

LEGEND

Existing Landscape Element

Woodland	
Scrub	
Scattered Trees	
Hedges	
Open Grassland	
Watercourses and Waterbodies	
Ornamental Planting	

Environmental Objectives

- E0-1 - Landscape Integration**
Integration of the highway with the surrounding landscape character.
- E0-2 - Visual Screening**
Mitigation against adverse visual impacts.
- E0-3 - Visual Amenity**
Maintain interest, variety and an acceptable visual appearance for both road users and adjacent public viewers.
- E0-4 - Auditory Amenity**
Reduce the adverse noise impact of highway traffic or construction on adjacent properties or publicly accessible areas.
- E0-5 - Nature Conservation and Ecology**
Protect, manage and enhance the nature conservation value of the highway, including adjacent habitats and protected species.
- E0-6 - Enhancing the Built Environment**
Enhancing the landscape and built elements of the highway to reflect the townscape or community through which the highway passes.

Environmental Elements - Landscape

EE-1.5 - Open Grassland	
EE-4.2.2 - Individual Trees	
EE-4.2.3 - Linear Belts of Trees and Shrubs	
EE-4.2.5 - Scrub	
EE-4.2.6 - Shrubs	
EE-4.2.7 - Shrubs with Intermittent trees	
EE-4.2.9 - Woodland	
EE-4.2.10 - Woodland Edge	
EE-4.6.3 - Strengthened Earthworks	

Environmental Barriers

Existing Environmental Barrier to be retained/replaced	
EE-N1.3 - Existing Environmental Barrier to be increased in height	
EE-N1.3 - New Environmental Barrier	

Where a barrier is on a structure i.e. an overbridge, it will be 2.0m in height

Nature and Conservation Works

EE-NC4.2 - Otter proof fencing	
--------------------------------	--

Structures

Proposed Gantry	
Existing Gantry Retained	
Existing Gantry Removed	
Gantry Reference	G9-19
ERA Reference	E5-B1

Information

Order limits	

Planning Features

Listed Building and ES Gazeteeer reference (see Cultural Heritage App 7.1)	
Scheduled Monument (SM)	
Conservation Area	
Registered Park and Garden (RPG)	
Area of Outstanding Natural Beauty (AONB)	
Site of Special Scientific Interest (SSSI)	
Special Protection Area and Ramsar (SPA)	
Local Nature Reserve (LNR)	
Site of Local Importance	
Site of Borough Importance	
Site of Metropolitan Importance	
Biological Notification Site	
Existing Public Right of Way (PRoW)	

NOTES

- Landscape mitigation proposals are based on the preliminary design drawings in the Engineering Design Report and are located on land in permanent Highways England ownership. Landscape mitigation proposals are indicative and will be subject to finalisation in line with the design development of road alignment, earthworks, highways, structures and clearance requirements.
- All existing vegetation identified within the Order limits shall be retained where reasonably practicable. Prior to any vegetation clearance all areas of existing vegetation are to be assessed by a qualified Landscape Architect and ecologist. Further landscape and/or ecological measures may apply.
- The vegetation clearance for the layout of gantry bays (including gantry, cabinets and associated equipment) has been based on a typical length of 60m up to the Order limits, dependant on the existing landscape elements and objectives, to allow sufficient working area.
- The layout of ERAs and associated vegetation clearance has been based on a typical length of 100m up to the Order limits, dependant on the existing landscape elements and objectives, to allow sufficient working area.
- The locations of nature conservation fencing are indicative. The precise alignment of fencing is to be finalised on site.
- Although the extents of the environmental barriers are fixed laterally, the location within the verge is subject to finalisation, in line with the design development of road alignment, earthworks, highways and structures.
- Areas of existing woodland and scattered trees are indicative and show the extent of tree canopies.
- The landscape mitigation proposals do not include mitigation surrounding proposed communications or drainage interventions. Areas affected by the construction and installation of these interventions are to be made good with Environmental Element EE-4.1.5 Open Grassland.
- Refer to Vegetation Clearance drawings 514451-MUH-ML-ZZ-DR-SC-301224 to 514451-MUH-ML-ZZ-DR-SC-301255 for indicative details of temporary and permanent vegetation clearance.
- Refer to ES Volume 3, Appendix 8.4 - Schedule of Existing Vegetation to be Retained for information on existing vegetation to be retained within the Order limits.
- Type of environmental barriers include reflective acoustic barriers and absorptive acoustic barriers as noted in the barrier information at the specific locations.

Rev #	Revision Date	Revision Details	Drawn	Check	Review	App'd
10F	17.02.2016	Issued for HE review	BP	RK	DH	DH
9F	05.02.2016	Issued for HE review	BP	RK	DH	DH
