Dear Jake,

Regarding notification of attendance at the Accompanied Site Inspections [REP1-040] for the above, we note that the ASI's to the site of the proposed Alltami Brook crossing (Stop Point C, 11:15 – 12:00) provisionally scheduled for 10 August 2023 and the River Dee Crossing (Stop Point I, 09:15 – 10:00) provisionally scheduled for 11 August 2023 involve locations of matters that Natural Resources Wales has raised key concerns about in its Written Representations i.e., Water Framework Directive and flood risk management assets respectively. However, we note that these locations have been included at the request of the affected landowner/s [PDA-006] and Flintshire County Council [PDA-005] respectively in relation to different matters to the key concerns raised by NRW. Therefore, we do not currently plan to attend these ASI's and we are continuing engagement with the Applicant in seeking to address our concerns about both key concerns.

However, if the Examining Authority considers that it would be useful for NRW to attend either or both ASI's to the above locations please inform me and I will arrange for NRW's attendance.

If you have any further queries please don't hesitate to contact me.

Best regards,

Chris Jones
