

We wish to register our notification to speak at an Open Floor Hearing on behalf of our client Natara Global Limited (Interested Party Reference number: 20049369). Whilst our client supports the Project in principle it objects to the Development Consent Order application due to the absence of protective provisions to safeguard the safe and continuous operation of our client's business at the Property, which is subject to proposed powers of compulsory purchase and temporary possession sought by the Applicant. Natara remains willing to work with the Applicant to develop such protective provisions, and Heads of Terms for a voluntary agreement, and hopes suitable drafts will be received soon.
