Subject: M4 Junctions 3 to 12 Smart Motorway - 151106_TR010019_Norman Jorgensen

Dear Richard and James

I would like to make an additional submission to bring attention to innovative trials being conducted by Highways England on the M40 into the possible use of solar panels to generate electricity as part of side of motorway noise barriers. If this proves to be effective it could change the cost equation considerably. A link to a recent news article is given below.
