Table 1 ..... 13

## COMPULSORY ACQUISITION

### CA.1 Question

**The Applicant is requested to provide an update of the current position in relation to all plots indicated on the land plans and in the Book of Reference for CA or temporary possession. This should be set out in a tabular format to ensure that each plot is accounted for. The Applicant should update this as necessary throughout the examination**

### Response

- CA.1.1 In response to this question the Applicant has prepared a tabular schedule entitled Compulsory Acquisition Negotiations Status Report (Appendix A), which is appended. This provides an update on the status of TfL's negotiations with landowners affected by the scheme to which the application relates (the Scheme). The Applicant confirms that this document accounts for each plot indicated on the land plans and in the Book of Reference.
- CA.1.2 This document relates to the Application and should therefore be read alongside the other Application documents, including the updated Book of Reference submitted with s.58, s.59 and EIA Regulation 13 certificates (Document 4.3 revision 1) [APP-017] and the Statement of Reasons (Document 4.1 revision 0) [APP-015].

### Summary of the Applicant's current position

- CA.1.3 TfL already controls some areas of land required for delivery of the Silvertown Tunnel scheme (the Scheme), in so far as those areas comprise existing transport infrastructure which is owned, managed and maintained by TfL. Some areas of land required for delivery of the Scheme are controlled by connected entities within the wider London Mayoral family.
- CA.1.4 TfL seeks to engage with all landowners in negotiations for the acquisition by agreed private treaty of the land required for the Scheme. Given the scale of the Scheme, negotiations with some landowners are already reasonably well progressed, whilst others are currently still on-going.
- CA.1.5 TfL is in the process of preparing Statements of Common Ground with a number of landowners affected by the Scheme. Copies or drafts of a number of these Statements of Common Ground will be included in TfL's

submissions to the Examining Authority at Deadline 1 of the Examination on 15 November 2016, with others to follow at subsequent Examination deadlines.

- CA.1.6 TfL remains open to acquiring all land interests in and rights over land required for the Scheme by agreement; however, unless requested by the landowner, it is not generally pursuing the freehold transfer of land prior to the end of the examination period for the Application. This approach reflects the view of many land owners who do not wish to sell land (or contract to do so) until the consenting process for the Scheme is further advanced. In addition to purchasing land where requested, TfL is also prepared to enter into land and works agreements where appropriate, in respect of land which is proposed to be acquired, or over which rights are proposed to be acquired, or in relation to land which is proposed to be used and possessed temporarily.
- CA.1.7 Where negotiations and discussions are on-going with landowners and their representatives, these are largely focusing on detailed design and accommodation works issues, with financial compensation also being considered / agreed where possible.
- CA.1.8 TfL is also undertaking on-going engagement with landowners in relation to plots where temporary possession (as distinct from compulsory acquisition) is proposed to be taken during the construction of the Scheme. Landowners have primarily focussed on ensuring that access and adequate security can be maintained to the remainder of their landholdings whilst TfL is in temporary possession of adjacent plots. Whilst this will mainly be dealt with in the Code of Construction Practice, TfL will be making bespoke commitments to maintain accesses and security where appropriate.
- CA.1.9 In general, no negotiations have been held with Category 2 parties such as mortgagors and beneficiaries of agreements, as the interests of such parties will be dealt with, as appropriate, during the legal process for acquiring the freehold interest in the land parcels concerned.

#### **Codes used in Compulsory Acquisition Negotiations Status Report**

- CA.1.10 The letters used in the following Schedule under the column heading 'Land Acquisition' have the following meanings:
- CA means Compulsory Acquisition of land (all interests in and rights over the land)

- CAR means Compulsory Acquisition of Rights over land (new rights created over land); and
- TP means Temporary Possession or Use of land

## CA.2 Question

**Please indicate whether negotiations have resulted in agreed Protective Provisions and/or withdrawal of all objections by Statutory Undertakers (SUs).**

**If, as a consequence of negotiations, there are amendments proposed to any Part of Schedule 13 Protective Provisions, please provide the agreed amended text as part of the submission of an amended dDCO or a clarification of what issues remain outstanding.**

