**Cc:** [REDACTED]  
**Subject:** Net Zero Teesside Power Limited representation on H2Teesside DCO

---

Planning Inspectorate Reference: EN070009.

We write on behalf of Net Zero Teesside Power Limited (NZTP), who is a party to The Net Zero Teesside Order 2024 DCO. This project a combined cycle gas turbine ('CCGT') electricity generating station with an abated capacity up to circa 860 MW of low carbon electricity, cooling water, gas and electricity grid connections and CO2 capture..

As part of the project plans, the NZTP carbon capture project is a proposed anchor emitter project for the NZNSS CO2 transportation and storage system and alongside the H2 Teesside Project has been chosen by the Government in the first tranche of successful emitter projects for the East Coast Cluster.

NZTP welcomes that the H2Teesside project ('the H2T Project') is being brought forward at Teesside, as the H2T Project will support decarbonisation of the region.

NZTP has been, and continues to be, in commercial discussions with the Applicant and it therefore strongly supports the principle of the H2T Project, there are however, certain land, programme and engineering interaction concerns arising from the Applicant's DCO application which are under discussion for mutual resolution.

Those discussions have been positive and NZTP is confident an agreement will be reached directly with the Applicant in respect of these concerns. In the event an agreement is not reached with the Applicant, NZTP will require appropriate protections are included within the H2Teesside DCO.

In this context, this letter constitutes our Relevant Representation for the H2T Project and our registration as an Interested Party to enable us to participate in the Examination of the H2T Project as necessary.

Regards

Paul Edwards
