

Anglian Water anticipates that the applicant will have agreed a detailed route across Anglian Water's land before Deadline 3 on 11 June 2024. Anglian Water may wish to speak at the Compulsory Acquisition Hearing on or about the 28 June 2024 to support the applicant's reduction in temporary land take. Alternatively, and in the unlikely event no agreement has then been reached, Anglian Water would attend to update the ExA on the position and Anglian Water's then view of any alternative proposal by the applicant and its likely agreement by Anglian Water.
