

Accompanied site visit of the A14 Cambridge to Huntingdon application

Revised Itinerary

Thursday 16 and Friday 17 July 2015

The Examining Authority (ExA) will make an inspection of the site in the company of interested parties in accordance with Infrastructure Planning (Examination Procedure) Rule 16.

The visit will be conducted by minibus, which will make stops at certain locations along the application route. Only parties who have registered in advance will be permitted to accompany the ExA.

To maintain the probity of the examination, interested parties may not make representations to the ExA. They may highlight features which are not readily apparent.

Participants will be collected by minibus from the Longstanton Park & Ride at 9am on both days, or may choose to meet the party at a single site by prior arrangement.

The minibus will follow the routes published, making stops as outlined overleaf. At the end of the published route, the bus will return to Longstanton Park and Ride.

There will then be a break for approximately one hour at the Brampton Hut Services on Thursday. This may be between 1pm and 2pm, depending on earlier progress. It is anticipated that the visit will be concluded before lunch on Friday.

Many of the visits will be to farms or fields. Please dress appropriately for the weather and site.

The ExA have endeavoured to meet all requests for site visits which they consider necessary. Some requests duplicated the locations of previously undertaken unaccompanied site visits, so these have not been included in the route.

This itinerary has been revised from the original to accommodate additional locations accepted by the ExA, and in response to practical considerations. Timings are approximate and may change on the day.

Itinerary

Thursday 16 July 2015

| Approximate timings | Requested stop | Stakeholder |
|----------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
