter <p>No feedback was provided on the CtCC.</p>
18/04/2018	Meeting	Archaeology	<p>Meeting with Authority's Archaeologist on:</p> <ul style="list-style-type: none"> • Corridor consultation; • heritage assessment; • survey strategy; and • mitigation approaches.
19/04/2018	Correspondence	Phone Call	Discussion with Authority's Head of Strategic Planning on progress with consultation response and liaison with other Hampshire Authorities.
24/04/2018	Correspondence	Non-statutory (Corridor) consultation	Authority's Countryside Service's response to the non-statutory (Corridor) consultation. See Appendix B.
02/05/2018	Correspondence	Pre-preferred corridor announcement	<p>The project called the Authority to explain how the preferred corridor would be selected and then how it would be announced to stakeholders. The Parties also discussed next steps following the preferred corridor announcement re: route development and Environmental Impact Assessment scoping. The Authority made suggestions for engagement with members, which were followed up.</p>
15/05/2018	Correspondence	Phone Call	The Authority indicated that agreement had not been reached with all planning authorities on co-operation on the project, and agreed that

Date	Format	Topic	Discussion Points
			co-operation would appropriately be covered at the next Forum event.
25/05/2018	Hampshire Officers Forum	Update	<p>The Authority's Head of Strategic Planning attended the forum:</p> <ul style="list-style-type: none"> • Presented the findings of the non-statutory (Corridor) consultation and explained how the preferred corridor had been selected • Explained when the preferred corridor would be announced to stakeholders
25/05/2018	Hampshire Members Forum	Update	The Authority's elected representative was not able to attend.
30/05/2018	Correspondence	Preferred corridor announcement	<p>The Authority was sent two letters:</p> <ul style="list-style-type: none"> • Letter as a key stakeholder regarding the preferred corridor that was selected • A landowner letter
07/06/2018	Meeting	Hampshire Highways Meeting	Progress meeting with HCC Highways attended by Streetworks Team to discuss approach to Streetworks along pipeline routing, including proposed schedule of crossings.
27/06/2018	Correspondence	Initial Working Route	Project update regarding Initial Working Route release.
09/07/2018	Consultation	Draft Statement of Community Consultation	The draft Statement of Community Consultation (SoCC) was issued for statutory consultation to the Authority. The Authority responded and the points raised in relation to Parish and member engagement were incorporated into the SoCC.
14/08/2018	Meeting	Highways meeting	Progress meeting with Authority Highways and Rights of Way teams, to discuss approach to Streetworks and rights of way along pipeline routing, including discussion of draft highways diversion route drawings.
24/08/2018	Hampshire Officers Forum	Update	The Authority's Planning Officer was not able to attend the forum meeting.
24/08/2018	Hampshire Members Forum	Update	The Authority's elected representative was not able to attend.
30/08/2018	Workshop	EIA Scoping	<p>Invitation was issued on the 17 July 2018 to the main point of contact at the Authority. Several dates were offered. One of the Authority's Environmental officers attended the workshop on 30 August.</p>

