I object to building the tunnel for all the reasons outlined in the link below:

No to Silvertown Tunnel

Say no to Silvertown Tunnel. Find out why TfL, Boris Johnson and Greenwich Council's planned road tunnel under the Thames is the wrong solution for London.

More roads lead to more congestion. This has been proven countless times across the world throughout the past century.

A pedestrian / cycle bridge should be built instead, to allow people to change their means of transport away from cars and taxis. This will help to solve congestion on the existing tunnel.

Stop loosening London's belt.

Richard
