Dear Sir or Madam,

Silvertown Tunnel

We have read with interest TfL's responses to our earlier submission to PINS. We have also been involved in the preparation and presentation of some of the Westcombe Society oral representations at the recent hearings, and in the detailed content of the Westcombe Society written submission for Deadline 3. We feel that everything we wish to say ourselves has been covered in full by the Westcombe Society so have decided not to send in a further written submission as individuals.

However we would like it noted that we both share all the concerns of the Westcombe Society submission and that we are not happy with the responses that TfL have given so far and that they have not allayed our concerns.

Yours sincerely

Emily and Mike Norton