Date	Format	Topic	Discussion Points
			The workshop supported the Planning Inspectorate's scoping consultation.
06/09/2018	Correspondence	Launch of first statutory (Preferred Route) consultation	The project sent the Authority two letters: 1) Notification of launch letter (as a statutory consultee) 2) A notification letter as a landowner, with a Person with an Interest in Land questionnaire and land plans. (Both letters were in line with the Planning Act 2008)
05/10/2018	Meeting	Draft DCO provisions	Meeting with the Authority Streetworks team to discuss Hampshire highways approach to protective provisions for DCO projects.
08/11/2018	Meeting	Flood risk	Joint meeting with Lead Local Flood Authorities, including the Authority's Local Lead Flood Authority officer, which discussed: ordinary watercourse crossings and flood risks.
15/11/2018	Meeting	Project Progress Meeting	Progress meeting with the Authority's Streetworks Manager to further discuss approach to Streetworks along pipeline routing, including discussion of highways diversion route drawings and crossings schedule.
17/10/2018	Correspondence	First statutory (Preferred Route) consultation response	The Authority responded to the first statutory (Preferred Route) consultation. A copy is enclosed at Appendix B.
26/11/2018	Correspondence	Potential highways impacts	Email from Authority's Highways team following meeting to raise potential highway impacts from works near route.
03/12/2018	Meeting	Progress meeting	Meeting held with the Authority's Planning Officer (together with Eastleigh and Winchester Councils) on progress with undertaking the EIA and preparing the application, including approach to design refinements.
03/01/2019	Briefing Note	Next steps – second statutory (Design Refinements) consultation	Sent to planning officers and councillors/ members. Provided an overview of the second statutory (Design Refinements) consultation and its contents ahead of the launch on 21 January 2019. The briefing note was accompanied by the offer of a meeting.
18/01/2019	Correspondence	Launch of second statutory (Design Refinements) consultation	The project sent the Authority two letters: 1) Notification of launch letter (as a statutory consultee) 2) A notification letter as a landowner

Date	Format	Topic	Discussion Points
			<p>(Both letters complied with the approach set out the in SoCC)</p> <p>The Authority did not respond to the consultation.</p>
29/01/2019	Meeting	Archaeology	<p>Meeting with Authority's Archaeologist to present and discuss:</p> <ul style="list-style-type: none"> • Project overview; • historical and archaeological baseline along the route; • archaeological potential; • historic environment assessment; • potential mitigation strategy.
06/02/2019	Meeting	Progress meeting	<p>Meeting with Authority Streetworks team to discuss Streetworks and rights of way proposals.</p>
20/02/2019	Correspondence	Draft DCO	<p>A copy of Part 3 (Streetworks) of Draft DCO and Draft Explanatory memorandum issued to Authority Streetworks team for review and comment.</p>
26/02/2019	Correspondence	Public Rights of Way	<p>Authority Rights of Way team approached for information relating to notification requirements for proposed diversions.</p>
13/03/2019	Meeting	Progress meeting	<p>Progress meeting held with Authority's Streetworks team to review draft Part 3 of DCO.</p>
19/03/2019	Meeting and consultee engagement	Flood risks	<p>Joint meeting with Lead Local Flood Authority officers, including Authority's officer, to discuss:</p> <ul style="list-style-type: none"> • A presentation by the project on the Draft Flood Risk Assessment (FRA) report, including flood risk action plans, watercourse crossings, temporary culverts, fish, and water quality; • Protective provisions. <p>The Draft FRA Report was submitted to officers for informal comment.</p>
25/03/2019	Briefing note	Next steps	<p>The project issued a briefing note to planning officers and councillors/members following the close of the second statutory (Design Refinements) consultation re: next steps.</p>
27/03/2019	Correspondence	Final route release	<p>The project issued a letter to planning officers announcing the final route and offering a meeting if required.</p>

Date	Format	Topic	Discussion Points
02/04/2019	Correspondence	Draft DCO	Project supplied the Authority with a draft of the DCO and asked for comments.
25/04/2019	Correspondence	Next steps	The project contacted the Authority to provide early warning of its submission for development consent.
25/04/2019	Meeting	Progress meeting	Meeting with Authority Streetworks team and local highways officers ahead of DCO application submission, Review of application content relating to highways and streetworks.
10/05/2019	Correspondence	Flood risks	Authority's Flood & Water Management Senior Project Officer emailed project to give feedback on the Draft FRA Report, including in relation to: <ul style="list-style-type: none"> • Fluvial and surface water flood risks; • construction and operation phases; • mitigation measures.
14/05/2019	Meeting	Progress Meeting	Progress meeting held with the Authority Planning Officers (and Winchester City Council) to discuss progress with the application, the draft DCO and the forthcoming application documentation.

2.2 Engagement Following Submission of Application

2.2.1 The table below sets out the consultation and engagement that has been undertaken between the Parties since the submission of the DCO application.

