Subject: RE: A14 Cambridge to Huntingdon National Infrastructure Project - Adequacy of Consultation

Richard

Apologies for the delay in responding.

After reviewing the consultation reports it is difficult for us to comment on the adequacy of consultation as Central Bedfordshire is not one of the local authorities which directly borders the scheme boundary and therefore were not directly consulted on this matter.

As an authority we would on the whole welcome the scheme and hope that it would help alleviate any 'through traffic' and HGV's within our rural areas closest to the A14, however we do have concerns as to the potential impact on our network the scheme could have during construction and would welcome assessment and further information from the Highways Agency on this matter.

Kind regards

Geraldine Davies