### Response

- CA.2.1 Protection for Statutory Undertakers is provided for under Schedule 13 to the dDCO.
- CA.2.2 The Applicant has contacted all Statutory Undertakers where there is an interface with the proposed Silvertown Tunnel scheme (the scheme), and has included the Protective Provisions in Part 1 or Part 2 as relevant (or in the case of National Grid, Part 3) of Schedule 13 to the dDCO for their review. The Applicant has also offered to meet with Statutory Undertakers, and where this offer has been taken up the Applicant has met to discuss the technical interface with the project and the Protective Provisions. To date there have been **over twenty such meetings**.
- CA.2.3 There are a total of twelve Statutory Undertakers with an interface with the project. Three have confirmed that they are satisfied with the provisions of the dDCO as drafted. In addition, interim amendments to Part 1 of Schedule 13 to the dDCO suggested by, amongst others, Thames Water and UK Power Networks, have been agreed and are reflected in the revised draft of the dDCO **submitted at Deadline 1**.
- CA.2.4 Discussions on the protective provisions with these, and other Statutory Undertakers (including Southern Gas Networks) remain on-going. It is anticipated that agreement will be reached with these Statutory Undertakers during the Examination process, with any objections being **withdrawn at that stage**.
- CA.2.5 Final agreement has been reached with National Grid on the protective provisions contained in Part 3 of Schedule 13 to the dDCO, and the agreed position is reflected in the revised draft of the dDCO submitted at Deadline 1. The Applicant has received confirmation from National Grid

that it will be communicating to the ExA at Deadline 1 that its objection should be **treated as having been withdrawn**.

CA.2.6 A summary of the position with those Statutory Undertakers which are Utilities is provided below:

BT Openreach	Confirmed satisfied with Protective Provisions.
Colt Technology Services	Meeting held and Protective Provisions issued. No comments received to date and the Applicant was told if there was no response to assume the Provisions were satisfactory. The Applicant will continue to seek confirmation.
GTC	Meeting held. The Applicant has received comments on the Protective Provisions and is engaged in on-going discussions and will provide a report on progress at the next deadline.
Interoute	Meeting held and the Applicant has responded to queries on Protective Provisions and Interoute has confirmed it is satisfied with the responses. The Applicant is therefore treating Interoute as being satisfied with the Protective Provisions.
National Grid Electricity Transmission/ National Grid Gas	Meetings held and Protective Provisions in Part 3 of Schedule 13 agreed.
SGN	Meetings held. The Applicant has received comments on the Protective Provisions and is engaged in on-going discussions and will provide a report on progress at the next deadline.
TATA	Confirmed satisfied with Protective Provisions.
Thames Water Potable/Drainage	Meetings held. The Applicant has received comments on the Protective Provisions and is engaged in on-going discussions

	and will provide a report on progress at the next deadline.
UK Power Networks	Series of meetings held. The Applicant has received comments on the Protective Provisions and is engaged in on-going discussions and will provide a report on progress at the next deadline.
Virgin Media	Confirmed satisfied with Protective Provisions.
Vodafone Limited/ C&W	Comments on Protective Provisions received. Discussions are ongoing.
Zayo	Protective Provisions issued, awaiting a response.

### CA.3 Question

(a) Please provide a table indicating, for each open space plot, which of the exceptions in s.131 and s.132 PA 2008 apply, and why, so as to enable the SoS to be satisfied that it applies.

(b) Please confirm that plot 3-037b (described as a 'grassed area' in the Book of Reference) is not open space.

### Response

CA.3.1 The Applicant provides Table 1 below in response to question CA3(a) above:

**Table 1**

	<b>Plot number</b>	<b>Application of sections 131 and/or 132 and related exceptions</b>	<b>Reasons for application of exceptions</b>
1	03-021	<p>The Applicant seeks powers to acquire <b>new rights</b> over subsoil (lying beneath the surface of the land but above the subsoil required for the bored tunnel) and over the surface of the land for the purposes of imposing restrictive covenants for the protection of the tunnel; and</p> <p>Where restrictive covenants are proposed to be imposed, the Applicant considers that the <b>exception in section 132(3)</b> applies.</p>	<p>Where restrictive covenants are proposed to be imposed at surface level and in the subsoil below, for the protection of the tunnel, the Applicant considers that the exception in subsection 132(3) applies, because the open space, if "<i>burdened with the order right</i>", would be "<i>no less advantageous than it was before to the persons in whom it is vested, other persons, if any, entitled to rights of common or other rights, and to the public</i>".</p> <p>The purpose of imposing restrictive covenants is to restrict development which might conflict with or otherwise damage the tunnel structure. As any such development would also be likely to compromise</p>

