You don't often get email from [REDACTED] [Learn why this is important](#)

Hello

I am the sole legal counsel at MGT Teesside Limited (interested party reference above). MGT owns a 299MW biomass power station at the northern end of Tees Dock Road.

We are listed in the Book of Reference as having an access interest in plots 16/1, 16/2 and 16/3. The north-western end of plot 17/1 also adjoins a critical electricity cable easement area that we hold.

Firstly, I would be grateful if you could please use my email address for further correspondence to MGT.

Secondly, we have contacted the proponent's representatives to make them aware that:

1. Plots 16/1, 16/2 and 16/3 represent MGT's sole means of road access to the power station and uninterrupted access is essential
2. The electricity cable adjoining the north-west corner of plot 17.1 is also essential to our generation and sale of electricity, so care needs to be taken in respect of any works in the vicinity of this cable.

We would be grateful if this could be considered in this process.

Kind regards

Gary
