Date: 25 May 2017

Dear Mr Price

**Application by Highways England for a development consent order for the proposed  
M20 Junction 10A**

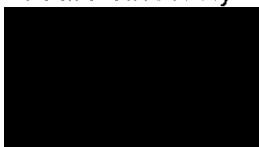

The Council made an objection to the use of compulsory acquisition powers under the Planning Act 2008 namely, the temporary use of plots 3/14/a, (being open space owned by the Council) and plots 3/1/b, 3/1/c and 3/1/d (being the replacement land) being vested in the Council pursuant to the above development consent order (if granted).

The Council hereby confirms that as a result of further discussions with Highways England, an agreement has been reached between the parties. In the light of this agreement, the Council hereby confirms that as at the date of this letter the above objections are withdrawn and the Council will not be making any further representations in relation to this issue.

The Council also confirms that it no longer has any concerns over the impact of the development on the children's play or the access between the children's play area and the new ramp. Highways England has confirmed, with the Council, that the development will not have any impact on the existing children's play area and Highways England will provide an access (with a minimum width of 2 metres) between the children's play area and the new ramp.

The Council is now content that Highways England has satisfactorily addressed the Council's concerns.

Yours sincerely

Juliet Gill  
Senior Solicitor (Strategic Development)
