Lowestoft Town Councillors visit the historic Town Hall. Closed up by the District Council, when they moved to their purpose-built out of town premises at Riverside, this is one of the many assets passed over to the new Town Council. Councillors have also toured their Town visiting their other assets to help them to start to formulate their plans for engagement and improvement.

**Lake Lothing**
THIRD
CROSSING**Suffolk County Council is seeking views on the proposal for a new crossing over Lake Lothing in Lowestoft.**

The existing bridges at Mutford Lock and the A47 Bascule Bridge over the lake are inadequate to meet current and future traffic demand. Delays and congestion are a common occurrence for drivers, particularly during peak hours, and pedestrians and cyclists often have long and difficult journeys as they travel across the town.

A new crossing will reduce congestion, creating a new link between north and south Lowestoft. This new crossing presents an opportunity to introduce a focal point for the town enhancing its identity. This will help to regenerate the area and attract new investment. This is a significant project for Lowestoft and it is important that residents, businesses and those affected by the project have their say to help inform the refinement of the proposal. In March 2016 Suffolk County Council (SCC) received a provisional funding agreement of approximately £73m from the Department for Transport. This funding would cover the majority of the construction works required to deliver the crossing. The additional money required to deliver the project has been secured by the county council.

The crossing would consist of a multi-span bridge from Waveney Drive on the south side, to Peto Way on the north side. It is a single carriageway road with an opening section over the Lake and includes new roundabouts to the north and south to help integrate traffic smoothly into the existing road network. New foot and cycle ways will also be included.

The consultation will run for six weeks, between Monday 4 September and Monday 16 October and is the public's opportunity to express their views on the scheme. SCC will carefully consider the public's views and publish a report on the consultation. This report will form part of the planning application for the project.

Go online to access the consultation documents and fill out a questionnaire at:

www.suffolk.gov.uk/lakelothing3rdcrossing. Complete questionnaires or send other feedback to SCC at: LL3X Consultation Team, Freepost RTUL-KAKE-BCTR, PO Box 73943 (Lake Lothing), London EC4P 4HN. Have your say on Lake Lothing crossing proposals

Posted by Waveney District Council on 4 September 2017

Cllr Mark Bee, Leader of Waveney District Council, is asking local residents and businesses to give their views on the “exciting” proposed design for the new Lake Lothing crossing.

Following [the unveiling of the proposed crossing design last month](#), Suffolk County Council has today launched a public consultation asking for views from the local community.

To take part, please visit the [Suffolk County Council website](#) and complete the online survey.

Additionally, a number of public exhibitions are taking place where residents can view the designs and provide feedback:

- Tuesday 5 September - Gunton Estate Community Hall, Hollingsworth Road, Lowestoft (12noon- 7pm)

You can also call 03456 318 842 or email lakelothing3rdcrossing@suffolk.gov.uk

Designs for the £90 million crossing, which were revealed in August, draw inspiration from the town’s imposing wind turbine ‘Gulliver’. It is hoped that the

crossing, which will fit into the existing road network and waterways ensuring the port and railway operations will be able to continue, will become a new emblem for Lowestoft.

Cllr Mark Bee, Leader of Waveney District Council said:

“This exciting design, reflecting Lowestoft's growing status as a key location for renewable energy, will be a real talking point for the town. We would encourage people to comment on the proposed design once the consultation begins next month.”
