

To Whom It May Concern,

I am writing to express my agreement to the construction of the Viking CCS Pipeline Scheme. Specifically, I would support any change application to the Viking CCS DCO application that sought to relocate the Block Valve Station onto land within my ownership that is south of Alvingham Road.

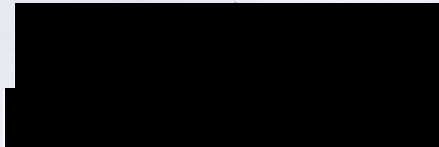

A relocation to this effect would minimise the impact on my land and facilitate more efficient farming of the remaining area post construction.

Thank you for your attention to this matter.

Sincerely,

Signed by

Thomas Stuart Shucksmith
