1 Introduction

1.1 Overview

1.1.1 This Statement of Common Ground (SoCG) has been prepared by Chrysaor Production (UK) Ltd (the 'Applicant') in conjunction with Phillips 66 UK Limited ('P66'), together the Parties.# in respect of the Viking CCS Pipeline project (the 'Proposed Development').

1.1.2 The SoCG sets out the matters of agreement between the Applicant and Phillips 66 UK P66 Limited and also explains those matters which, at the time of writing, remain unresolved between the partiesParties. The agreements to date have been reached through consultation and continuing discussions between the partiesParties through online meetings.

Commented [WM1]: "Jointly the Parties"?
Feels like a definition of Parties is missing.

1.2 The Role of Phillips 66 Limited P66

1.2.1 Phillips 66 The P66 Humber Refinery is located on the east coast, in North Lincolnshire, UK. It processes crude oil supplied primarily from the North Sea and includes light, low- and medium sulphur and acidic crude oil. It is one of the most sophisticated refineries in Europe. The Immingham Facilities forming part of the Proposed Development are to be sited adjacent to the Phillips 66 Humber Re-refinery, on land owned by Phillips 66 P66.

1.3 Purpose of this Statement of Common Ground

1.3.1 The purpose of this document is to summarise the agreements reached between the partiesParties on matters relevant to the examination of the application and to assist the Examining Authority ('ExA'). It also sets out the matters that remain unresolved at the time of writing, but which both partiesParties are working positively toward resolving. As such, it is expected that further iterations of the SoCG will be submitted to the ExA throughout the Examination and prior to the making of any Development Consent Order ('DCO') for the Proposed Development.

1.3.2 The SoCG has been prepared with regard to the guidance in 'Planning Act 2008: examination of applications for development consent' (Department for Communities and Local Government, March 2015).

1.3.3 The remainder of this SoCG is structured as follows:

- Section 2 – Summary of consultation and discussions; and
- Section 3 - Position of the partiesParties

1.4 Status of this Statement of Common Ground

1.4.1 This SoCG is currently in draft form.

2 Summary of Consultation and Discussions

Introduction

2.1.1 In addition to the consultation undertaken as part of statutory consultation, there have been a number of meetings and correspondence relating to the Proposed Development. Details of various meetings and key correspondence are set out in Table 2-1 Record of meetings and correspondence with #. Table 2-1 below.

Table 2-1 Record of meetings and correspondence with #.

Date of meeting/ correspondence	Description of meeting/correspondence
Numerous	<p>Technical discussions have been held over a number of years, as Phillips 66P66 is an anchor emitter, which is committing to request sequencing to the Proposed Development and part of the Track 2 process. The discussions have focused on entry specifications to the Proposed Development as well as the siting of the Immingham facilities.</p> <p>The Applicant and Phillips 66P66 have also been engaged on agreeing necessary land rights for the Proposed Development.</p>
