# Introduction

## Why are we undertaking supplementary consultation?

Earlier this year we consulted on our proposals for improving the A303 past Stonehenge, between Amesbury and Berwick Down. We have been using the feedback received to further develop our plans. From this we have identified three changes on which we would welcome your views before we submit our application to build the scheme.

These are:

- To remove the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site (see page 12 for more details)
- To widen the green bridge proposed near the existing Longbarrow roundabout (see page 14 for more details)
- To move the proposed modification of Rollestone crossroads (see page 15 for more details)

A number of people also asked us to clarify our public rights of way proposals along the scheme, so we are taking this opportunity to provide that clarification.

**Consultation on the proposed changes runs from 17 July 2018 to 14 August 2018.**

The above changes are those that we believe would benefit from further consultation. You will be able to view all the changes we are making in response to consultation in our Consultation Report. This will be published as part of our application to build the scheme which we intend to submit in autumn 2018.

# Public rights of way

The scheme will make it easier for walkers, cyclists and horse riders to access the Stonehenge World Heritage Site (WHS) more widely by creating new public rights of way.

Our proposals will link Yarnbury Castle and Winterbourne Stoke and allow access all the way through the WHS to Amesbury.

## What is a public right of way?

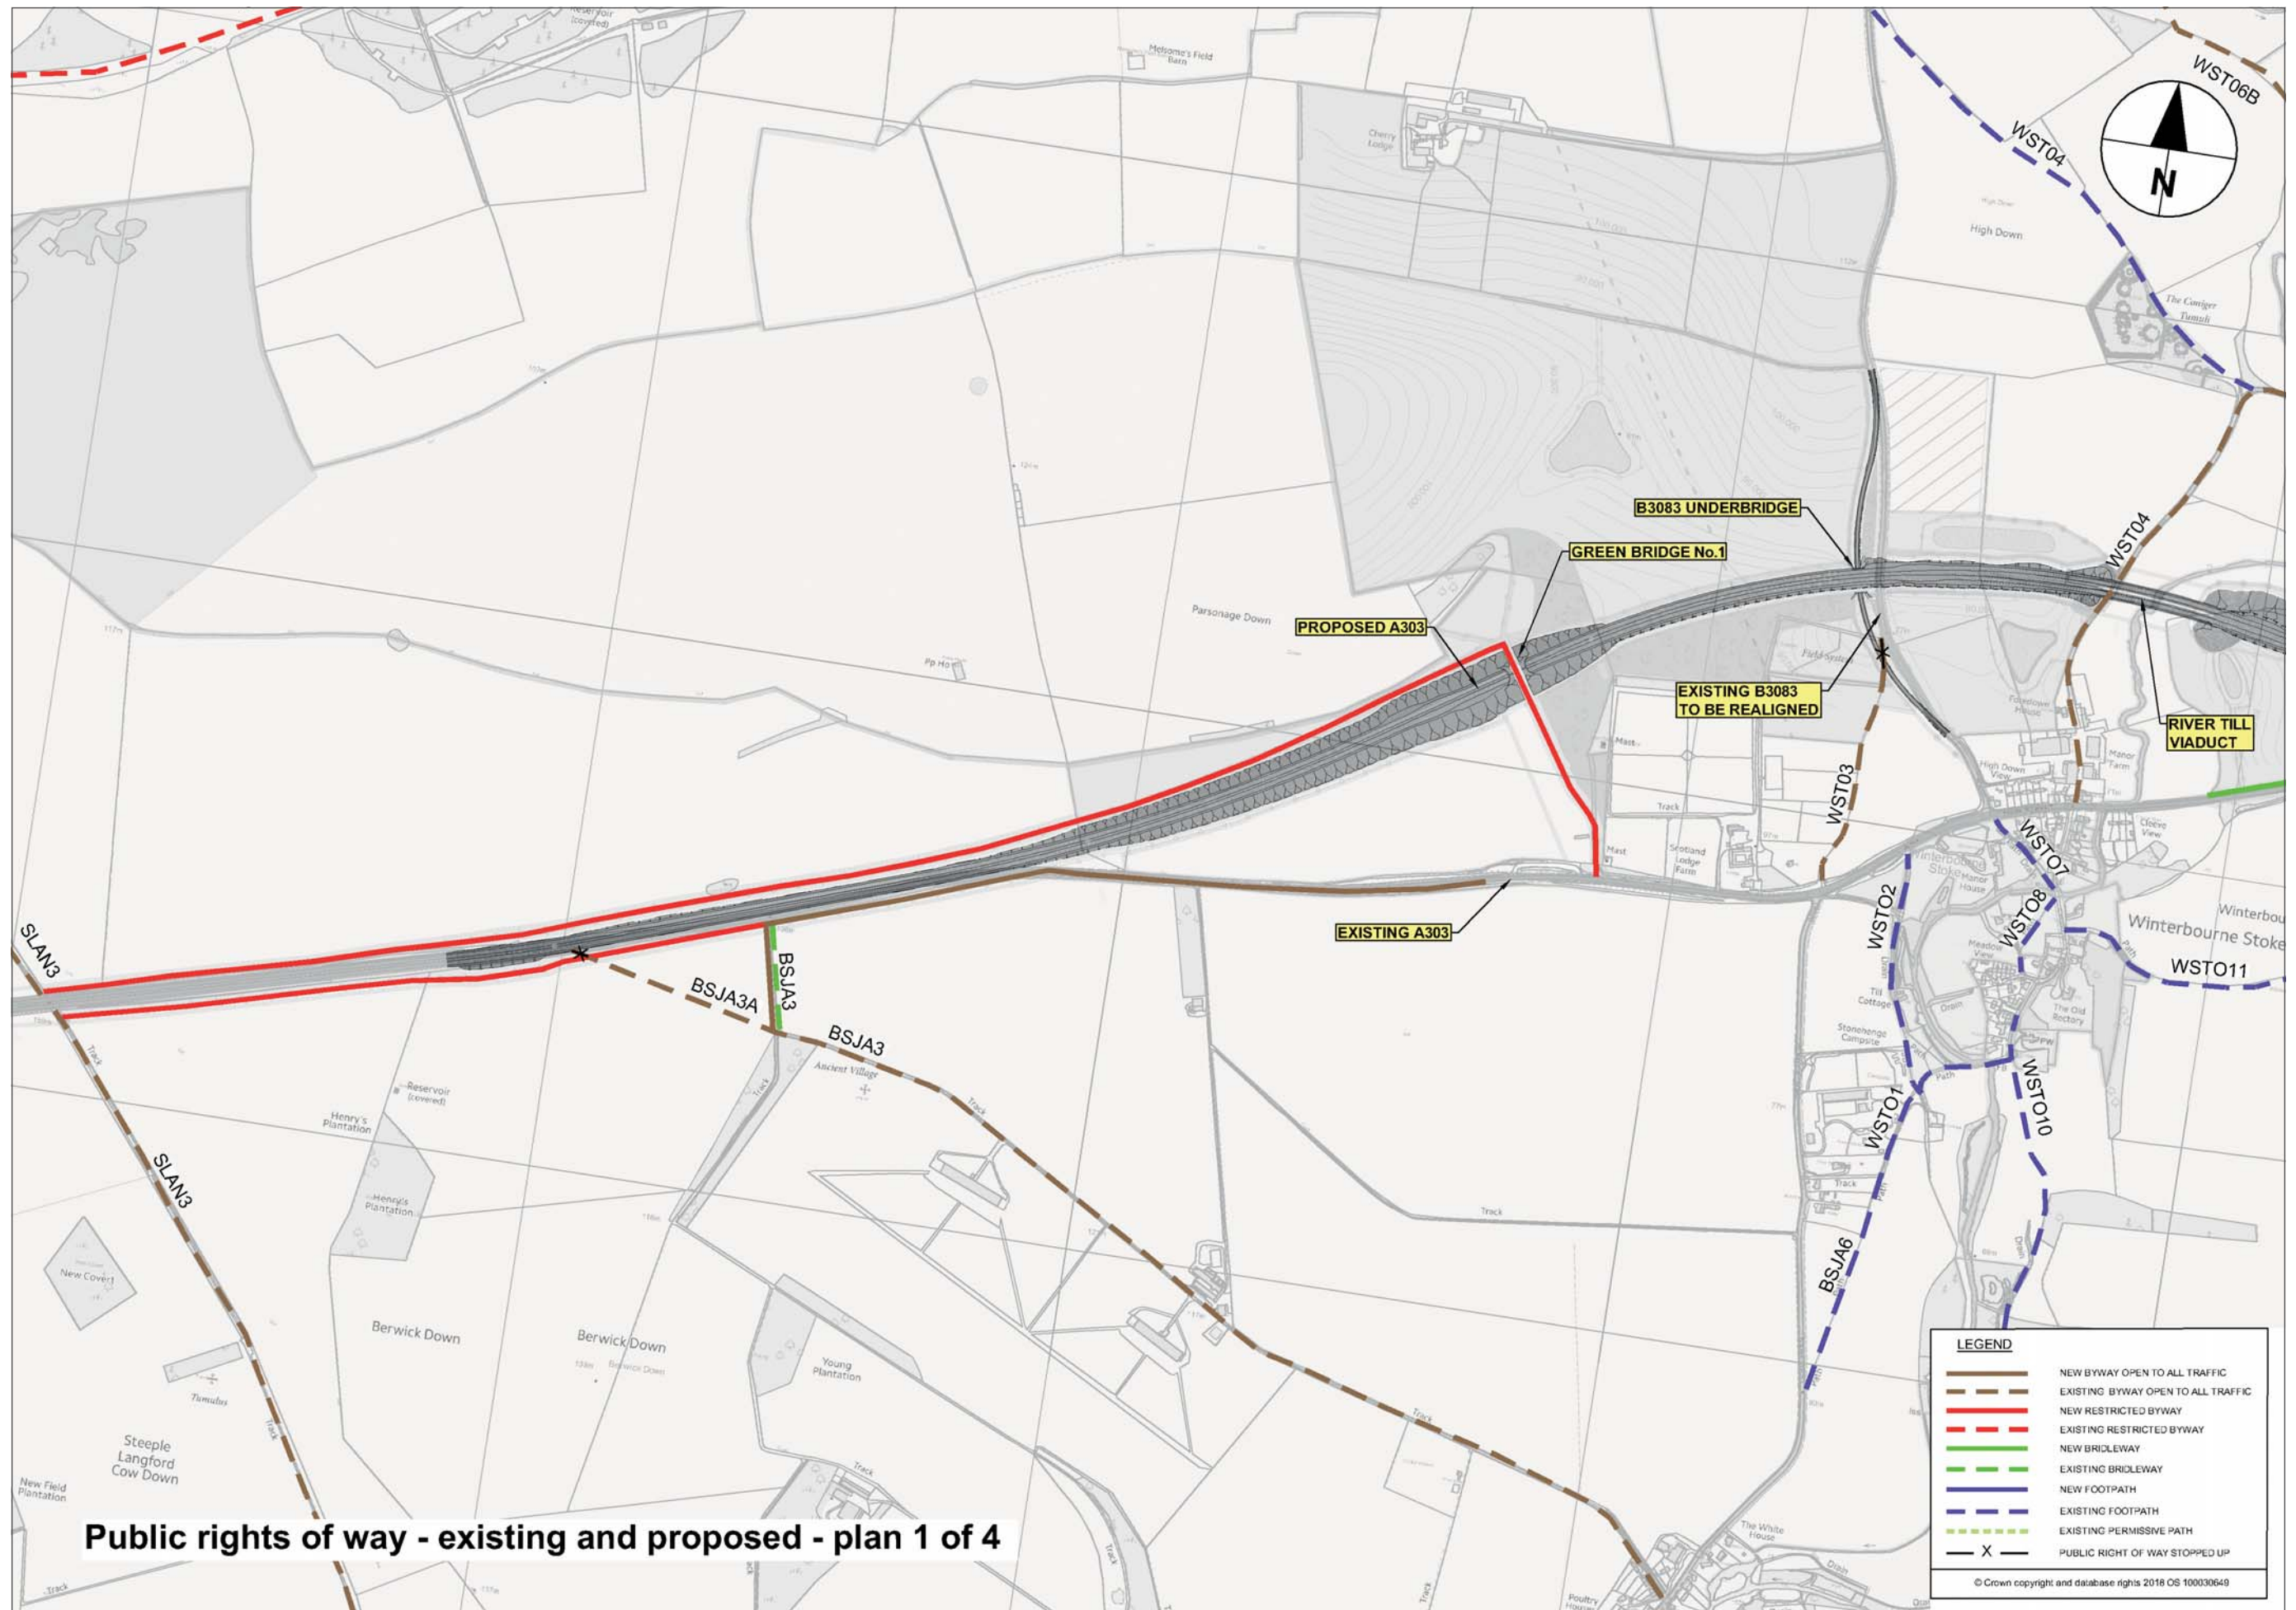

There are different types of legal restrictions that allow or prohibit different types of use on public rights of way. These are set out in the table below:

Public right of way	Open to
<b>Public footpath</b>	Walkers, wheelchairs, mobility scooters and powered wheelchairs
<b>Public bridleway</b>	Public footpath users plus horse-riders and pedal cyclists
<b>Restricted byway</b>	Public bridleway users plus drivers/riders of non-motorised vehicles (such as horse-drawn carriages)
<b>Byway open to all traffic (BOAT)</b> – BOATs are generally not maintained to the same standard as ordinary roads	Restricted byway users plus motor vehicles

