9				Y	Y	Y		Y		Y	Y	Y	Y	Y	Y	Y	Y	N	N	N	N			No EIA was determined to be required for the development. This application is considered in the future baseline as it will likely be complete before commencement of construction of the Proposed Development.
10			Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	N	Y	N	Y			No ES / Scoping Report submitted for this development. Scale and nature of the development are such that cumulative effects are not likely.
11				Y	Y	Y				Y	Y	Y	Y	Y	Y	Y	Y	N	Y	N	Y			No ES / Scoping Report submitted for this development. Due to the nature of the development and short duration of the development, cumulative effects are not likely.
12	Y			Y						Y	Y	Y	Y	Y	Y	Y	Y	N	Y	N	Y			No ES / Scoping Report submitted as Screening Opinion determined EIA not required. Due to duration of development, it is unlikely there will be cumulative effects.

95			Y						Y	Y	Y	Y	Y	Y	Y		Y	Y	Y	Y	N	Y	This development was originally scoped out due to the lack of construction temporal overlap between this and the Proposed Developments. However, the environmental permit application for the Graythorpe Energy Centre was recently refused, and there is not enough available information on the operational capability of the development to include in an operational baseline for the purposes of the air quality assessment. In order to ensure a worst case scenario, and in accordance with the Inspectorate's Advice Note on Cumulative Effects, this development has been scoped in to further assessment for the Cumulative Effects Assessment update.
96			Y						Y	Y	Y	Y	Y	Y	Y		Y	N	Y	N	N		No relevant planning applications identified, therefore the developments are unlikely to progress at a rate that would result in construction overlap with the Proposed Development.
97		Y	Y	Y	Y		Y		Y	Y	Y	Y	Y	Y	Y	Y	Y	N	Y	N	N		Local Plan allocation with a couple of applications which relate to it including: H/2021/0516 for the installation of six modular cabins for induction centre building, and H/2019/0055 for the installation of four gas fired boilers and associated modular electrical/control building, pipework, exhaust stack and associated works. Scoping out as neither application is of a scale or nature that would be likely to result in cumulative effects.
98			Y						Y	Y	Y	Y	Y	Y	Y		Y	N	Y	N	N		Local plan allocation with a couple of applications relating to it including ID 95 (H/2019/0275) and application H/2019/0491 for a storage and distribution building, office building and welfare building. ID 95 has been scoped out and H/2019/0419 is of a nature that is unlikely to result in cumulative effects, therefore local plan allocation scoped out too. This remains scoped out to avoid double counting ID 95.
