

1. Traffic & Transport Modelling ISH Action Point 5

1.1 TfL Response

- 1.1.1 See below for clarifications on the TT1 and TT6 responses as requested by the examiner in actions 4 and 5:
- 1.1.2 TT1: Paragraph TT.1.16 should include Southwark in the list of London boroughs which are fully included within the simulation area. The omission of Southwark from this list was a typographical error.
- 1.1.3 TT6: The Figure 2 title features a typographical error and should state that the simulation area is represented by the red line, and the speed-flow area is represented by the yellow line.
