Tue, Jan 25, 2022 at 9:43 AM

Dear all,

Following on from our initial consultation for the HyNet North West carbon dioxide pipeline held in June 2021, we will soon be launching our next round of formal engagement. This statutory consultation will present further details on the proposed development. We are planning to launch this consultation in February this year.

In advance of this consultation, we would like to ensure we are engaging with our stakeholders in the way which works best for them. To this end, please could you confirm that you are happy for us to consult with you via email. This will also include sending you the relevant project information via email.

We would be grateful if you could confirm that you are happy with this approach by responding to this email by Friday 28 January. If you would prefer we use an alternative email address, please respond with updated details.

If we do not hear from you we will, as a default, issue information by post. However, we appreciate that, given the current Covid-19 pandemic, providing information by email may be easier for most people to access.

If you have any queries, please do let us know.

Kind regards,
Kirsty Scott
HyNet North West
