1. INTRODUCTION

1.1. PURPOSE OF THIS DOCUMENT

- 1.1.1. This Statement of Commonality has been prepared in order to provide the Examining Authority (ExA) with the current position on Statements of Common Ground (SoCG) between Liverpool Bay CCS Limited (“the Applicant”) and relevant statutory consultees, statutory undertakers and interested parties (“other parties”) in relation to the proposed HyNet Carbon Dioxide Pipeline (the “DCO Proposed Development”).
- 1.1.2. The Rule 6 Letter dated 20 February 2023 requires the submission of SoCGs requested by the ExA and a Statement of Commonality for SoCGs at Deadline 1 with further updates at each subsequent deadlines (Deadline 2, 3, 4, 5 and 6) up to the submission of finalised SoCGs at Deadline 7 on 5 September 2023.
- 1.1.3. This document provides a current position on the commonality on specific points between SoCGs at Examination Deadline 7 (5 September 2023).

1.2. STRUCTURE OF THIS DOCUMENT

- 1.2.1. The remainder of this document is structured as follows:
- Section 1 sets out the purpose of the document.
 - Section 2 provides an up to date list of SoCGs.
 - Section 3 sets out the current position of the SoCGs.
 - Section 4 sets out the commonality between SoCGs and a summary of the current position.

2. LIST OF STATEMENTS OF COMMON GROUND

2.1. LIST OF SoCGs

- 2.1.1. In accordance with the guidance published by the Department for Communities and Local Government¹ (DCLG), the Applicant has prepared SoCGs with a number of statutory consultees, statutory undertakers and interested parties during the preparation of the DCO and during the Examination stage.
- 2.1.2. The SoCGs identify matters on which parties agree and document the position of each party where agreement has not been reached.
- 2.1.3. **Table 2-1** provides a list of SoCGs that are in place, along with identifying other bodies where a SoCG was requested but which were not considered necessary.

Table 2-1: List of SoCGs at Deadline 7

Document Reference	SoCG Party	Position
D.7.2.1	Flintshire County Council (FCC)	Final Signed SoCG with matters outstanding– Rev F submitted for Deadline 7.
D.7.2.2	Cheshire West and Chester Council (CWCC)	SoCG under discussion – Rev D was shared at Deadline 6A. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.3	Natural England	SoCG under discussion – Rev D submitted for Deadline 7.
D.7.2.4	Natural Resources Wales	Final Signed SoCG with matters outstanding – Rev E submitted for Deadline 7.
D.7.2.5	Environment Agency	SoCG under discussion – Rev B was shared at Deadline 6A. Engagement ongoing, no updated SoCG submitted for Deadline 7.

¹ Department for Communities and Local Government. Planning Act 2008: Guidance for the examination of applications for development consent. London: Department for Communities and Local Government, 2015

D.7.2.6	Historic England	Final Signed SoCG all matters agreed – Rev C submitted for Deadline 6A.
D.7.2.7	Cadw	Final Signed SoCG all matters agreed – Rev D submitted for Deadline 6A.
D.7.2.8	Peel NRE Limited	Final Signed SoCG with matters outstanding – Rev F submitted for Deadline 7.
D.7.2.9	National Highways	Final Signed SoCG with matters outstanding– Rev E submitted for Deadline 7.
D.7.2.10	Welsh Government	Final Signed SoCG all matters agreed – Rev D submitted for Deadline 7.
D.7.2.11	Canal & River Trust	Final Signed SoCG all matters agreed – Rev D submitted for Deadline 7.
D.7.2.12	Cadent Gas	SoCG under discussion – Rev C was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.13	Essar Oil (UK) Limited	SoCG under discussion – Rev C was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.14	Dwr Cymru Welsh Water	Final Signed SoCG with matters outstanding– Rev B submitted for Deadline 7.
D.7.2.15	British Pipeline Agency (BPA)	SoCG under discussion – Rev B was shared at Deadline 5. Engagement ongoing, no updated SoCG submitted for Deadline 7.

D.7.2.16	National Grid Electricity Transmission	SoCG under discussion – Rev C was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.17	United Utilities	SoCG under discussion – Rev A was shared at Deadline 1. A meeting was held with United Utilities on 24 April 2023 to discuss the latest SoCG. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.18	Exolum Pipeline System Ltd	SoCG under discussion – Rev C submitted for Deadline 6A. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.19	National Gas Transmission	SoCG under discussion – Rev D was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.20	Scottish Power Energy Networks (SPEN)	Final Signed SoCG all matters agreed– Rev B submitted for Deadline 7.
D.7.2.21	Lane End Development Ltd	SoCG paused – it is noted by the Applicant that Lane End Development Ltd have recently gone into administration.
D.7.2.22	Enso Energy (land at Picton)	SoCG paused – due to lack of stakeholder engagement to date.
D.7.2.23	Wales & West Utilities	SoCG under discussion – Rev B submitted for Deadline 6A. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.24	Shell	SoCG paused - stakeholder has confirmed that they no longer wish to proceed with a SoCG.

