## 1.0 SCHEDULE OF CHANGES MADE TO THE DRAFT DEVELOPMENT CONSENT ORDER ('DCO')

### 1.1 Introduction

1.1.1 The table below details the changes made to the draft DCO since its submission, providing the changes made at each relevant deadline. The latest amendments to the draft DCO are in the white shaded rows, with previous ones shown shaded grey. The latest amendments to the draft DCO relate to those made at Deadline 5. The table below does not detail minor amendments made in relation to typographical errors, formatting and style errors and updates in cross-referencing (unless they were matters highlighted by the Examining Authority as part of their First Written Questions which have been included here for completeness). These minor amendments can be seen on the tracked version of the draft DCO submitted at Deadline 5.

Article 8 (Consent to transfer benefit of this Order)	Deleted references to Work Nos. 6A.3 and 6B.3 from article 8(6)(a)(iii).	Deleted as Work Nos. have been removed from Schedule 1 as part of the Change Request Application.	Change Request App (rev. 3)

The Applicant is still engaged in negotiations with PDT on this point, but the purpose of the amendment is narrow the scope of the disapplication from the entire “authorised development” to specified Work Number areas.	Deadline 5
Article 16 (Traffic Regulation Measures)	Inserted a new article 16(4): <i>‘(4) Before exercising the power conferred by paragraph (2) the undertaker must—</i>	Insertion added following consideration of the ExA’s FWQs for clarity that the consent of the traffic authority is required when exercising powers under article 16(2). <p>acquisition of rights etc.)</p>			
<p>Article 25 (Compulsory acquisition of rights etc.)</p>	<p>At the end of article 25(2), inserted ‘pursuant to article 8(2) (consent to transfer benefit of this Order)’.</p> <p>Amended article 25(3) to (underlined text has been inserted and text in strike-through has been deleted):                  ‘(3) The <u>powers of paragraph (1) may also be exercised by a statutory undertaker in any case where the undertaker transfers the power to a statutory undertaker and the Secretary of State’s consent is not required for any statutory undertakers to whom the benefit of the Order has been transferred pursuant to article 8(6) (consent to transfer benefit of this Order) and the undertaker has notified the Secretary of State and, where the transfer or grant relates to the STDC area, STDC and Teesworks Limited in writing pursuant to article 8(7).</u>’</p>	<p>Amendments made for greater clarity so that a statutory undertaker can exercise powers to compulsorily acquire rights pursuant to article 25 so long as the statutory undertaker has been granted or transferred the benefit of the Order in accordance with the process in article 8. The amendments have been made in response to comments received during Issue Specific Hearing 2.</p>	<p>Deadline 4</p>
<p>Article 29 (Special category land and replacement special category land)</p>	<p>Inserted the words ‘<i>the undertaker has exercised a relevant Order power over the replacement special category land</i>’ into Article 29(1) so that it reads: ‘<i>The undertaker must not exercise the relevant Order powers in respect of the cowpen bewley special category land until the undertaker has exercised a relevant Order power over the replacement special category land and the relevant planning authority has approved a scheme for the layout of the replacement special category land.</i>’</p>	<p>Amendments made further to the ExA’s FWQs to provide further certainty that the Replacement Special Category Land will be laid out by the Applicant.</p>	<p>Deadline 2</p>

	<p>Inserted at the beginning of article 29(3): <i>'The undertaker must lay out and provide the replacement special category land in accordance with the scheme approved under paragraph (1) and on the date....'</i></p> <p>In article 29(7), inserted reference to paragraph (3) alongside paragraph (1).</p>		
<p>Article 29 (Special category land and replacement special category land)</p>	<p>Inserted additional text into articles 29(1) and (2) to read as follows:                  '29.—(1) The undertaker must not exercise the relevant Order powers in respect of the cowpen bewley special category land until the undertaker has—                  (a) exercised a relevant Order power over or has taken possession of the replacement special category land;  <b><u>(b) obtained the approval of the relevant planning authority for a scheme for the layout of the replacement special category land; and</u></b>  <b><u>(c) notified the relevant planning authority of the extent of the cowpen bewley special category land (acquisition) and cowpen bewley special category land (rights) that paragraph (2) is to operate against when all of the requirements in this paragraph have been satisfied.</u></b></p> <p>(2) On the requirements of paragraph (1) being satisfied—</p>	<p>The amendments have been made to improve clarity in respect of the provision of vesting of the Cowpen Bewley Special Category Land and the provision of the Replacement Special Category Land.                  The amendments to article 29(1) make it clear and provide certainty that the Cowpen Bewley Special Category Land cannot vest in the undertaker until all the requirements set out in article 29(1) have been fulfilled. These are:</p> <ol style="list-style-type: none"> <li>1. Either exercised a power such as temporary possession over the Replacement Special Category Land or taken possession of it via an agreement.</li> <li>2. Obtained approval for a scheme for the layout of the Replacement Special Category Land.</li> <li>3. Notified the relevant planning authority about the extent of the Cowpen Bewley Special Category Land it wants to acquire outright and the extent of the land it wants to acquire permanent rights within.</li> </ol> <p>The amendments to article 29(2) aim to describe how the Cowpen Bewley Special Category Land vests to the extent</p>	<p>Deadline 5</p>