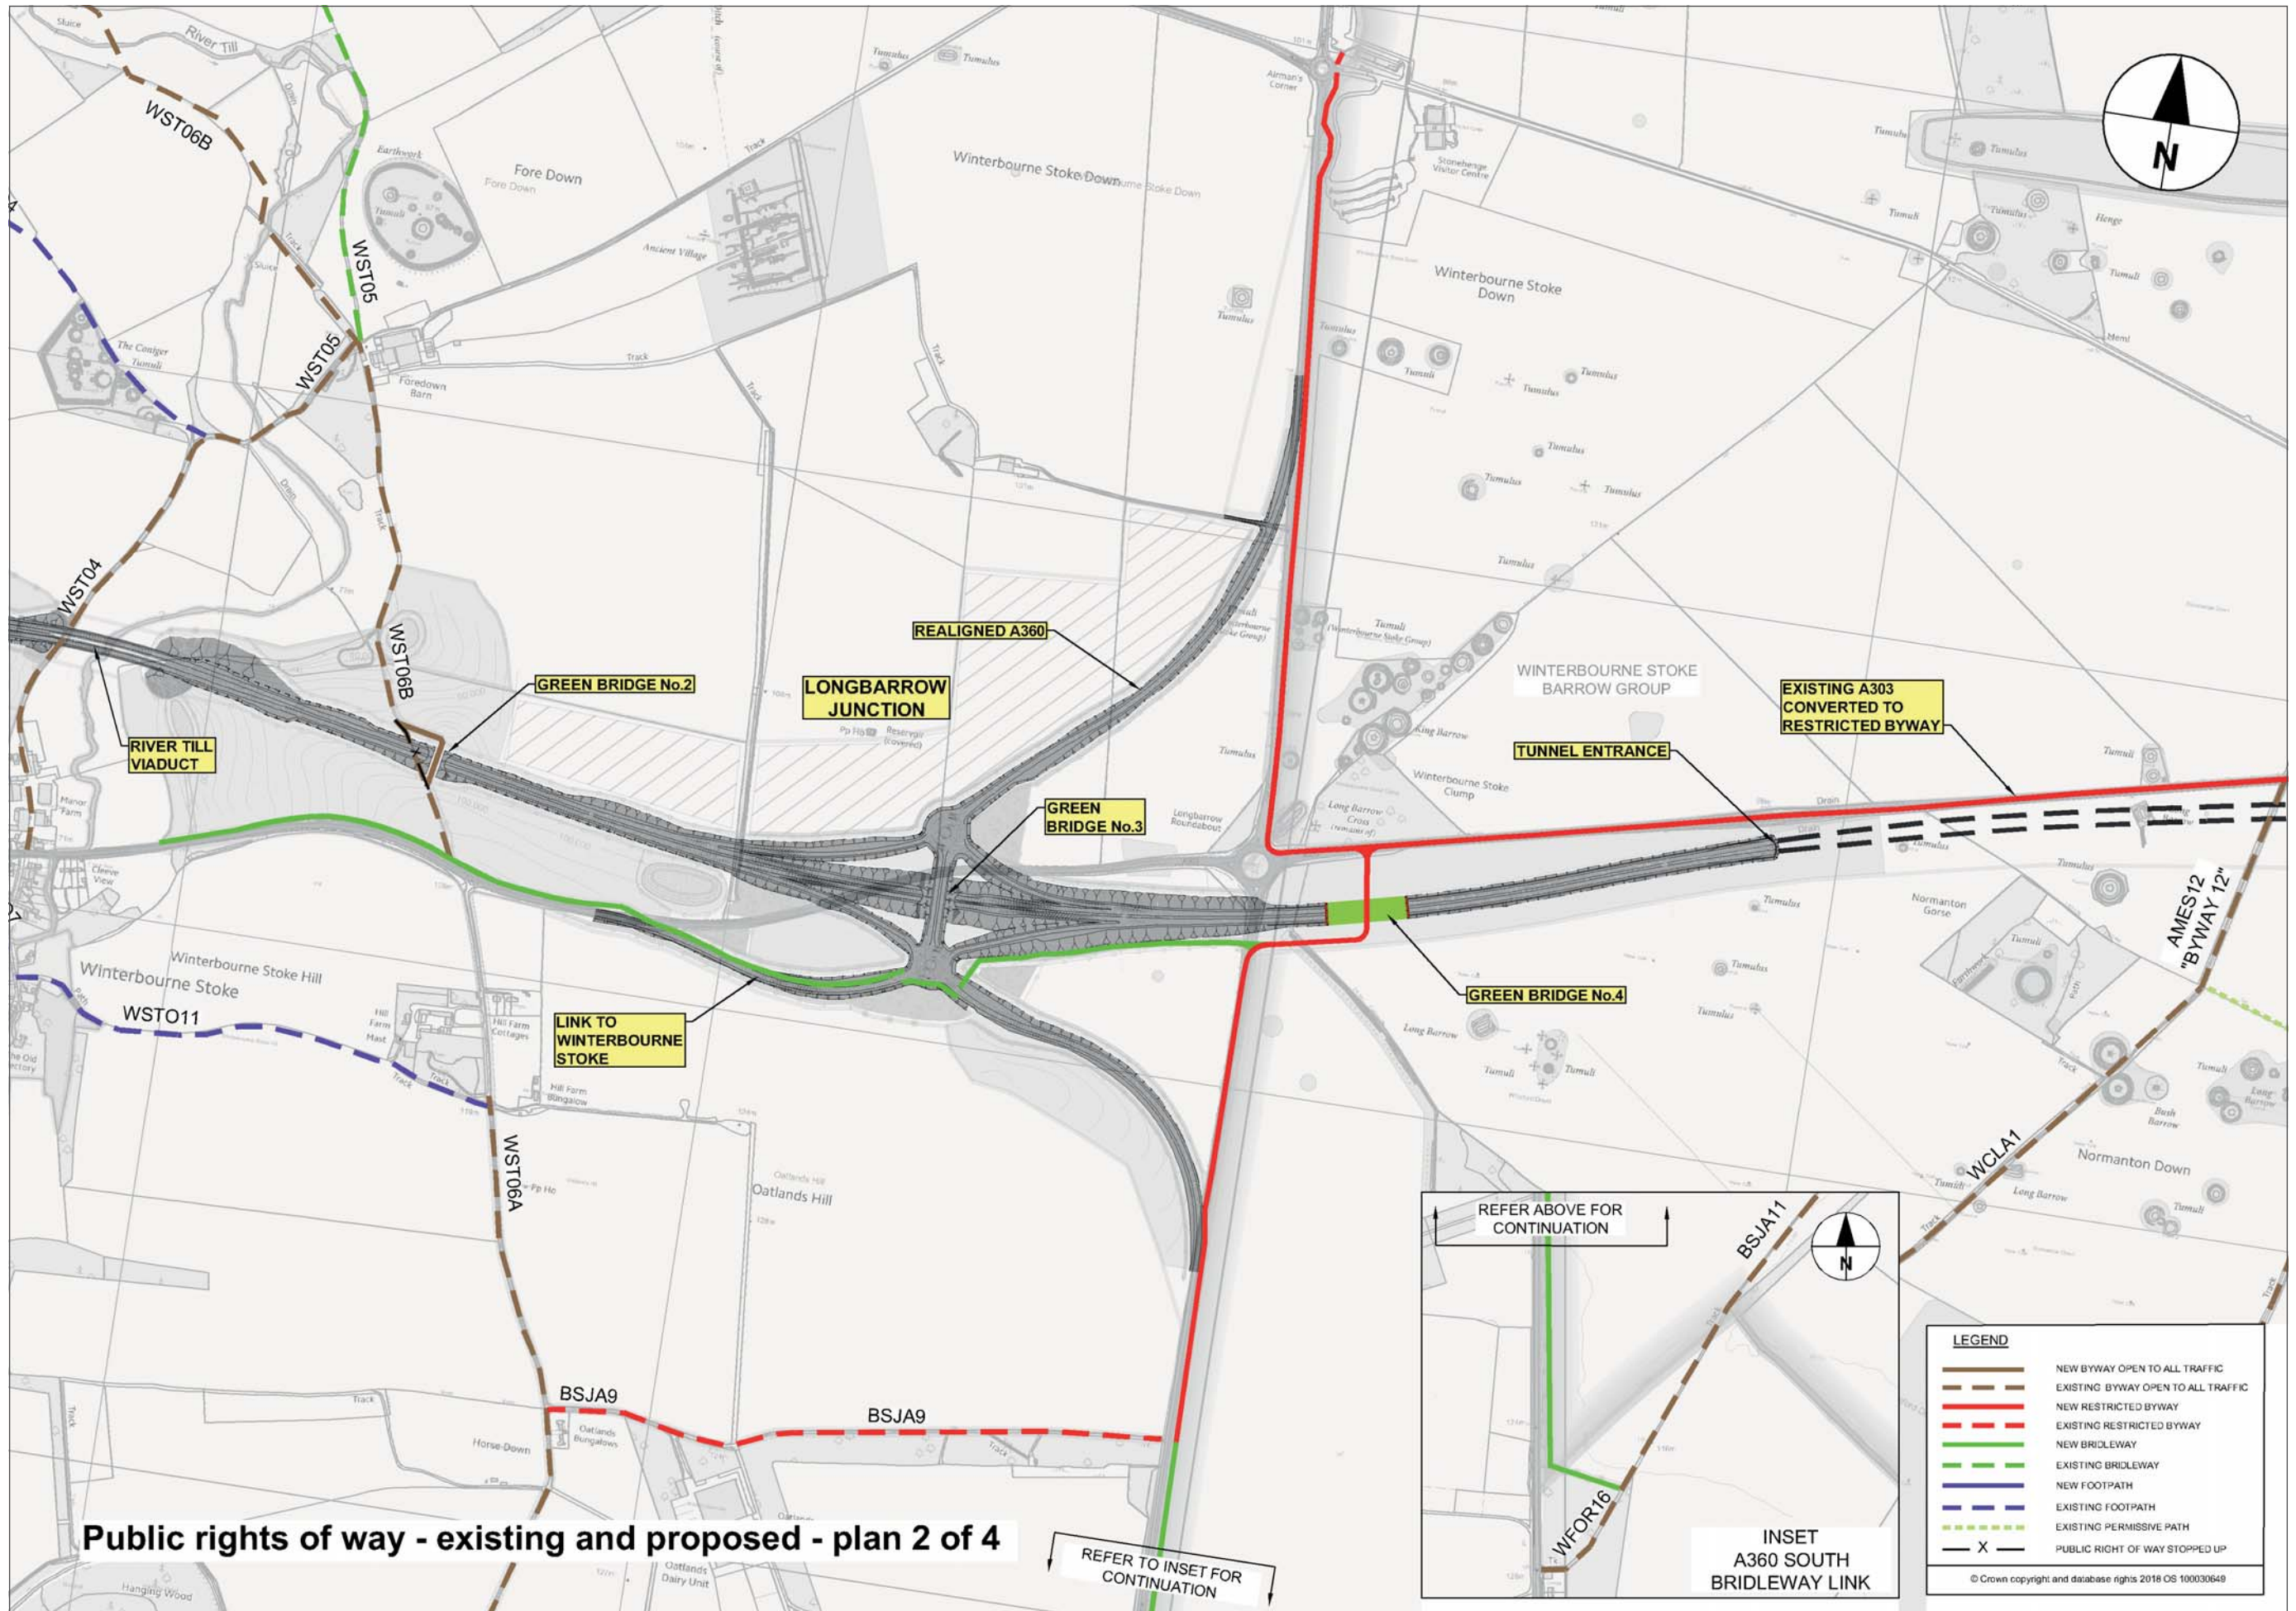

The plans on the following pages show clearly the types of public rights of way we're proposing along the scheme and how they will link with existing ones.

# The changes we are consulting on

## 1) Removing the previously proposed link between Byways 11 and 12

Byways 11 and 12 are BOATs that run through the WHS and link up with the existing A303 (see plan 3 of 4 on pages 8 and 9). We previously proposed a new link between Byways 11 and 12 to the south of the A303, accompanied by stopping up the northern part of Byway 11.

However, respondents were concerned that vehicles on the new link would have an adverse impact on the adjacent Normanton Down barrow group and on the tranquillity of the WHS at this location.

Following further consideration, we are no longer proposing this new link or stopping up part of Byway 11. The plans opposite show the change. The change means that motor vehicles will no longer be able to travel between Byways 11 and 12 because motorised access will be removed

along the existing A303 when the tunnel is constructed. Non-motorised users will still have access between Byways 11 and 12 via the proposed new restricted byway along the line of the existing A303.