D.7.2.25	Anesco (Land at Thornton Le Moors)	SoCG paused – due to lack of stakeholder engagement to date.
D.7.2.26	Network Rail (England and Wales)	SoCG under discussion – Rev E submitted for Deadline 7.
D.7.2.27	2 Sisters Food Group (Amber Real Estate)	SoCG under discussion – Rev C was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.28	Vertex Hydrogen Limited	SoCG under discussion – Rev A was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.29	CF Fertilisers UK Ltd	SoCG paused – Rev D was shared at Deadline 4. CF Fertilisers have confirmed they wish to rely on Protective Provisions and no longer wish to proceed with an SoCG (see Appendix A for email).
D.7.2.30	Health and Safety Executive (HSE)	SoCG paused – based on the Applicant’s ongoing engagement with HSE and discussions held with them in relation to the DCO process and request for a SoCG, HSE have not expressed any requirement to add a SoCG.
D.7.2.31	Maritime and Coastguard Agency	SoCG not considered necessary by the stakeholder (see Appendix A for email).
D.7.2.32	Royal Mail Group Limited	Final Signed SoCG all matters agreed – Rev C submitted for Deadline 7.
D.7.2.33	The Coal Authority	SoCG not considered necessary by the stakeholder (see Appendix A for email).

D.7.2.34	The Woodland Trust	Final Signed SoCG with matters outstanding – Rev C submitted for Deadline 6A.
D.7.2.35	UK Health Security Agency	SoCG not considered necessary by the stakeholder (see Appendix A for email).
D.7.2.36	Encirc	SoCG under discussion – Rev B was shared at Deadline 6. Engagement ongoing, no updated SoCG submitted for Deadline 7.
D.7.2.37	HyNet North West Hydrogen Pipeline (formerly Cadent Hydrogen DCO)	Final Signed SoCG all matters agreed– Rev B submitted for Deadline 7.
D.7.2.38	Redrow PLC	SoCG paused – stakeholder has confirmed that they no longer wish to proceed with a SoCG.

3. SUMMARY OF CURRENT POSITION

- 3.1.1. This section provides the current position of each SoCG. Where further progress has been made with a SoCG party, the updated version of the SoCG (as at Deadline 7 on 5 September 2023) has been submitted alongside this document.
- 3.1.2. **Table 3-1** provides a high level position and where necessary includes further detail to aid understanding of the ExA. In summary, the high level positions for each SoCG are as follows:
- SoCG in draft – The SoCG is drafted on behalf of the Applicant; it has been shared with the other party and comments are in progress.
 - SOCG in discussion – The SoCG is drafted on behalf of the Applicant, but has not been shared with the other party This is because the stakeholder has either not engaged, or has not yet identified a suitable person to progress or complete the SoCG, or was not clear on their requirement for an SoCG or input required to the SoCG at this stage. In all cases, the Applicant will continue to seek and progress dialogue to confirm and establish requirements.
 - Final Signed SoCG all matters agreed – The final SoCG has been signed by both parties and all matters are agreed.
 - Final Signed SoCG with matters outstanding – The final SoCG has been signed by both parties, and there remain matters outstanding that the Applicant and the other party agree will not be resolved during Examination.

4. COMMONALITY

4.1. SUMMARY

- 4.1.1. This section of the document provides a summary of principal issues covered in the SoCGs and demonstrates where there is commonality in the topics or matters being discussed with the various parties.
- 4.1.2. The summary in **Table 4-1** has been produced following a request from the ExA within the Rule 6 Letter dated 20 February 2023 and relates to those SoCGs being progressed, as summarised in Section 3.
- 4.1.3. The table presents topics covered within the various SoCGs (✓) and shows how these are relevant to each party and a position for each topic as follows:

	Matter agreed
	Matter subject to further discussion
	Matter not agreed
	Matter not relevant
	N/A - SoCG not currently submitted

- 4.1.4. Where a matter is not relevant to a party, it is not included within the SoCG and therefore not covered in **Table 4-1** and shown as a blank

APPENDIX A: CONFIRMATION ON NO SOCG'S REQUIRED

David, Lynsey
As discussed on our call, CF Fertilisers wishes to rely on the Protective Provisions, and not enter into a Statement of Common Ground.

