Subject: TR010022 - A38 Derby Junctions highway improvement scheme
Date: 27 April 2020 11:01:03

Dear Sirs,

Unique reference no: **20022836**

I refer to your recent communication in respect of Deadline 11 concerning the A38 Derby Junctions scheme.

EGL are content to try to finalise the SoCG with the Applicant and acknowledge that the current circumstances are not helping either party. An email on behalf of our client was issued to the Applicant on 22nd April and set out 2 points which required responses from the Applicant before it will be possible to hold constructive discussion with the Applicant to progress the SofCG. These are not new matters but have been under consideration for a considerable period of time.

The first item related to the express approval of Derby City Council of the access proposals from the A52 into the EGL/McDonalds site and the second related to the long standing question concerning the provision of advance warning signs on the A38.

At the time of preparing this email there has been no response to either questions.

It is considered that the proper resolution of these matters is essential to our client's wish to make a timely and proper response to the Inspector and to allow the Inspector to properly consider these matters.

In the circumstances and given that there is now insufficient time to allow our client and its advisors to consider any response or additional material from the Applicant, our client, Euro Garages Limited reserves its position and the rights to make further submissions to the Inspector.

Regards
Bill Booker
Consultant
