For the attention of Kevin Gleeson

Dear Sir,

**PLANNING ACT 2008 - SECTION 88 AND THE INFRASTRUCTURE PLANNING  
(EXAMINATION PROCEDURE) RULES 2010 – RULE 6 ETC**

**APPLICATION BY HIGHWAYS ENGLAND FOR AN ORDER GRANTING  
DEVELOPMENT CONSENT FOR THE A19 DOWNHILL LANE JUNCTION  
IMPROVEMENT**

I refer to a request made to you at the preliminary hearing on 13<sup>th</sup> August 2019 on behalf of both South Tyneside Council and Sunderland City Council. The request relates to the deadlines for the submission of evidence listed under item 4 of the agenda. If you are agreeable, both Councils wish to submit the Local Impact Report and Statements of Common Ground by deadline 2 of 10<sup>th</sup> September 2019. The request is to enable further collaboration and the provision of a joint position by both South Tyneside and Sunderland City Councils. There will also be a need to draft a Side Agreement between the applicant and both local authorities. We trust this request is acceptable to you.

South Tyneside Council was unable to send representatives to the Issue Specific Hearing. However, Council representatives have listened to the oral recordings of the Issue Specific Hearing and I can confirm that South Tyneside Council is broadly satisfied with the information as defined in the draft Development Consent Order for the scheme.

Please find below written responses to the ExA's written questions from South Tyneside as listed within table 1 to Annex E and which were discussed during the Issue Specific Hearing 1 (ISH1):-

In response to Question 21, regarding the imposition of a speed limit of 40mph on roads identified within the schedule. This is agreed in principle. It should be noted that the roundabout junction and approach roads are located away from built up residential areas, and that the A1290 Downhill Lane within South Tyneside is already subject to a 40mph limit. The scheme also provides a safe alternative route for pedestrians and cyclists, and removes the need for these highway users to travel through the junction.

In response to Question 24, it is noted that article 12(6) contains provisions for deeming consent to the temporary stopping up and restriction of use of streets if the consenting body fails to respond to the applicant within 28 days. This is agreed in principle. South Tyneside is invited by Highways England to attend a regular monthly Traffic Management Forum as part of the A19 Testo's scheme. This forum allows for advance notification of works requiring temporary road closures and diversions, prior to any formal consultation which should address this issue.

In response to Question 25, it is noted that article 14 contains provisions for the forming or improving means of access for the purposes of authorised development. This is agreed in principle. However, any new accesses particularly from a classified road should be discussed and agreed with the respective local authority prior to installation. The access arrangements should also remain temporary, and therefore not subject to adoption as public highway. This requirement could be detailed within a Side Agreement.

In response to Question 41 relating to the detailed design, a request made by the applicant around a potential change to the scheme seeking authorisation by way of an amendment. The change being to remove the non-motorised user bridge from the proposed location to an alternative location further to the South. At the ISH1 hearing, the applicant stated that the current scheme design is at a preliminary design stage, and is currently investigating this option. It is noted that the decision to consider this proposal is at your discretion. In principle, the provision of a route on an appropriate desire line for non-motorised users, and fully segregated from traffic on the A19 corridor is acceptable. However, South Tyneside would wish to reserve its position until further evidence is provided.

In response to Questions 43 and 45, South Tyneside Council is content for the discharge of conditions to be dealt with by the Secretary of State. This approach was previously adopted for the consented DCO for the A19 / A184 Testo's Junction Improvement Scheme.

I trust this is of assistance and provides a written response from South Tyneside Council to complement the answers provided at the hearings.

If you have any further queries regarding this letter or wish to discuss this matter in more detail, please contact Trevor Male (Operations Manager – Transport Strategy) on 0191 424 7666 or [trevor.male@southtyneside.gov.uk](mailto:trevor.male@southtyneside.gov.uk)

Yours sincerely

Trevor Male  
**Operations Manager – Strategic Transport**