	<p><b><u>(a) the extent of the cowpen bewley special category land (acquisition) that was notified to the relevant planning authority under paragraph (1)(c), vests in the undertaker and is discharged from all rights, trusts and incidents to which it was previously subject <u>save for any rights held or apparatus owned or operated by statutory undertakers; and</u></u></b></p> <p><b><u>(b) the rights and restrictive covenants set out in column 2 of table 1 in respect of the extent of each plot of the cowpen bewley special category land (rights) that was notified to the relevant planning authority under paragraph (1)(c) are vested for the benefit of the undertaker and its undertaking and, to the extent of each plot that was notified under paragraph (1)(c), are also discharged from all rights, trusts and incidents to which it was previously subject save for any rights held or apparatus owned or operated by statutory undertakers.</u></b></p> <p>Insertion of a new Table 1 setting out the rights and restrictive covenants to be acquired or imposed through the powers operating in article 29.</p> <p>Minor amendments to drafting in article 29(4), (5) and (6).</p>	<p>as notified by the undertaker to the relevant planning authority.</p> <p>The new terms “Cowpen Bewley Special Category Land (acquisition)” and “Cowpen Bewley Special Category (rights)” inserted into article 2(1) are drafted to enable flexibility in what the Applicant acquires in the Cowpen Bewley Special Category Land overall. The “Cowpen Bewley special category land (acquisition)” plots are pink plots only while the “Cowpen Bewley special category land (rights)” consists of both pink plots and blue plots – this is to enable a scenario where, if following detailed design, the Applicant decided that it only needed to acquire permanent rights in what is shown as a pink plot on the special category land plans, then it would be able to “roll-back” from the pink position on the plans and have permanent rights (blue) instead.</p> <p>Article 29(2) is also drafted to account for protected interests of statutory undertakers in the Cowpen Bewley Special Category Land.</p> <p>The new Table 1 sets out the rights and restrictive covenants to be acquired or imposed through the powers operating in article 29. The corresponding entries for these plots in Schedule 9 have been deleted to avoid duplication.</p> <p>This is similar to how the DCO’s main compulsory acquisition powers operate, allowing the undertaker to acquire a ‘lesser’ interest where possible.</p>

Article 32 (Temporary use of land for carrying out the authorised development)	Inserted ‘necessary for the authorised development within the Order land’ at the end of article 32(14).	Amendment made in response to comments from the Examining Authority in the Issue Specific Hearing 2. It provides for consistency of drafting between article 32(14) and article 33(13).	Deadline 4
Article 34 (Statutory undertakers)	Amended Schedule numbers to “16 to [39]”.	Amendment reflects the inclusion of draft public protective provisions for third parties at the end of the DCO.	Deadline 5
Article 39 (Planning permission, etc)	In articles 39(1) and 39(3), inserted ‘any development consent granted (either prior to or after the Order has come into force) under the powers conferred by the 2008 Act’ after the reference to the 1990 Act. In article 39(3), inserted reference to ‘or requirements’ after ‘conditions’.	These amendments have been made for greater clarity and to be clear that these provisions operate in relation to development consent orders as well as planning permissions.	Deadline 4
Article 41 (Protection of interests)	Amended [22] to [39].	Amendment reflects the inclusion of draft public protective provisions for third parties at the end of the DCO.	Deadline 5
Article 48 (Interface with anglo american permit)	Inserted new article 48 to make it clear that the <i>‘carrying out of an authorised activity by the undertaker shall not constitute a breach of, or non-compliance with the anglo american permit’</i> .  The <i>‘anglo american permit’</i> is defined as <i>‘environmental permit number FB3601GS’</i> and <i>‘authorised activity’</i> is defined as <i>‘any works or activities authorised by this Order, works carried out in connection with the authorised development, or the exercise by the undertaker of functions conferred by this Order’</i> .	This article has been inserted to address Anglo American’s (AA) concern (paragraph 4.3 of its Relevant Representation [RR-010]) that their environmental permit covers land that could be compulsorily acquired by the Applicant using the DCO. The concern is that if the land is compulsorily acquired, AA would still be responsible for the operation of the permit. The new article 48 ensures that authorised activity undertaken by the undertaker does not constitute a breach of their permit.	Deadline 2

		It is envisaged that Protective Provisions (following the example in The Net Zero Teesside Order 2024 and to be agreed between the parties) would provide for how the AA is consulted on how the project is built in this area and provide for any access arrangements required for monitoring and for the continued operation of the permit.	
Article 48 (Interface with anglo american permit)	In article 48(1), deleted the words 'by the undertaker'.	Amendment made to improve clarity of drafting.	Deadline 4

The ES Chapter 4 at paragraph 4.3.21 and the EM at paragraph 3.8.16 describe the hydrogen distribution network and explains how hydrogen “would be exported using the proposed Hydrogen Pipeline Corridor... The hydrogen pipelines would commence and finish at AGIs including metering and pigging skids and tie-in points with the relevant offtaker. The latter are likely to be, but not necessarily having to be, within the off-takers’ site boundaries. Following consideration of the ExA's FWQs and consideration of the Requirement, the Applicant has inserted carve outs from this Requirement for preparing facilities for contractors and temporary means of enclosure and site security where no foundations are required.