Table 2.2 Schedule of post submission meetings and correspondence

Date	Format	Topic	Discussion Points
16/05/2019	Correspondence	Application submitted	The project confirmed that the application for Development Consent was submitted to the Planning Inspectorate and a USB containing the application was being sent in the post to the Authority's planning team.
06/06/2019	Correspondence	Consulting the project on planning applications	The project requested that the Authority consult it on planning applications where relevant.
10/06/2019	Correspondence	Safeguarding	The project confirmed with the Authority that it had been granted safeguarding and that it would be required to consult the project.
24/05/2019	Correspondence	Adequacy of Consultation	The Authority responded to PINS on the adequacy of consultation and confirmed that the Council considered that Esso had complied with its duty to consult and publicise under the Planning Act 2008.

Date	Format	Topic	Discussion Points
27/06/2019	Meeting	Highways meeting	Meeting with Authority Streetworks team to discuss the submitted DCO Application, focusing on the navigation document and the location of information relevant to highway matters. Explanation of DCO process and role of LPAs.
10/07/2019	Meeting	Archaeology	Discussion on the proposed trial trenching strategy.
14/08/2019	Meeting	Highways Meeting	Progress meeting with Authority Streetworks Team.
30/08/2019	Meeting	Progress meeting	Progress meeting with Authority Planning Officers to discuss submitted DCO application and the content of the draft SoCG.
16/09/2019	Meeting	Basingstoke Canal	Meeting with Authority Officers to discuss land agreement and DCO issues relating to Basingstoke Canal.
11/12/2019	Meeting	Flood risk	Meeting with Local Lead Flood Authority Flood Risk Advisor (Surrey County Council's lead flood advisor also in attendance), covering watercourse crossings, protective provisions, soil storage, compounds, drainage, and flood warnings.
16/12/2019	Meeting	Archaeological trial trench programme	Meeting with the Authority's Archaeologist to discuss and agree trial trenching plans and programme, and the related Written Scheme of Investigation.
20/02/2020	Meeting	Progress meeting	Meeting with the Authority's Streetworks team and Planning Officer, to discuss progress with the DCO Examination and the finalisation of the SoCG.

3. Matters Agreed

3.1.1 The table below sets out the matters agreed in relation to different topics.

Table 3.1 Matters agreed

Examining Authority's suggested theme	Topic	Matter agreed
	General	<p>The project and the Authority have met at appropriate times since the project launch in December 2017.</p> <p>The Authority is satisfied that the consultation and engagement with its officers, members and residents has been robust and meaningful and in accordance with the requirements of the Planning Act 2008.</p>
	General	<p>The Authority is satisfied with the approach of consulting on corridors and then a route.</p>
	General	<p>The Authority is satisfied with the statutory consultation on the pipeline route – both during the Preferred Route Consultation and the Design Refinements Consultation. The project acknowledges the Authority's statutory consultation response.</p> <p>The Authority gave its full opinion and comments regarding the pipeline route in its statutory consultation response.</p>
The Need and Principle of the Proposed Development and Examination of Alternative Routes	General	<p>The Authority has no objection to proposed Order Limits and Limits of Deviation that define the proposed pipeline route, as proposed in the SLP Project's application for development consent.</p> <p>The route starts in Boorley Green in Eastleigh Borough and runs north between Bishops Waltham and Upham, through the South Downs National Park and into Winchester City Council's area. The route passes through the National Trust estate at Hinton Ampner. The route crosses the A272 at Bramdean crosses the A32 and runs along the southern boundary of Chawton House registered park and garden. The route leaves the South Downs National Park at the crossing of the B3006 and up to Alton and enters East Hampshire District. The pipeline route enters the pumping station at Alton and then continues north towards Upper and Lower Froyle and Crondall in Hart District. The route then enters MoD land at Ewshot Lane and runs along Naishes Lane to Quetta Park, around the north of Tweseldown Racecourse, Ewshot and the Bourley and Long Valley SSSI. The route crosses the Basingstoke Canal and the A323, then through the Cody Technology Park and Southwood Country Park in Rushmoor Borough. The route then runs through the Cove Brook open area, in along the railway line to Queen Elizabeth Park and Farnborough Hill School, before crossing the Blackwater Valley into Surrey.</p>

