Subject: Widening

Dear Sir

I strongly disagree with the proposal to widen the M4 at various points including near Reading. This will only cause more health-threatening pollution in an area already exceeding air pollution levels, causing damage to the health and prosperity of the south east for future generations. There are no feasible ways in which the harmful effects of such a proposal can be mitigated. The public understand this and will not be won over by irresponsible vested interests with no concern for the future.

Yours sincerely

Nick and Catrin Cameron
