Comments on the Report on the Implications for European Sites

The Applicant's only comments on this document (given now rather than at Deadline 11 as requested in the Rule 8 letter) are that:

- at paragraph 1.2.3, when it refers to the number of sites that were considered in the application HRA at integrity stage as being 'four', the number of sites at the time of application was in fact only three, a fourth being added following engagement with Natural England in Revision 2 of the HRA paragraph [Document Reference AS-003]; and
- at paragraph 3.0.6 the reference to "wintering Red-throated diver" should be just to 'red-throated diver' which is its scientific name.

If you have any questions on any of these matters, please do not hesitate to contact me.

Yours sincerely

Jon Barnard
Project Manager, Lake Lothing Third Crossing