Planning Policy	National Policy Statements (NPSs) Development Plan	<p>The relevant NPSs are:</p> <ul style="list-style-type: none"> • Overarching National Policy Statement for Energy (EN-1) • National Policy Statement for Gas Supply Infrastructure and Gas and Oil Pipelines (EN-4) <p>While the assessment of the application for development consent should be made against the NPSs, it is agreed that the Development Plan for Hampshire comprises:</p> <ul style="list-style-type: none"> • Hampshire Minerals and Waste Local Plan 2013-2030; and • individual local planning authority's development plans
Planning Policy	Development Land	The Authority is satisfied that the route of the proposed pipeline does not impact adversely on any strategic allocation identified in emerging or adopted Minerals and Waste local plans.
	Minerals Safeguarding	The Authority does not object to the impacts on any safeguarded mineral reserves affected by the proposed pipeline alignment on the basis that the volume of the material involved is of a scale where the impacts would not have a materially adverse effect. Any surplus mineral material does not constitute a volume of economically viable mineral and therefore would not enter the mineral supply chain.
Biodiversity	Environmental Impact Assessment	<p>The Authority is satisfied that the Environmental Impact Assessment is proportionate to the scale and likely impacts of the project in the county.</p> <ul style="list-style-type: none"> • The scope and methods of the ecological surveys are appropriate • The mitigation is appropriate • The identification and assessment of effects on biodiversity assets is appropriate
	Environmental Impact Assessment	The Authority has provided comments, via the scoping consultation and statutory consultation, on the Environmental Impact Assessment process and is satisfied that these consultations have led to appropriate changes and that these are reflected in the design, outcomes and mitigation as reported in the Environmental Statement.
Biodiversity	Environmental Impact Assessment	The Authority agrees that, when considering all factors, the selection of the final pipeline route in the county is appropriate in its response to biodiversity receptors within and in the vicinity of the Order Limits.
Methodology for the Environmental Impact Assessment	Environmental Impact Assessment	The Authority agrees that the list of county matter developments and allocations within Hampshire, considered in the cumulative effects assessment and reported in Chapter 15 of the Environmental Statement (enclosed as Appendix A), is satisfactory.

Highways and Transport	General (Highway Authority)	It is agreed all major road (A roads, trunk roads and Motorways) crossings will be trenchless crossings.
Highways and Transport	General (Highway Authority)	<p>The Authority, as Highway Authority, agrees with the wording of the draft Requirement 7 (Construction Traffic Management Plan) as set out in Schedule 2 of the submitted draft DCO.</p> <p>The Authority has provided comments on the Outline CTMP submitted by the Applicant at Deadline 4, and the Applicant will be providing an updated Outline CTMP at Deadline 6. The parties are confident that an acceptable detailed CTMP will be agreed as part of discharging Requirement 7, in consultation with the District Councils within the County.</p>
Highways and Transport	Construction (Highway Authority)	The Authority agrees with the schedule of trenchless highway crossings within Hampshire, as set out in the DCO
Highways and Transport	Construction (Highway Authority)	It is agreed that for multiway works, traffic lights should be avoided where practicable, 2-way traffic signals and /or full road closures to be implemented instead. This will be dependent on health and safety considerations and the local road network.
Highways and Transport	Permit Scheme	<p>The Applicant agrees to use the booking system for street works afforded by the Hampshire County Permit Scheme in order to notify the Authority of its intention to carry out works in the area, The Authority agrees that it will consider any activity requests made under Hampshire County Permit Scheme promptly and recognises the interlinked and cumulative nature of the project's street works.</p> <p>The Parties are continuing to discuss the detailed wording of DCO Article 35 regarding the use of the Permit Scheme and are confident agreement will be reached before the close of the Examination.</p>
Highways and Transport	Construction (Highway Authority)	It is agreed road reinstatement will be undertaken in accordance with the HAUC 'Specifications for the Reinstatement of Openings and Highways', subject to any agreed local variations.
Highways and Transport	Design (Highway Authority)	Electronic notification transfer notices (forward planning information notices) have been submitted to the Authority as per the route of the replacement pipeline included within the application.
Highways and Transport	Permit Scheme	The Authority, as Highway Authority, will work with the project to review all permits (if used) in a timely manner, as prescribed in the Hampshire County Permit Scheme Council Order, to prevent delays to the construction programme. To aid this process all permits to be submitted by the Applicant's Project Team with project reference in their title for easy recognition.
Highways and transport	Public Rights of Way	The Applicant agrees to use the Hampshire County Permit Scheme for applications relating to temporary closure or diversions of Public Rights of Way.