			the existing nature of the open space, the Applicant considers that the imposition of the restrictive covenants is compatible with the continued use of the land as open space. As such, the imposition of the restrictive covenants would not result in the open space being any " <i>less advantageous</i> " than it currently is to any of the persons specified in section 132(3).
2	03-037	As for plot 03-021 above.	As for plot 03-021 above.
3	03-037c	As for plot 03-021 above.	As for plot 03-021 above.
4	03-029	<p>The Applicant seeks powers to acquire compulsorily:</p> <ul style="list-style-type: none"> <li>• <b>land</b>, being <b>subsoil</b> (at depth) for the bored section of the tunnel; and</li> <li>• above such subsoil, <b>new rights</b> over the remaining subsoil up to and including the surface of the land.</li> </ul> <p>In respect of the subsoil which is proposed to be acquired, the Applicant considers that protection under <b>section 131 is not engaged.</b></p> <ul style="list-style-type: none"> <li>• The new rights sought at and below surface level, are required by the Applicant for the purposes of imposing restrictive covenants for the protection of the tunnel.</li> </ul>	<p>The protection under section 131 is not considered to be engaged in respect of the subsoil which is proposed to be acquired because the subsoil, by its nature, is not considered to be open space. This is because it does not fall within the definition of open space in section 131(12)), in which "<i>open space</i>" means any <i>land laid out as a public garden or used for the purposes of public recreation, or land being a disused burial ground</i>".</p> <p>The land in question is not a disused burial ground; however, it is laid out so as to be capable of use for the purposes of public recreation. The general term "<i>public recreation</i>" is understood by the Applicant to refer to any open area to which the public has access for recreational purposes;</p>

		Where restrictive covenants are proposed to be imposed, the Applicant considers that the exception in section 132(3) applies.	<p>subsoil is therefore excluded from the definition of open space for legal and practical reasons.</p> <p>Accordingly, where powers are sought for the outright compulsory acquisition of subsoil, the protection in section 131 is not engaged.</p> <p>There is precedent for the application of this approach to the compulsory acquisition of subsoil in the Thames Water Utilities Limited (Thames Tideway Tunnel) Development Consent Order 2014.</p> <p>Where new rights are proposed to be acquired at surface level and in the subsoil below, the exception in subsection 132(3) would apply for the reasons set out above in relation to plots 03-021, 03-037 and 03-037c.</p>
<b>5</b>	03-037b	As for plot 03-029 above.	As for plot 03-029 above.

CA.3.2 In response to the ExA's request in question CA3(b) for confirmation that plot 03-037b (described as a 'grassed area' in the Book of Reference) is not open space, we assume the ExA's question is intended to apply to plot 03-037c, (based on the reference to the plot description in the Book of Reference and the location of plot 03-037c on the Land Plans).

CA.3.3 Plot 03-037c is adjacent to plot 03-037b, which is open space and which is therefore included in the Special Category Land Plan. Having re-considered plot 03-037c, the Applicant is of the view that the open space area in plot 03-037b does extend into plot 03-37c. Plot 03-037c has therefore been added to the Special Category Land Plan (ref: 2.4) [APP-007] as shown in a revised version submitted to the ExA at Deadline 1 on 15 November 2016.

- CA.3.4 The Applicant has made a corresponding amendment to Part 5 of the Book of Reference, (ref: 4.3) [APP-017], adding plot 03-037b to the list of special category land plots. This is shown in the appended track changed extract of the Book of Reference (Appendix B), and will be reflected in a later submission of the full Book of Reference before the end of the Examination.
- CA.3.5 The Applicant has also made a corresponding amendment to article 34 (special category land) of the draft DCO, which is included in the revised draft DCO submitted at Deadline 1.