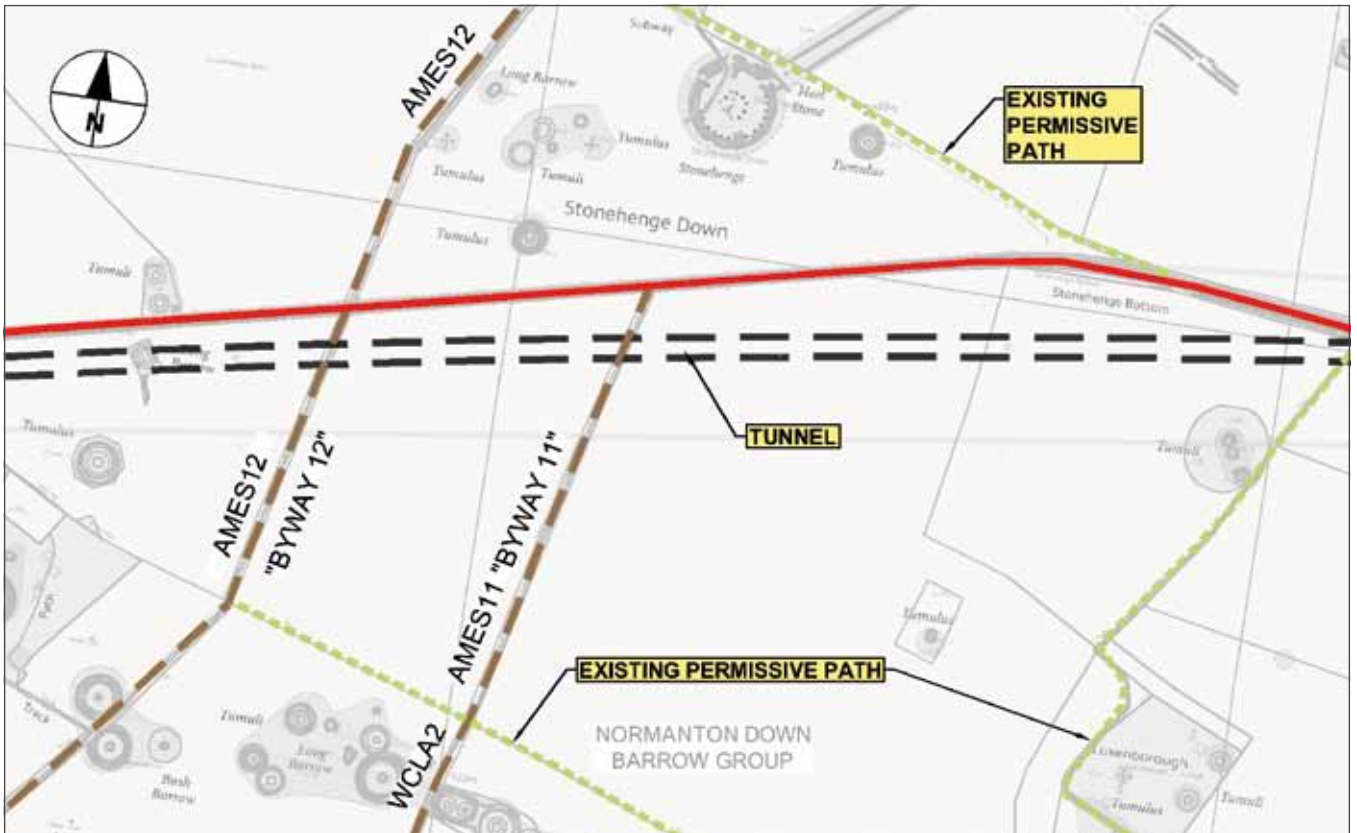

This will help achieve our objective to remove the sight and sound of traffic from much of the WHS landscape, a key aspiration also of the WHS Management Plan.

**Question 1 in the response form gives you an opportunity to comment on our removal of the previously proposed link between Byways 11 and 12.**