The mark-up changes are acceptable to us.

Regards
John Braddock

+++ THIS EMAIL MESSAGE HAS BEEN SENT FROM AN EXTERNAL SOURCE +++

Nick
Apologies for the delay in circulating the updated PPs – which we have amended to remove the reference to works being carried out on CF Fertiliser property, including various consequential amendments.

Please do let me know if you have any comments on the PPs. We would be very happy to have a call to discuss.

Kind regards
Lynsey

Caution: External Email

Dear Nick,

I hope this finds you well.

As part of our ongoing DCO Examination process we have reviewed the Drainage strategy for the Ince AGI (located on Peel land south of your site). As part of your previous requests (made via Mike Walton) and through feedback from Peel, we have changed our drainage strategy and as such have submitted a change request to remove the land holding (labelled 1-07), which is CF's sole land ownership in the project. This is being submitted as part of Change Request 3 to the Examination Authority later today.

Rev F Land Plans (Prior to Change Request 3)

<https://infrastructure.planninginspectorate.gov.uk/wp-content/ipc/uploads/projects/EN070007/EN070007-002182-D.2.2%20Land%20Plans%20Rev%20F.pdf>

Rev G Land Plans (To be submitted at Change Request 3) - CF's Plot 1-07 is removed.

Lynsey will update the protective provisions (as this removal does not removal all of CF's interests in the HyNet CO2 DCO there are still access impacts on Grinsome Road that have some impact with CF), and will send these to you. After you have received these, perhaps we could setup a meeting to go through these changes (which should make agreement easier now).

Regards,

Dave

Attachments: EN070007 DCO Hynet Carbon Pipeline NSIP ON - TCA Response.pdf

Dear Mr Hooley

Further to your email below we note the request for a Statement of Common Ground (Annex E) within the Rule 6 Letter from the Planning Inspectorate.

As you are aware, our previous comments, dated 11 January 2023 (attached), were based on the professional opinion of the report authors (WSP UK Limited) set out in the Coal Mining Risk Assessment (CMRA) (D.6.3.11.2, Revision A (Environmental Statement – Volume III submitted in support of the Development Consent Order. We concurred with the conclusions of the report authors that intrusive ground investigation works are necessary for sections of the pipeline (Sheet 16 – 19; and 36) to confirm the ground conditions and coal mining legacy features present, and to inform any remedial measures required to address the risks posed to the pipeline, and associated infrastructure, within the identified areas.

On this basis there does not appear to be any disagreement in respect of the further works necessary in this case to ensure that land stability issues are appropriately investigated and dealt with. It would therefore appear that there is no difference of opinion in this case and that a formal Statement of Common Ground is not required.

However, if you wish to discuss this further, or if there are any issues on which you require further clarification, we would be happy to enter into further dialogue with you.

Kind regards

Deb Roberts

Dear Sophie,

Following our discussion on Monday I work for ENI Progetti, an internal engineering consultancy within ENI who are taking forward the CO2 pipeline near Chester as part of the HyNet project. Together with our consultants WSP several Statements of Common Ground have been produced with a number of parties. A Statement of Common Ground (SOCG) with yourselves has been requested within the Rule 6 Letter from the Planning Inspectorate listed here.

[EN070007-001282-HYCO - Rule 4, 6 and 9 final letter.pdf \(planninginspectorate.gov.uk\)](#)

Page 72/80 indicates that the Coal Authority is one of the interested parties highlighted that the Planning Inspectorate would like to see an SOCG implemented.

Would it be possible to have a discussion with yourselves it would be appreciated. As discussed on the call on Monday it could be a simple SOCG that so far the Coal Authority accepts the work done so far by the project and that normal procedures will be followed in line with Coal Authority guidelines as the project progresses.

The PINS reference for the project is EN070007 – the most up to date information is available on the PINS website here: <https://infrastructure.planninginspectorate.gov.uk/projects/Wales/HyNet-Carbon-Dioxide-Pipeline/>

We look forward to hearing from you and either myself, Nic or Natalie (in copy) can be contacted.