Highways and transport	Transport Assessment in DCO Application	The Authority considers the following documents are satisfactory for the purposes of assessment of the transport impacts: <ul style="list-style-type: none"> • Transport Assessment and the Environmental Statement Appendix 13.1 Traffic (Application Document APP-135; and • Transport Technical Note (Application Document APP-119).
Highways and transport	Logistics Hubs	The Authority confirmed at Deadline 4 that the Local Highway Authority has reviewed the proposed changes to the application and the revised traffic assessments and has no objection to the proposed logistics hubs or concerns regarding expecting traffic movements.
Draft Development Consent Order	Basingstoke Canal	The Authority is satisfied with the project's approach to crossing the Basingstoke Canal. That the trenchless crossing and methodology does not impact on the integrity or function of the canal.
Flooding and Water	Disapplication of Land Drainage Consents under the DCO	The Authority is satisfied with the approach taken and the mitigation measures presented in the Flood Risk Report. Both parties agree to engage early on a few locations for detailed mitigation measures as set out in Annex C of the Outline CEMP.
Highways and transport	Public Rights of Way	Broad agreement has been reached on the approach to crossings of Public Rights of Way, including the details of crossings and the need for short term temporary closures or diversions during construction.
Highways and transport	Construction	The Parties agree that reinstatement of highway/PRoW's could be undertaken by Hampshire Highways Contractors in several locations.
Historic Environment	Archaeological trial trenching	Both parties have agreed the scope and approach for the programme for trial trenching. The approach and extent of trial trenching is set out in the Archeological Mitigation Strategy. Where necessary a Written Scheme of Investigation will be agreed with the Authority prior to this work being carried out.
Archaeology	Archaeological Mitigation Strategy	The Applicant submitted a revised Archaeological Mitigation Strategy at Deadline 4. The Authority confirms that the content of that revised document is acceptable.
Flooding and Water	Protective Provisions	The principles of matters relating to flooding and water have been agreed between the parties. The Parties are continuing to discuss the detailed wording of protective provisions
The Draft Development Consent Order	Working hours	The Applicant and the Authority agree to propose amended DCO text to allow for a variation in working hours in the interests of the good management of the highway network.

4. Matters Not Agreed

4.1.1 The table below sets out the matters not agreed in relation to different topics.

Table 4.1 Matters not agreed

Examining Authority's suggested theme	Topic	Matter not agreed

5. Matters Subject to On-going Discussion

5.1.1 The table below sets out the matters subject to ongoing discussion.

Appendix A

Table 7.1 Long List of DCO/Other Developments considered in the Cumulative Effects Assessment

