Subject: Objection the A38 Roadworks

Dear Sir,

I object to the A38 works. The road-widening will add two extra lanes of traffic and result in the loss of many mature trees. The upgrading of the road will lead to an increase in traffic. This is at odds with the urgent need to reduce carbon dioxide emissions.

Instead it would be better to improve public transport and make walking and cycling more attractive, thus reducing congestion on the route by cutting car traffic. This would not only cut carbon emissions but also improve air quality in Derby.

Yours sincerely,

Jane Temple