Regards

Daniel Hooley

THE HYNET CARBON DIOXIDE PIPELINE DEVELOPMENT CONSENT ORDER
Planning Inspectorate Reference Number: EN070007
NOTICE OF ACCEPTANCE OF AN APPLICATION
FOR A DEVELOPMENT CONSENT ORDER BY THE PLANNING
INSPECTORATE (ON BEHALF OF THE SECRETARY OF STATE FOR
BUSINESS ENERGY AND INDUSTRIAL STRATEGY)

Under Section 56 of the Planning Act 2008, Regulation 8 of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 and Regulation 16 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017

Dear Sir / Madam

The Coal Authority is a non-departmental public body sponsored by the Department of Business, Energy & Industrial Strategy. As a statutory consultee, the Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

Further to the notification received 09 December 2022 from Liverpool Bay CCS Ltd seeking the views of the Coal Authority on the above, I have reviewed Drawing No. HYNET-WSP-VES-XX-DR-GI-0757 Revision 1 (Pipeline Location Plan: Ince to Talacre. I can confirm that parts of the project site fall within the Development High Risk Area as defined by the Coal Authority. Within the specific parts of the site (detailed below), there are recorded coal mining features present at surface and shallow depth which should be considered as part of future development on the site. These features pose a potential risk to surface stability and public safety.

The application is accompanied by Coal Mining Risk Assessment (CMRA) (D.6.3.11.2, revision A (Environmental Statement – Volume III) prepared for the project by WSP UK

Limited. The Report has been informed by an extensive range of source of historical, geological and coal mining information.

Having carried out a review of the available information, the Report informs that only some sections of the pipeline corridor are affected by former coal mining activity. The report notes that in some cases there are recorded shafts or adits present near the pipeline corridor. We hold treatment details for some of these features but for others there are no records available of what treatment, if any, has taken place. The Coal Authority is of the opinion that development over, or in close proximity to, mine entries should be avoided wherever possible, even after they have been capped, in line with our adopted policy:

<https://www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries> We are pleased to note that the report author informs that the pipeline corridor has, where possible, been adjusted to avoid known shafts/adits.

The following sections of the current route of the pipeline lie within the Development High Risk Area and the recorded coal mining features present are as follows:

SHEET 16 and 17 of 37 - WORKS PLAN REGULATION 5(2)(i) APPLICATION DOCUMENT REFERENCE D.2.4. Specific area: Works No. 35 and 36 [Identified as Area 1 – Mancot Lane to Lower Ashton Hall Lane section 4.1.1 of the CMRA]

Our records indicate there are two mine entries (CA shaft ref: 331367-058 and 331367-059); probable shallow coal mining; thick coal seams that may have been worked at shallow depth. The site is also within the boundary of a site from which coal has been removed by surface mining (opencast) methods. In addition, the Coal Authority has in the past been called upon to deal with a surface hazard within the site boundary. The CMRA submitted concurs with our records.

SHEET 18 of 37 - WORKS PLAN REGULATION 5(2)(i) APPLICATION DOCUMENT REFERENCE D.2.4 Specific area: Works No. 41, 41D and 42 [Identified as Area 2 – Old Aston Hill road to Northop Hall Section 4.1.2 of the CMRA]

Our records indicate the presence of four recorded mine entries (three on-site mine entries: CA ref: 329367-062, 328366-179; and 328366-223 and one off-site mine entry: CA shaft ref: 329367-268. In addition, probable shallow coal mining intersects part of Work No. 41 area (land to the south of Holywell Road / junction of access road to 'Bellsfield'); and a coal seam of workable thickness is noted to outcrop at or close to the south western corner (area of Work No. 42) which may have been worked at shallow depths. The CMRA submitted concurs with our records, however we note that the report author states that it is unlikely that unrecorded shallow coal mining has taken place beneath the site.

SHEET 19 of 37 - WORKS PLAN REGULATION 5(2)(i) APPLICATION DOCUMENT REFERENCE D.2.4 Specific area: Works No. 57K, 43B, 43A and 57J [Identified as Alltami Brook: Section 5.0 of the CMRA]

Our records indicate that there are six mine entries (three on-site mine adits CA ref: 327367-053, 327367-048 and 327367-049) and three off-site adits CA ref: 327366-235, 327366-235 and 327367-234); recorded shallow coal mining; and a coal seam of workable thickness outcrops at or close to the site that may also have been worked at shallow depths. These mining features are present within the area to the west and east of Pinfold Lane and north of Magazine Lane, Ewloe.

The CMRA identifies the two mine adits and comments that a geophysics survey was carried out to confirm the presence of these features. The report author states that no indication of the mine adits were found, although a potential void was located in the north eastern corner of the field. However it is noted that due to sight constraints, a full survey was not completed.