ID _1	Name of Development	Description	Status	Long List	Tier	Distance from the Project	Temporal Scope / Overlap with Project Timescales	Scale and Nature of Development	Reason for Scoping In / Out	Short listed?
A 1	Heathrow Expansion	Adding a northwest runway at Heathrow to increase air-traffic movement, in addition to supporting airfield, terminal and transport infrastructure, works to the M25, local roads and rivers.	Scoping Opinion received in June 2018	Yes	2	<1km to the north	Yes (Application for development consent due in 2019/2020; Construction starts from 2021).	Schedule 1 EIA development	Potential to have cumulative effects. Scoped into shortlist.	Yes
A 2	Western Rail Link to Heathrow	Rail link from Reading Station to Heathrow Terminal 5 by building a new rail tunnel to link the Great Western Mainline to Heathrow Airport.	Scoping Opinion received in June 2015. Application to be submitted in Summer 2019.	Yes	2	3km	Possible (Planned construction 2020–2027)	Schedule 1 EIA development	Potential to have cumulative effects not anticipated due to the intervening distance between this scheme and the project	No
A 3	Southern Rail Link to Heathrow	Southern rail connection between Chertsey, Virginia Water and Staines with Heathrow Terminal 5.	UK Government is expected to announce the next stage of the process for securing a private sector developer in early 2019. Expected to become operational between 2025-2027.	Yes	3	>500m	No published timetable. However, if operation is due to commence in 2025, construction	Schedule 1 EIA development	Potential to have cumulative effects. Scoped into shortlist.	Yes

ID _1	Name of Development	Description	Status	Long List	Tier	Distance from the Project	Temporal Scope / Overlap with Project Timescales	Scale and Nature of Development	Reason for Scoping In / Out	Short listed?
							could overlap with the project construction timescale.			
A 4	Windsor Rail Link	Phase 1 connects the Great Western Rail Line from Slough and Windsor with the Windsor Waterloo line. Phase 2 connects Heathrow to western and southern parts.	Proposals for both phases of the project were submitted to the government on 31 July 2018. It was rejected by the government in December 2018.	Yes	3	This is 1.9 km at its closest point to the project.	No (Proposal rejected December 2018)	Schedule 1 EIA development	Rejected. Scoped out of shortlist	No
A 5	Water infrastructure projects in Hampshire	This consists of a number of sewer improvements, flood protection schemes, upgrades to treatment works and projects to improve the quality of treated wastewater to meet European legislation.	<p>Otterbourne Water Supply Works: To submit planning application in March 2019. Expected to start construction in winter 2019 and end in spring 2020.</p> <p>Portsmouth Flood Alleviation: Complete.</p> <p>Woolston Wastewater Treatment Works: In construction and due for completion in summer 2019.</p> <p>South Hampshire (The Itchen, Candover and Testwood Water Abstraction): Public Inquiry has now concluded and further plans are being drawn up.</p> <p>Portsmouth Wastewater Treatment Works: Construction activities are currently underway</p>	Yes	1	Nearest is Portswood WTW at 7km	Yes, Otterbourne WSW and South Hampshire and Portsmouth WTW could have overlapping construction timescales with the project.	Schedule 1 EIA development	No direct receptor source pathway identified due to distance from the project. Scoped out of shortlist	No

ID _1	Name of Development	Description	Status	Long List	Tier	Distance from the Project	Temporal Scope / Overlap with Project Timescales	Scale and Nature of Development	Reason for Scoping In / Out	Short listed?
			and due for completion in March 2025.							
A 6	River Thames Scheme	Flood relief channel from Datchet to Teddington Lock	A pre-planning application process was completed in August 2018. Subject to funding, a full planning application may be submitted October 2019.	Yes	2	The scheme intersects the project near Chertsey	Yes (Planned construction 2020–2021)	Schedule 2 development	Potential to have cumulative effects. Scoped into shortlist.	Yes
A 7	Heathrow Western Hub	Expansion of Heathrow Airport including new and reconfigured hub terminal facilities; supporting airfield and transport infrastructure; works to roads and rivers; temporary construction works; mitigation works and other associated and ancillary development.	A Scoping Report has been submitted to the Planning Inspectorate on February 2019	Yes	2	The scheme is located 2.6 km to the northwest from the northern extent of SLP project	Yes (Assuming that grant of DCO is obtained in late 2021, the scheme is expected to be fully completed by 2030)	Schedule 1 development	No direct receptor source pathway identified due to distance from the project. Scoped out of shortlist.	No

