4. Confirming why the Planning Inspectorate should receive the application

* Brief statement to explain why this application is, or is to be treated as, a development for which development consent is required under the Planning Act 2008

This application for development consent has been submitted by Highways England for the provision of the proposed A63 (Castle Street Improvement, Hull).

The Scheme is a nationally significant infrastructure project ("NSIP") within sections 14(1)(h) and 22(1) of the 2008 Act. Under section 22 an NSIP must fall within one of the three categories specified, which are expressly stated to be alternatives. This Scheme is the "improvement" of a highway within the meaning of section 22(1)(c). The improvement is to a highway which is wholly located in England; Highways England, a strategic highways company, is the highway authority for the highway; and the improvement is likely to have a significant effect on the environment. The Scheme therefore complies with the requirements of section 22(5).

5. Non-technical description of the Proposed Development

* Brief non-technical description of the Proposed Development

The Scheme comprises the following improvements to approximately 1.5km of the A63 and connecting side roads in Hull between Ropery Street and the Market Place/Queen Street junction:

- Lowering the level of the A63 by approximately 7m into an underpass at the Mytongate Junction and raising Ferensway and Commercial Road by approximately 1m creating a grade separated (split-level) junction. New east and west-bound slip roads would link the A63 and Mytongate Junction.
- Widening the east-bound carriageway of the A63 to three lanes between Princes Dock Street and Market Place, with the nearside lane being marked for local traffic.

Continued from previous page...

- Removing all existing signal controlled and uncontrolled pedestrian crossings on the A63, between Ropery Street and the Market Place/Queen Street junction.
- Providing a new bridge over the A63 for pedestrians, cycles and disabled users at Porter Street.
- Providing a new bridge over the A63 for pedestrians, cycles and disabled users south of Princes Quay shopping centre.

6. Location or route of the Proposed Development ?

* Description of location of application site(s), or route of development (reference to appropriate plans)

The proposed development is in the North East of England and is located in the administrative areas of Kingston Upon Hull and the East Riding of Yorkshire. The site is located on the A63 dual carriageway at Mytongate junction. The A63 is the main strategic route and provides a vital link between the M62 motorway and the A15 to the West and the Port of Hull to the East.

* Is the site a single site or a linear site?

- Single site Linear site
