Dear Mr Walker

Re: A63 Castle Street Improvement project

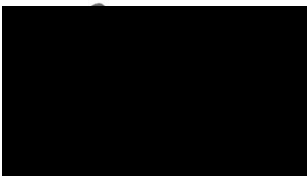

Thank you for your email and associated attachments on 19 December 2019. My apologies for the delay in returning this letter to you by email.

I can confirm YWS has no objection to the underpass pumping station discharging to the public combined sewer network as detailed on drawing HE514508-ARP-HDG-S0_ML-DR-CD-000518 (revision P01).

YWS requires that Highways England (the Authority) enter into an agreement under Section 115 of the Water Industry Act 1991. I shall write to you under separate cover regarding this matter.

If you require any further assistance, please call our office on the above number.

Yours sincerely

Robert Illingworth
Senior Engineer