Plan showing new proposal without link between Byways 11 and 12

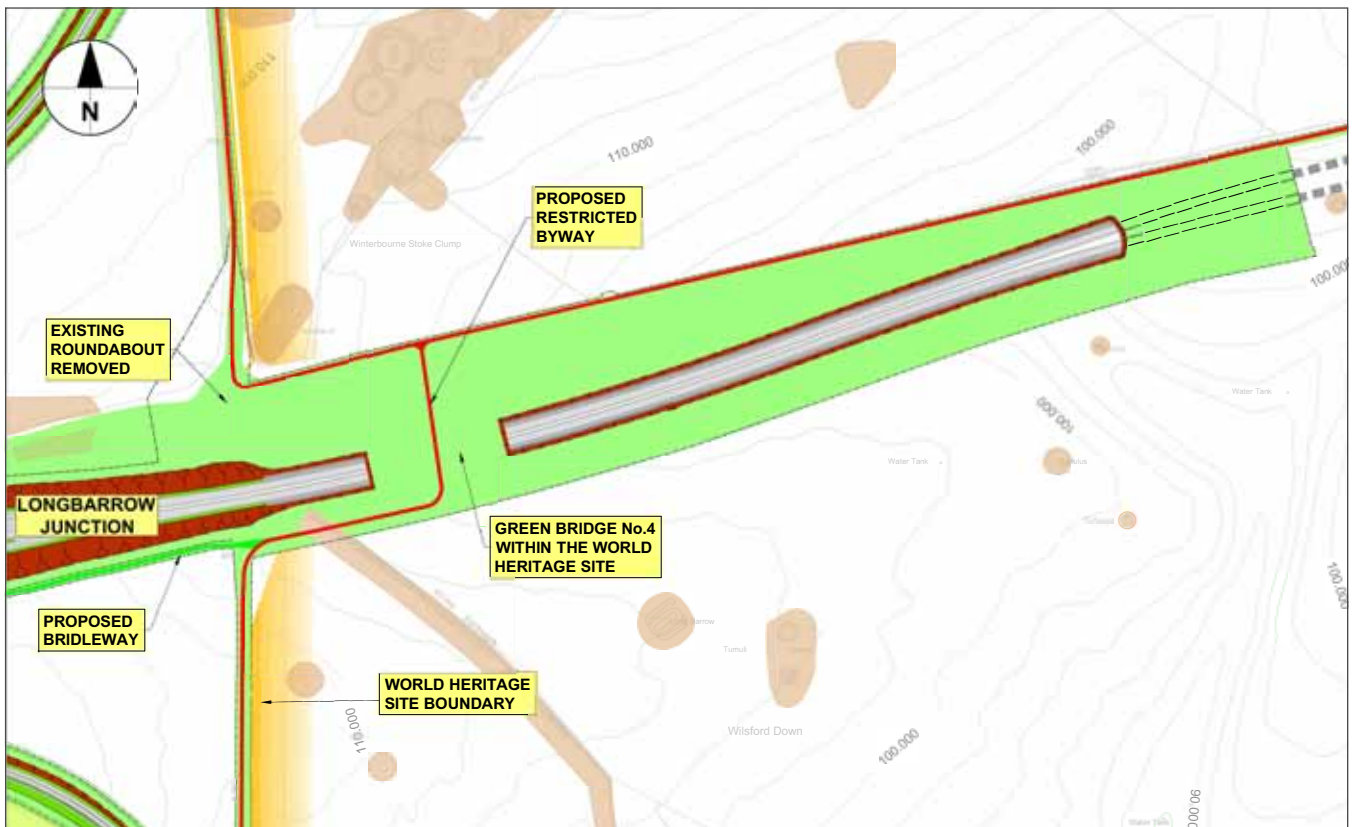

## 2) Green bridge near the existing Longbarrow roundabout

Our previous consultation options for the green bridge near Longbarrow (also known as green bridge No.4) were to either locate it on the line of the existing A360 or further east, within the WHS. These options are shown on the plans below:

**Green bridge No.4 along the line of the existing A303    Green bridge No.4 located further east into the WHS**

Having analysed the responses, we have chosen to locate the green bridge within the WHS. We also propose to widen the bridge to approximately 150 metres. The location and width of the green bridge are shown on the plan below:

**Plan showing revised location and width of green bridge**

A wider green bridge at the proposed location will improve the physical and visual connection between the northern and southern parts of the WHS and the monuments within it.

**Question 2 in the response form gives you an opportunity to comment on our proposals for the green bridge near Longbarrow.**

### 3) Rollestone crossroads

As part of the scheme, we are proposing to modify the layout of Rollestone crossroads to alter the traffic flow priorities and accommodate long vehicles. The new layout is more compact than that previously proposed, as illustrated on the plans below.

Plan showing statutory consultation proposal for Rollestone crossroads

Plan showing new layout now proposed for Rollestone crossroads

The change means the junction will be located just inside the north west corner of the WHS. However, the area has been surveyed and found to be free of archaeological remains and there will be no adverse effect on the Outstanding Universal Value of the WHS.

**Question 3 in the response form gives you an opportunity to comment on the proposed change at Rollestone crossroads.**

# Preliminary environmental information relating to the changes

The following tables summarise the main preliminary environmental effects of the changes we are consulting on now, compared with the effects of the proposals presented for statutory consultation.

Where a topic is not covered in the tables, there are no differences against the effects assessed for the statutory consultation proposals.

<b>Change: removing the previously proposed link between Byways 11 and 12</b>	
<b>Preliminary environmental effects at statutory consultation</b>	<b>Preliminary environmental effects after change</b>
<p><b>Cultural heritage</b></p> <p>The previous proposal would have accommodated the movement of vehicles via a new link running close to the Normanton Down Barrow Group. This would have resulted in adverse impacts on the setting of the barrows and on the integrity of the WHS.</p>	<p>The change will avoid adverse impacts on the Normanton Down Barrow Group and on the integrity of this part of the WHS.</p>
<p><b>People and communities</b></p> <p>The byways are used by motorised and non-motorised users. The link would have maintained full connectivity between the byways.</p>	<p>The change will disadvantage motorised users by removing connectivity between the byways for motorised vehicles, while non-motorised users will be able to travel in a more tranquil environment between Byways 11 and 12 via the existing A303 that will become a restricted byway.</p>
<p><b>Biodiversity</b></p> <p>The previously proposed link would have run close to the Normanton Down RSPB Reserve. This would have resulted in the disturbance of nesting stone curlew.</p>	<p>The change will avoid adverse impacts on the Normanton Down RSPB Reserve and stone curlew.</p>

## Change: widening the green bridge proposed near Longbarrow roundabout

Preliminary environmental effects at statutory consultation	Preliminary environmental effects after change
<p><b>Cultural heritage</b></p> <p>The existing A303 within the WHS acts as a physical barrier to the connectivity between monuments and to users of public rights of way. The options at statutory consultation represented beneficial effects on setting, connectivity and accessibility.</p>	<p>There will be an increase to the beneficial effects on the setting of monuments within the WHS, due to enhanced connectivity within the WHS created by the wider bridge, in particular between the Winterbourne Stoke and Normanton Down and Diamond Barrow Groups.</p>
<p><b>Landscape and visual</b></p> <p>The statutory consultation options represented beneficial effects for improved connectivity.</p>	<p>There will be a slight increase to the beneficial effects due to the wider bridge giving improved connectivity and greater visual screening of the new road in this part of the WHS.</p>
<p><b>Biodiversity</b></p> <p>The existing A303 acts as a barrier to the movement of flora and fauna. The statutory consultation options represented beneficial effects for ecological connectivity.</p>	<p>There will be a slight increase to the beneficial effect on ecological connectivity due to a wider green expanse.</p>

