During this meeting, CF Fertilisers raised their concern around the routing of the indicative pipeline through their land. The Applicant had initially suggested an alternative routing in 2022 however, at the time, CF Fertilisers did not believe this was viable. The Applicant and CF Fertilisers will continue to engage on a technical level to establish suitable routing through their operational and non-operational land.	The Applicant and CF Fertilisers have continued discussions in relation to the project and has had various discussions with the Applicant and Dalcour Maclaren. Both parties have agreed in principle the way to progress, and the Applicant's solicitors are currently in the process of drafting updated agreements to provide to CF Fertilisers' solicitors.	The Applicant's appointed agent, Dalcour Maclaren, and CF Fertilisers have had continued discussions on the Heads of Terms and the parties are hopeful that the necessary land rights can be secured via a voluntary agreement. CF Fertilisers is not yet content that protective provisions are the appropriate method to protect its interests. In this context, the Applicant and CF Fertilisers are continuing to discuss the appropriate documentation (including a potential form of protective provisions) in order to protect CF Fertilisers' apparatus	Negotiating	No	18/12/2024

Dalcour Maclaren was provided with an alternative contact for communications with Natara Global in August 2024 and are arranging a further technical site meeting to introduce the Proposed Development to the new contact and discuss land agreements.	The Applicant and Dalcour Maclaren held a technical site meeting with Natara Global on the 12th September 2024 to progress negotiations relating to the voluntary agreement. This meeting has facilitated an understanding between the parties, particularly on the interaction between the Proposed Development and Natara Global's operations within the site. The parties are now progressing the discussions on the Heads of Terms.	The Applicant's Agent has continued to correspond with the Landowners Agent by email and have progressed negotiations since the site meeting on 12th September 2024 on the Heads of Terms and Protective Provisions . A further meeting in between the Applicant, the Landowner, their land agents and their respective solicitors took place on 18 December 2024. This has assisted in clarifying the landowner's underlying practical concerns and next steps have been agreed in order to progress a proposed agreement between the parties to address these. The Applicant shall continue to engage with the Landowner and its representatives and is hopeful that the necessary land rights and all other pertinent matters can be resolved through a voluntary agreement. The Applicant and Dalcour Maclaren held a meeting with NGET and Ardent on 27th June 2024, during which Ardent informed the Applicant there may be conflicts between the proposed development and NGET's operational development plans in the area. The Applicant will continue discussions in relation to a voluntary agreement and the proposed development details.	The Applicant and Dalcour Maclaren's most recent meeting with NGET and their agents, Ardent, occurred on 16th September 2024. The parties continue to discuss the interactions between the Proposed Development and NGET's freehold interest at the Saltholme Substation site.	The Applicant and their appointed agent have continued to engage with NGET by way of emails and online meetings. These discussions have primarily been around NGET's own expansion plans at their Saltholme Substation and the future interaction with H2Teesside. The Applicant acknowledges that there are outstanding issues to be resolved with NGET to facilitate a voluntary agreement. The Applicant will continue to engage with NGET and their representatives to seek a resolution to their objections. The Applicant is hopeful that a voluntary agreement can be secured. The Applicant's legal representatives continue to negotiate the Protective Provisions. Draft Protective Provisions are currently with NGET for review and comment.	Issued	No	18/12/2024

The parties' commercial and technical discussions have made significant progress and continue to work toward a voluntary agreement.	The Applicant's proposals on Anglo American Woodsmith (Teesside) Limited's land are partially similar to the NZT Project's proposals / land requirements, and they therefore have a good understanding of these aspects. Meetings continue to be held and good progress is being made towards a voluntary agreement.	The Applicant is continuing to have meaningful weekly meetings with Anglo American to discuss the land agreements, as well as technical meetings. The Applicant is in discussions with Anglo American's solicitors regarding the side agreement and Protective Provisions and is currently reviewing the Applicant's comments on this document. The Applicant also received Anglo American's preferred version of public Protective Provisions. The Applicant has incorporated the aspects of Anglo American's public protective provisions that are agreed. Commercial considerations are mainly agreed and negotiations are ongoing with the legal representatives on the long form agreements.	Negotiating	No	18/12/2024
