Dear Sir/Madam

Planning Act 2008
Application for a Development Consent Order for the proposed A63 (Castle Street Improvement, Hull) Scheme
Highways England
Application Reference: TR10016

I am pleased to enclose an application on behalf of Highways England (the “Applicant”) under section 37 of the Planning Act 2008 (the “2008 Act”) for an order granting development consent for the A63 (Castle Street Improvement, Hull) (the “Scheme”).

1.1 Subject of the Application

- 1.1.1 Development consent is required to the extent that the application includes development that is or forms part of a Nationally Significant Infrastructure Project (NSIP) pursuant to sections 14(1)(h) and 22(1)(c) of the 2008 Act.
- 1.1.2 Further detail concerning the Scheme’s qualification as a NSIP can be found in the prescribed form within the Application Form (**Application Document Reference: TR010016/APP/1.3**) and in the Explanatory Memorandum (**Application Document Reference: TR010016/APP/3.2**).

1.2 Application fee and documentation enclosed

- 1.2.1 A fee of £6,939 has been submitted by BACS transfer to the account of the Planning Inspectorate.
- 1.2.2 I enclose 1 paper copy of the full application submission along with 5 electronic copies. I have attached to this letter a completed Schedule of Compliance with section 55 – Annex B by Highways England, demonstrating how the application meets the tests for acceptance by the Planning Inspectorate as listed in Annex A. This is submitted to assist the Planning Inspectorate’s own compliance check.

1.3 Application formalities

- 1.3.1 This Application is made in the form required by section 37(3)(b) of the 2008 Act and the application documents comply with the requirements in section 37 of the 2008 Act and those set out in:
- The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the APFP Regulations);

- The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009;
- The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017;
- The Department for Communities and Local Government's (DCLG) 'Planning Act 2008: Nationally significant infrastructure projects – Application form guidance' (June 2013); and
- The Planning Inspectorate's 'Advice Note Six: Preparation and submission of application documents'.

1.4 Description of the Scheme

- 1.4.1 A non-technical description of the Scheme is provided in the **Introduction to the Application (Application Document Reference: TR010016/APP/1.1)**. A more detailed and technical description is provided in the **Environmental Statement (Application Document Reference: TR010016/APP/6.1)**.

1.5 Consent flexibility

- 1.5.1 The Applicant has considered the National Policy Statement and the Planning Inspectorate's 'Advice Note Nine: Rochdale Envelope' together with pre-application advice provided by the Planning Inspectorate. It is our view that the inclusion of flexibility provided for in the draft Development Consent Order (DCO) is fundamental to whether the Scheme is deliverable.

- 1.5.2 There are number of important elements of the flexibility sought within the DCO, for further description of these options refer to the **Introduction to the Application (Application Document Reference: TR010016/APP/1.1)**. The options are as follows:

- Two options for the batching site compound have been included in the DCO application.
- Two options for the spur of the rising main route are included in the DCO application.
- The Applicant plans to deliver the Princes Quay Bridge element of the Scheme early, ahead of the main Scheme works. In the unlikely event that the negotiations and contract award are not concluded before the planning application expires, the bridge will be delivered under the main Scheme and therefore remains in the DCO application.

- 1.5.3 The Environmental Impact Assessment (EIA) which was undertaken in support of the Scheme has considered and reflected the flexibility sought in the draft DCO. The maximum design parameters referenced in the draft DCO have been assessed in the Environmental Statement.

1.6 Assessment of the Implications on European Sites (Habitat Regulations Assessment) Screening Report – No Significant Effects

- 1.6.1 This Application includes an **Assessment of the Implications on European Sites (Habitat Regulations Assessment) Screening Report – No Significant Effects (Application Document Reference: TR010016/APP/6.13)** as required by Regulation 5(2)(g) of the APFP Regulations. This report identifies all relevant European sites and provides sufficient information for the competent authority to determine whether the Scheme is likely to have an adverse effect on the integrity of any European site.

- 1.6.2 The AIES Screening Report was prepared in consultation with the Planning Inspectorate Advice Note 10 Habitats Regulations Assessment November 2017 Version 8.

- 1.6.3 The Applicant has undertaken Screening for the purposes of the habitats regulations and concluded that there are no likely significant effects on any European sites and their features. Therefore, this application is accompanied by an **Assessment of the Implications on European Sites (Habitat Regulations Assessment) Screening Report – No Significant Effects (Application document TR010016/APP/6.13)** to evidence this conclusion.
- 1.6.4 We request that Planning Inspectorate publish the application document on the A63 (Castle Street Improvement, Hull) project page of the National Infrastructure website from submission of the application.

1.7 Compulsory Acquisition

- 1.7.1 The Applicant is seeking compulsory acquisition and temporary possession powers to acquire land, rights over land and interests in land, and other related powers to support the delivery of the Scheme. Details on the powers sought and negotiations to date including those relating to any special category land affected are provided in the **Book of Reference (Application document TR010016/APP/4.3)** and the **Statement of Reasons (Application document TR010016/APP/4.1)**.
- 1.7.2 Adequacy of the funding for compensation is provided in the **Funding Statement (Application Document Reference: TR010016/APP/4.2)**.

