During this meeting, CF Fertilisers raised their concern around the routing of the indicative pipeline through their land. The Applicant had initially suggested an alternative routing in 2022 however, at the time, CF Fertilisers did not believe this was viable. The Applicant and CF Fertilisers will continue to engage on a technical level to establish suitable routing through their operational and non-operational land.	The Applicant and CF Fertilisers have continued discussions in relation to the project and has had various discussions with the Applicant and Dalour Maclaren. Both parties have agreed in principle the way to progress, and the Applicant's solicitors are currently in the process of drafting updated agreements to provide to CF Fertilisers' solicitors.	The Applicant's appointed agent, Dalour Maclaren, and CF Fertilisers have had continued discussions on the Heads of Terms and the parties are hopeful that the necessary land rights can be secured via a voluntary agreement. CF Fertilisers is not yet content that protective provisions are the appropriate method to protect its interests. In this context, the Applicant and CF Fertilisers are continuing to discuss the appropriate documentation (including a potential form of protective provisions) in order to protect	The Applicant continues to negotiate with CF Fertilisers. Some outstanding matters remain to be agreed; however, the parties are progressing the principles of these. The Applicant continues to work with CF Fertilisers in order to conclude a voluntary agreement. For Updates on Protective Provisions, please see document 8.39 - Protective Provisions Statement. The Applicant continue to progress voluntary agreement discussions with Sembcorp, holding regular meetings. The parties have agreed to mirror principles agreed in prior agreements and the parties still continue to work on the principles of an agreement.	The Applicant continues to have regular weekly meetings with Sembcorp in relation to the land agreements, technical matters and Protective Provisions. The Applicant is continuing to negotiate the land agreements and is making good progress on Heads of Terms. The Applicant and Sembcorp Utilities (UK) Limited are at a critical stage of negotiations of the Protective Provisions for the Proposed Development and it would therefore not be constructive for Protective Provisions to be submitted at deadline 5. The Applicant and Sembcorp Utilities (UK) Limited will continue negotiations but with the Christmas break approaching, it is considered that deadline 7 is a more realistic date by which finalised Protective Provisions can be submitted.	The Applicant is continuing to have weekly meetings with the Affected Party regarding the Heads of Terms and further points have been agreed in principle. The Applicant remains confident that the necessary rights will be secured through a voluntary agreement. Disbair Maclaren continue to engage with Network Rail to reach a voluntary agreement. The Applicant has now received all three technical clearances required from Network Rail Infrastructure Limited.	The Applicant and their representatives, Disbair Maclaren and Piersent Masons, continue to progress voluntary agreement discussions with Network Rail and their representatives, Dentons LLP. The parties have agreed to mirror principles agreed in a prior agreement, which still requires work but is being progressed.	The Applicant continues to engage with Network Rail and further meetings have taken place. The Applicant is confirming a number of technical points raised by Network Rail and will seek to move forward with agreeing terms for the required crossings. The Applicant is awaiting a full response on the commercial terms offered as part of the previously submitted terms. The Applicant has asked Network Rail's solicitors to provide Protective Provisions for further discussion.	The Applicant has reached advanced stages of negotiations on the Heads of Terms with the Affected Party with a small number of outstanding matters still outstanding. The Applicant is confident that a voluntary agreement will be reached with the Affected Party. For Updates on Protective Provisions, please see document 8.39 – Protective Provisions Statement. The parties' commercial and technical discussions have made significant progress since their last meeting held on 12th July 2024 and the parties continue to work towards a voluntary agreement.	The Applicant and their representatives Dalour Madaren continue to meet with Cats North Sea Limited in order to finalise the principal terms of a voluntary agreement for a related project that has identical requirements and discussions are at an advanced stage. The Applicant intends to mirror the principles of this prior agreement for H2 Teesside.	The Applicant and CATS North Sea Limited have now established a recurring weekly interface meeting and continue to explore the potential interactions between the proposed development and the CATS infrastructure. This technical interaction is informing the review and progression of the associated legal agreements, including the draft Protective Provisions, with a view to securing finalised agreement prior to the close of the examination.	Negotiations continue between the Affected Parties via regular weekly meetings, the latest being 12 <sup>th</sup> February 2025. There are a small number of outstanding matters to be addressed but the Applicant is confident that these matters can be agreed on a voluntary basis. For Updates on Protective Provisions, please see document 8.39 – Protective Provisions Statement.		Negotiating	No	17/02/2025

The parties' commercial and technical discussions have made significant progress and continue to work toward a voluntary agreement.	The Applicant's proposals on Anglo American Woodsmith (Teesside) Limited's land are partially similar to the NCT Project's proposals / land requirements, and they therefore have a good understanding of these aspects. Meetings continue to be held and good progress is being made towards a voluntary agreement.	The Applicant is continuing to have meaningful weekly meetings with Anglo American to discuss the land agreements, as well as technical meetings. The Applicant is in discussions with Anglo American's solicitors regarding the side agreement and Protective Provisions and is currently reviewing the Applicant's comments on this document. The Applicant also received Anglo American's preferred version of public Protective Provisions. The Applicant has incorporated the aspects of Anglo American's public protective provisions that are agreed. Commercial considerations are mainly agreed and negotiations are ongoing with the legal representatives on the long form agreements.	The Applicant continues to engage regularly with the Affected Party with a number of land agreements being progressed by the Applicant's legal representative. Heads of Terms negotiations regarding the remaining land agreements are continuing to progress and the Applicant anticipates that the parties will achieve mutually satisfactory voluntary agreements. For Updates on Protective Provisions, please see document 8.39 - Protective Provisions Statement.	Negotiating	No	17/02/2025

A meeting was held on September 2024 to address technical and commercial requirements pertaining to the Proposed Development and the interests of the landowner. An additional meeting took place on October 2024 to continue refining these requirements. Negotiations are ongoing, with the Applicant and Redcar Bulk Terminal Limited actively working toward alignment on key specifications.	Redcar Bulk Terminal Limited provided a response to the Applicant's initial Protective Provisions after DL2. The Applicant's legal representatives are currently finalising their review of this revised version of the Protective Provisions and comments provided by Redcar Bulk Terminal and will continue to negotiate terms.	Protective Provisions have been shared and currently under review by Redcar Bulk Terminal Limited to ensure the protection of the landowner's asset in relation to the Proposed Development. Further discussions are anticipated to finalise the terms.	The Applicant continues to engage with the Affected Party to finalise the commercial agreements and make substantial progress on the Option for Lease. The Applicant has issued Heads of Terms for the Affected Party which is under review. The Applicant is optimistic that the land rights for the Proposed Development can be secured through a voluntary agreement.
