Dear Sir/Madam

I wish to comment on the Enhanced Noise Mitigation Report.

Although I am pleased to see that there will be a quiet surface and new barriers, I am concerned that the new barriers sited in Winnersh could bounce noise towards a property I own in Bearwood Road as the rear of the house is exposed to motorway noise across a field. Also, that without absorptive barriers the new barriers in Winnersh could direct additional noise towards the edge of Arborfield and Winnersh where there are a number of exposed properties.

I have been unable at this point to ascertain from Arborfield Parish Council, which I understand has met with Highways England how long the Quiet Surfacing will last and whether it will be replaced when it deteriorates.