1.8 Other consents

- 1.8.1 Details of other consents and licences not forming part of the Development Consent Order which the Applicant (or others) may be seeking in relation to the construction and operation of the proposed Scheme and associated development, are set out in the **Consents and Agreements Position Statement (Application Document Reference: TR010016/APP/3.3)**.

1.9 Pre-application consultation

- 1.9.1 As required by section 37(3)(c) a **Consultation Report (Application Document Reference: TR010016/APP/5.1)** accompanies this application; the Consultation Report details compliance with sections 42, 47, 48 and 49 of the 2008 Act.

1.10 Other matters

- 1.10.1 Under Regulation 6(2) of the APFP Regulations, an application for highway development is required to include section drawings; these can be found as the **Engineering Drawings & Sections (Application document TR010016/APP/2.6)**.
- 1.10.2 Under Regulation 5(3) of the APFP Regulations, any plans, drawings or sections shall be no larger than A0 size, shall be drawn to an identified scale (no smaller than 1:2500) and, in the case of plans, shall show the direction of north.
- 1.10.3 Several plans are provided at a scale smaller than 1:2500 as it is considered that the chosen scale is clearer and provides the information required. Those plans are as follows:
- Location plan – Not to scale
 - General arrangements – 1:5000 & 1:1250
 - Land plans - 1:5000 & 1:1250
 - Work plans - 1:5000 & 1:1250

 - NMU plans - 1:5000 & 1:1250
 - Special category land plans - 1:5000 & 1:1250
 - Engineering drawings and sections - 1:1000 (Horiz) & 1:200 (Vert)

- 1.10.4 Under Regulation 5(2)(l) of the APFP Regulations, an applicant is required to provide a plan of certain nature conservation sites and an assessment of any effects on those sites and

features likely to be caused by the proposed development. There is an equivalent requirement under Regulation 5(2)(m) in relation to certain historic sites and features. The plans are referenced as follows: **Ecology and Nature Conservation Assessment (Application Document Reference: TR010016/APP/6.7)** and **Cultural Heritage Assessment (Application document TR010016/APP/6.8)**. They are both provided within **Environmental Statement (Application Document Reference: TR010016/APP/6.1)**. The figures and appendices that accompany the Ecology and Nature Conservation Assessment and the Cultural Heritage Assessment are provided at **Environmental Statement - Figures (Application Document Reference: TR010016/APP/6.2)** and **Environmental Statement - Appendices (Application Document Reference: TR010016/APP/6.3)**.

1.10.5 In accordance with Regulation 5(5) of the APFP Regulations, the Applicant retains all responses to the consultation carried out under Part 5 of the 2008 Act and can make them available at the request of the Inspectorate.

1.10.6 The Applicant will keep all application documents under review and will endeavour to provide updates (where it considers it necessary to do so) during the examination of the application considering questions and comments received from the Examining Authority and interested parties.

1.10.7 We look forward to hearing from you in relation to a formal acceptance of this Application. If we can be of any assistance, please do not hesitate to contact us using the details provided below.

Section 55(2) Acceptance of Applications				
1	Within 28 days (starting day after receipt) the Secretary of State ¹ must decide whether or not to accept the application.	Date received	28-day due date	Date of decision

s55(3)(a) and s55(3)(c) It is an application for an order granting development consent				
2	<p>Is the development a nationally significant infrastructure project² (NSIP) (or does it form part of an NSIP); and does the application state on the face of it that it is an application for a development consent order³ (DCO) under the Planning Act 2008 (2008 Act), or equivalent words? Does the application specify the development to which it relates i.e. which category or categories in ss14-30 does the application scheme fall)?</p> <p>If the development does not fall within the categories in ss14-30, has a direction been given by the Secretary of State under s35 of the 2008 Act for the development to be treated as development for which development consent is required?</p>	<p>The Scheme is a nationally significant infrastructure project ("NSIP") within sections 14(1)(h) and 22(1) of the 2008 Act. Under section 22 an NSIP must fall within one of the three categories specified, which are expressly stated to be alternatives. This Scheme is the "improvement" of a highway within the meaning of section 22(1)(c). The improvement is to a highway which is wholly located in England; Highways England, a strategic highways company, is the highway authority for the highway; and the improvement is likely to have a significant effect on the environment. The Scheme therefore complies with the requirements of section 22(5).</p> <p>This is consistent with the summary provided in the Application Form (Application Document Reference: TR010016/APP/1.3) at Section 4 which concludes that the application is for an NSIP.</p>		

¹ References in this document to the Secretary of State include references (where applicable) to the Planning Inspectorate Major Casework Directorate which carries out functions related to consenting nationally significant infrastructure projects on behalf of the Secretary of State

² NSIP is defined generally in s14 with the detailed thresholds for each of the specified categories being set out in ss15-30

³ Development consent is required for development to the extent that the development is or forms part of an NSIP (s31 of the PA2008)

It is anticipated that following submission of the application for development consent the Planning Inspectorate will invite relevant local authorities to provide a statement relating to the adequacy of the consultation. This is as set out in the Planning Inspectorate’s Advice Note 14 (April 2012).

⁴ Regulation 8 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (2017 EIA Regulations), or Regulation 6 of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 (2009 EIA Regulations) (where Regulation 37 of the 2017 EIA Regulations applies).
