Notes

- The outfall from Aviva / Friends Life Development site will be independent of the proposed Highways England drainage network
- The co-ordinated route of the Aviva / Friends Life Development outfall is indicative only and will need to be confirmed during the detailed design phases of both M20 Junction 10a and the adjacent development to ensure there are no clashes between the two schemes.
- The Aviva / Friends Life Development outfall is to be designed and constructed in accordance with DMRB and MCDHW. Prior to installation the specification is to be issued to Highways England for review and approval a minimum of 6 weeks in advance of construction.
- Should the developers outfall be constructed in advance of the construction phase of the M20 J10a scheme Highways England will have a site representative present during the construction of the new outfall.
- Should the Aviva / Friends Life developers outfall be constructed during the construction phase of the M20 J10a scheme then the developer and Highways England are to agree which party should construct the outfall to reduce the number of contractors on site and ensure the route is constructed as efficiently as possible.

Key to symbols

- PROPOSED AVIVA / FRIENDS LIFE CARRIER DRAIN
- HIGHWAYS ENGLAND DCO BOUNDARY
- PLOT BOUNDARY
- LAND TO BE PERMANENTLY ACQUIRED
- LAND TO BE USED TEMPORARILY
- MARIANNE CLUNIES-ROSS ESTATE