SHEET 36 and 37 of 37 - WORKS PLAN REGULATION 5(2)(i) APPLICATION DOCUMENT REFERENCE D.2.4 Specific area: Existing Pipeline[Identified as Point of Ayr Section 4.2 of the CMRA]

Our records indicate that the zone of influence of a recorded mine entry (CA shaft ref: 311382-011) extends into the red line boundary and the site lies within an area of probable shallow coal mine workings.

The CMRA states that the site does not lie within an area of probable historic unrecorded shallow coal mining however there are two recorded mine entries within the site. The Report makes reference to Coal Mining Report ref: 51002948750001, however I have not been able to find this specific Report in Appendix B. Nevertheless, it is acknowledged that this part of the project is the existing pipeline, which is to be decommissioned and then commissioned with a new plant (temporary storage compound). It therefore appears that no changes or new development is being proposed in this area.

After reviewing the specific areas of pipeline affected by former coal mining activity, we are pleased to note that recommendations have been made by the report authors for the pipeline routing to avoid these areas where possible. In the event that the pipeline cannot avoid the areas, recommendations have been made within the report that intrusive ground investigations will be required in order to confirm the ground conditions present and inform any remedial measures required to mitigate the risk posed to the pipeline and associated infrastructure.

Where recorded mine entries are present, recommendations have been made for these will need to be cordoned off and careful excavation around these areas performed, if necessary, for the pipeline installations. It is noted that the report author states that the zone of the potential shafts should be determined from the Coal Authority's reports. We consider it would be prudent however for the report authors, or other technically competent persons, to carry out a positional review of all recorded mine entries in order that the best plot positions of these features can inform the cordoned off areas, amended route or the extent of any intrusive ground investigations.

We welcome the comments made that unrecorded mining features could be present and therefore vigilance should be maintained during site preparation and groundworks within the identified areas.

The intrusive site investigations should be designed and undertaken by competent persons to ensure that these are appropriate to assess the ground conditions on the site to establish the coal-mining legacy present and the risks it may pose to the development and inform any mitigation measures that may be necessary.

Permission is required from the Coal Authority Permit and Licensing Team before undertaking any activity, such as ground investigation and ground works, which may disturb coal property.

Based on the information submitted, the Coal Authority considers that the applicant has identified the coal mining risks associated with the project site and set out appropriate measures to mitigate the risk that these may have to the development.

It is recommended that the measures proposed (Section 6.5) within the submitted Coal Mining Risk Assessment (CMRA) (D.6.3.11.2, revision A (Environmental Statement – Volume III) prepared by WSP UK Limited to address the risks posed to the development by past coal mining activity are included as requirements of any Order granted for the project.

I hope that this is helpful, however please do not hesitate to contact me if you required any further assistance with this matter.

Yours faithfully

Deb Roberts M.Sc. MRTPI

Planning & Development Manager

Date: 11 January 2023

Mr David Walker
HyNet CO2 T&S Project Manager
Progressive Energy Ltd
Thornton Science Park
Pool Lane
Chester CH2 4NU

26th April 2023

Dear Mr Walker

**Nationally Significant Infrastructure Project
Hynet North West Carbon Dioxide Pipeline – Statement of Common Ground (SoCG)**

Further to the discussion on 4 April 2023, between UKHSA, Office for Health Improvement and Disparities (OHID), Progressive Energy and WSP, where the UKHSA response to the RoI for the above project was discussed. I write to suggest that a SoCG is not required between us. ***Please note that we request views from OHID and that this response is sent on behalf of both UKHSA and OHID.***

UKHSA or its predecessors have previously responded to the following consultations for this project:

- Scoping consultation response dated 2 July 2021
- Public consultation Section 42 response 22 March 2022
- Further public consultation response dated 22 July 2022
- Registration of Interest response dated January 2023

Our comments raised at the Scoping and Section 42 stage, had all been addressed at the Registration of Interest stage, except for concerns over the limitations of the methodology used within the Population and Human Health chapter. Population and human health assessments typically use either the HUDU (Health Urban Development Unit) or DMRB (Design Manual for Roads and Bridges) LA112 methodology, however neither include an assessment of significance which is required within the EIA Regulations. In November 2022

guidance was issued by IEMA to aid the determination of significance¹. For this specific project we had concerns over the lack of significance assessment within the DMRB LA112 methodology used. However, upon further consideration of the specifics of the scheme and the results of the assessment presented at the registration of interest stage, we recognise that recommending further significance assessment would not alter the findings and we are satisfied with the conclusions drawn. Overall are satisfied that there are no outstanding areas of concern or disagreement and therefore suggest that a SoCG is not required.

Yours sincerely

On behalf of UK Health Security Agency
