NID

Dear Mrs Powell,

A556 Proposed By-Laws.

I wish to be registered as an interested party in the proposed A556 By-Laws and would like to be kept informed of any developments.

I feel the Summary Document is totally misleading. The diagrams show all the properties on the eastern side of the A556 but do not show any on the western side, one of which I live in, making it look as if the area is just open fields. People who do not know the area are being asked to complete the questionnaire on misleading information.

My preferred route for the new A556 is the one announced in 2010 which was to connect with the old A556 to the south of Rongemore Nursing home, and I hope that this can be

re-instated.

The latest alignment is threatening the livelihood of one farmer in Millington and several households would be affected with the new road running right next to them making our lives untenable.

I suggest that the proposed link road between Millington Hall Lane and Chapel Lane be removed and also the double roundabout shown in Option 0, the design of which would be an eyesore for Millington.

Yours faithfully,