B78	13/02469/FUL	Demolition of existing barn and erection of indoor sand school; stabling and horse welfare facilities.	Approved	Yes	1	0 - 500m	Likely	Schedule 2 not EIA development	Not expected to generate cumulative effects due to the scale of the proposed scheme. Scoped out.	No
B79	15/00053/OUT	Outline Planning Application (all matters reserved except access): Erection of about 120 dwellings (including affordable housing), including provision of vehicular and pedestrian access, landscape and ecology management, parking, secure cycle storage and servicing.	Approved	Yes	1	0 - 500m	Likely	Schedule 2 not EIA development	Not expected to generate cumulative effects due to the scale of the proposed scheme. Scoped out.	No

Appendix B.

Response to Corridor Consultation

Subject: Esso Southampton to London Pipeline Project

Esso Southampton to London Pipeline Project Hampshire County Council Countryside Service response April 2018

Thank you for providing us with this consultation opportunity. Please accept this response as being on behalf of Hampshire County Council's Countryside Service. In addition to our statutory responsibility as the Highway Authority for public rights of way, the Countryside Service manages countryside sites and country parks throughout Hampshire. We have the following comments on this proposal.

Comment

The existing route of the pipeline from Boorley Green to Surrey runs through approximately 100 public rights of way, as well as the Pilgrims Trail, the Wayfarers Way, St Swithuns Way and Hangers Way, which are long- distance promoted routes, and the South Downs Way, which is a national trail. The pipeline also goes through the Basingstoke Canal (SSSI), and Blackwater Valley (SINC), which are Hampshire Countryside Sites.

All of the proposed options would have a comparative impact upon the PROW network, and as such, we have no objection to the preferred route of Option G and J. We are concerned about Option F however, as it may run through Abbotstone Down, which is a Hampshire Countryside Site and a SINC/Scheduled Ancient Monument.

As the Highway Authority for public rights of way, Hampshire County Council has a duty to protect and assert the rights of the public to use the rights of way network. There must be no surface alterations to any rights of way, nor any works carried out which could affect their surface, without first seeking the permission of Hampshire Countryside Service. To carry out any such works without this permission would constitute an offence under Section 131 of the Highways Act 1980. The consent for this work would be provided under a Section 278 Agreement, which the applicant will need to enter into with Hampshire County Council.

We welcome the Code of Construction Practice referred to in the consultation brochure, which will 'describe methods to minimise impacts on recreation, for example footpath closures or diversions.' We also welcome the commitment to reinstating the surface of the route after installation. We would like to be consulted on the Code of Construction Practice, so we can help ensure best practice is achieved. For example, all surfaces of rights of way will need to be reinstated to the satisfaction of the Area Access Manager, while all Sites will need to be reinstated to the satisfaction of the site manager.

We note that the brochure also states that the installation of the pipeline could take one to two months in any given area, and may take longer in more complex locations. Where the construction process may affect a right of way, a Temporary Closure Order will need to be secured, and where possible, a suitable alternative route provided for the duration of the works. Temporary Closure Orders should be applied for at least 6 weeks prior to the commencement of works, while details of how to apply can be found at: <http://www3.hants.gov.uk/row/making-changes/temp-closures.htm>

The Countryside Service requests an early meeting at the second consultation stage to discuss this proposal in more detail.

We hope this is of assistance.

Appendix C

Response to Preferred Route Consultation

Memo: Hampshire County Council Preferred Route Consultation Response

Project name: Southampton to London Pipeline Project

Task name: HCC Response: Preferred Route

PINS Reference EN070005

Date: 17/10/2018

HCC Dept: EIA

EIA team project manager: Wendy Phillips

1.0 Project Details

This memo provides a response on the Preferred Route of the Southampton to London Pipeline. This response includes:

- Waste and minerals;
- Landscape and Visual Impact; and
- Highways.

2.0 Comments

HCC Review Comments

Minerals and Waste Our main concern is the potential sterilisation of mineral resources along the proposed pipeline. Safeguarded material is identified in the vicinity of the pipeline proposals in the northern area of Hampshire. In particular as the pipeline route passes Alton, Fleet area and Farnborough Area there are significant bands of mineral resources. There are small bands of reserves between the initial pipeline start at Boorley Green and the Bishops Waltham area which would also need to be taken into account.

