Dear Mr Stephens,

**EN070007 HyNet Carbon Dioxide Pipeline – Change Request**

Further to discussions at the Preliminary Meeting on 20 March 2023 and the Applicant's submission of its Notification of Intention to Submit a Change Request on 21 March 2023 (**document reference: D.7.5**), please find enclosed the Applicant's Change Request.

A full list of documents submitted as part of this Change Request can be found at **Table 1**. Two types of documents are included:

- Those that relate solely to and include only information relating to the change request; and
- New revisions of previously submitted documents, incorporating the change request.

A detailed description of each change and their justification can be found in the Notification letter (**document reference: D.7.5**) and are summarised below:

Please note there was an error in the notification letter (**document reference: D.7.5**) for Change 16 (21 March 2023). We referred to Work No.6 in the Notification, but this should have referred to Work No.11. This is purely an update to the text of the notification letter and does not

impact any submitted documentation as part of this Change Request nor the conclusion that the proposed change did not result in significant changes to the original assessment in the 2022 ES.

**Change 17:** Extension of Order Limits to include existing access from Bridleway (Picton PR4) at Work No. 16a (**Applicant Reference PS24**);
