Dear Sirs,

A14 Cambridge to Huntingdon Improvement Scheme

I am writing on behalf of the above Residents Association. We live adjacent to the B1043 road which is parallel to the southbound carriageway of the AIM Motorway and are concerned about the expected increase of traffic noise when the motorway is widened and the improvement scheme is completed. Highways England forecast of traffic flow shows an increase of 75% by 2020 (80500 daily movements).

Due to the above and the fact that it will be at the beginning of the scheme may I suggest that this area is included as on of the locations for the accompanied sites and would ask to be included as part of the visit.

Yours faithfully,

Eddie Baker
(Secretary)