In accordance with the National Planning Policy Framework, Hampshire County Council have defined a Minerals Safeguarding Area for Hampshire and adopted appropriate policies in order to prevent the needless sterilisation of specific mineral resources. These policies are contained within the Hampshire Minerals and Waste Plan and associated Safeguarding SPD. The purpose of this policy is to protect potentially economically viable mineral resource deposits from needless and unnecessary sterilisation. The policy seeks to encourage the recovery, where possible, of potential viable mineral resources. The Minerals Safeguarding Area is based on BGS data and can be found online along with the safeguarding policies:

<http://www3.hants.gov.uk/mineralsandwaste/planning-policy-home/hmwp-spds.htm>

The Hampshire Minerals and Waste Plan does contain a shortfall in supply of minerals which is expected to be met by windfall developments. As Mineral and Waste Planning Authority, we would welcome any material recovered as part of excavation for the pipeline to enter into the supply chain. There are some existing permitted quarries nearby to the east of Alton at Kingsley and Frith End quarries as well as in the north at Bramshill Quarry, where there is potential for the material to be taken for processing. However, discussions would need to be had with the quarry operators to ensure that there was sufficient capacity to undertake this additional operation. The mechanism for recovering and recording the level of material recovered should be detailed in a

construction management plan, which should be developed as the development proposals become more refined.

However we are pleased that the route proposals do not appear to impact any existing mineral or waste sites currently operating in Hampshire. However, it is noted that as the route of the pipeline passes Alton, there are some historic landfill sites already identified that will need to be taken into account. Work should be undertaken to ensure that suitable construction management procedures are undertaken in this environment.

We would welcome further discussions on this Strategic Development site as work progresses to assist in the implementation of the Hampshire Minerals and Waste Plan to ensure compliance and to maximise opportunities for mineral safeguarding.

Highways: No comment

Landscape: It is noted that effort has been made to avoid sensitive areas and significant areas of vegetation. In general, we have not identified any major issues regarding the route.

Where the proposed route results in the loss of significant trees we would expect to see mitigation including tree planting to ensure there is no permanent visual impact.

Biodiversity: Overall, the scope of ecological survey work has been suitable and has resulted in a comprehensive and realistic desk-based assessment of the potential receptors. A suite of field-based surveys is underway and will be completed during 2018.

HCC Ecology were previously consulted on the scope of ecological assessments. No major concerns were raised.

The range of species and habitats scoped in is appropriate. Impacts are likely to be limited in extent and duration and so, whilst disruption may be high at particular locations, the long-term impacts are likely to be limited. There may be cases where impacts are more significant for certain species (e.g. the severance/fragmentation of habitat for hazel dormice).

Given the relatively limited extent and short duration of the proposed works, it should be perfectly possible to employ well-recognised mitigation measures to ensure impacts are avoid/minimised. I consider that the range of proposed mitigation/compensation measures recommended is appropriate.

In summary, I do not have any overriding concerns with the biodiversity chapter of the scoping report.

Cumulative effects: The methodologies proposed for the combined and cumulative effects assessments appear reasonable and in line with best practice. We note that no discussion has been provided regarding the limitations of the cumulative effects assessment for example with respect to whether adequate information / evidence would be available for many of the short listed developments to allow for a meaningful cumulative assessment to be undertaken (i.e. adequate evidence is taken to include a Environmental Impact Assessment (EIA) Scoping Report / or similar as a minimum). It would be useful to provide further details in this regard within the ES.

General: We note that the topics air quality, noise, vibration and traffic and transport have not been included as stand alone topic chapters. I would have expected consideration of these specific issues in order to initially assess whether there are likely to be any significant effects on the baseline and provision of justification. This is particularly relevant with respect to noise and vibration during the construction phase. The ES will need to ensure these issues are adequately considered.
