**Summary of the Oral Submission of Sembcorp Utilities (UK) made at ISH2
Interested Party Reference: 20049379**

1. **Introduction**
 - 1.1 This written summary of oral submissions is submitted in accordance with Deadline 4 of the examination timetable for the application by H2Teesside Limited (the "**Applicant**") for an Order under the Planning Act 2008 granted Development Consent for the H2Teesside Project (the "**DCO**").
 - 1.2 The summary of oral submissions relates to submissions made at Issue Specific Hearing 2 ("**ISH2**") on 14 November 2024 on behalf of Sembcorp Utilities (UK) Limited ("**Sembcorp**").
2. **Submissions in relation to requirements**
 - 2.1 As outlined during ISH2, Sembcorp is concerned that unlike the Net Zero Teesside Order 2024 ("**NZT DCO**"), the proposed requirements in the draft DCO submitted by the Applicant do not provide for any consultation with Sembcorp. Such consultation is required, because there are significant overlaps between the H2 Teesside scheme and Sembcorp's land interests across the Wilton estate and the Sembcorp pipeline corridor. Sembcorp's role in managing works within these areas is fully explained within its Relevant Representation (RR-015) and it is key that has an opportunity to comment on the discharge of requirements relating to detailed design matters.
 - 2.2 Sembcorp undertook to provide a written list of requirements to the Applicant on which it requests consultation. This list was provided on 18 November 2024.