## Change: moving the proposed modification of Rollestone crossroads

Preliminary environmental effects at statutory consultation	Preliminary environmental effects after change
<p><b>Cultural heritage</b></p> <p>The existing B3086 is adjacent to the WHS and runs past several scheduled monuments. The previous proposal would have moved the road closer to scheduled monuments, involving landtake in an area with high potential for buried archaeology.</p>	<p>The junction will be placed further from scheduled monuments and recent archaeological evaluation shows that no buried remains will be affected. Although the proposal requires new landtake within the WHS, this will have no adverse effect on its Outstanding Universal Value.</p>
<p><b>Landscape and visual</b></p> <p>The previous proposal would have increased the area of road footprint in this location.</p>	<p>The change will have a smaller footprint, resulting in a slight reduction of the adverse effect to the landscape.</p>
<p><b>People and communities</b></p> <p>The previous proposal for the junction would have resulted in loss of agricultural land.</p>	<p>The change will need less landtake, resulting in a slight reduction of the adverse effect on agricultural land.</p>

### Supplementary consultation response form

## Introduction

**Earlier this year we consulted on our proposals for improving the A303 past Stonehenge, between Amesbury and Berwick Down. We have been using this feedback to further develop our plans. From this we have identified three changes on which we would welcome your views before we submit our application for a development consent order to build the scheme.**

These are:

1. To remove the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site
2. To widen the green bridge proposed near the existing Longbarrow roundabout
3. To move the proposed modification of Rollestone crossroads.

We would welcome your views on these three proposed changes before we submit our proposals for development consent.

## More information

We have produced a supplementary consultation booklet to explain the changes we are proposing to make.

The booklet, further information about the scheme, and an online version of the response form, are available on our website: [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation)

### **Copies of the booklet and response forms will also be available:**

- at public information events, where the scheme proposals will be on display and members of the project team will be available to answer questions
- at deposit locations where copies of the booklet and response forms will be available to view and take away

Alternatively, please phone, email or write to us for any information or documents using the contact details below.

## J3 Supplementary consultation poster

# A303 Stonehenge: Amesbury to Berwick Down

Supplementary consultation: Tuesday 17 July 2018 to Tuesday 14 August 2018

## What's this all about?

Earlier this year, we consulted on our proposals for upgrading the A303 past Stonehenge, between Amesbury and Berwick Down, to transform journey reliability, enhance safety and improve connectivity to the South West.

We have been using the consultation feedback to develop our plans and are proposing the following changes on which we would welcome your further views:

- To remove the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site
- To widen the green bridge proposed near the existing Longbarrow roundabout
- To move the proposed modification of Rollestone crossroads

We are also taking the opportunity to clarify our public rights of way proposals that form part of the scheme.

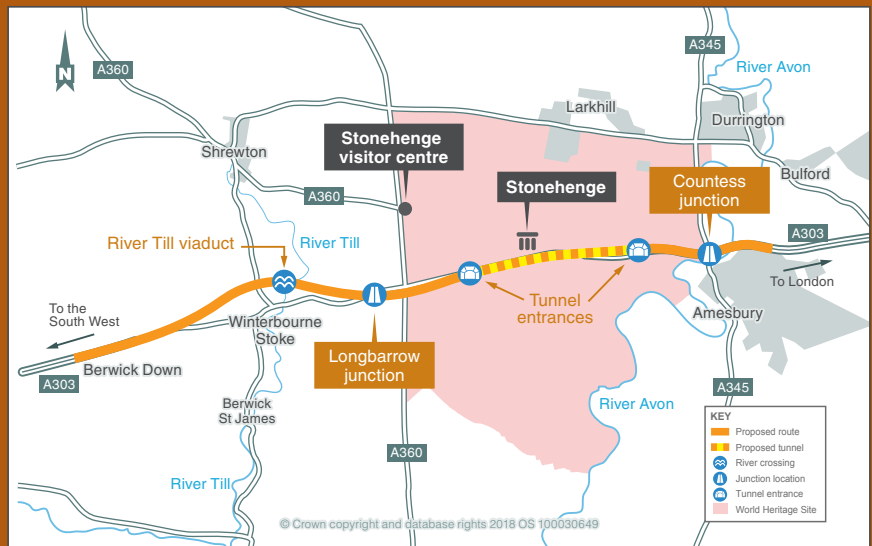

## How do I get involved?

Come along to one of our public information events to meet the project team, ask questions and view more details about the proposed changes.

## What is the scheme?

The 8 mile long dual carriageway scheme is made up of the following key elements:

- A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley
- A new junction between the A303 and A360
- A twin-bore tunnel at least 1.8 miles long past Stonehenge
- A new junction between the A303 and A345 at the site of the existing Countess roundabout

## Public information events to present proposed changes

**A303 Stonehenge: Amesbury to Berwick Down  
Supplementary Consultation: Tuesday 17 July 2018 to Tuesday 14 August 2018**

Dear Sir/Madam,

Earlier this year we wrote to you regarding the statutory consultation for the proposed A303 Stonehenge: Amesbury to Berwick Down Scheme ('the Scheme') which is a nationally significant infrastructure project for the purposes of the Planning Act 2008 (the Act).

The Act requires us to make an application to the Secretary of State for Transport for a Development Consent Order (DCO) to construct the Scheme. We intend to make our application in autumn 2018.

The Scheme is Environmental Impact Assessment development ("EIA development"), as defined by the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means an Environmental Statement will be submitted as part of the DCO application.

The statutory consultation closed on 23 April 2018. As part of the Scheme's continuing development, we are now undertaking a supplementary consultation on

three changes we are making to the proposals presented for statutory consultation, prior to making our DCO application.

The changes are:

- to remove the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site;
- to widen the green bridge proposed near the existing Longbarrow roundabout and
- to move the proposed modification of the Rollestone crossroads junction.

A number of people also asked us to clarify our public rights of way proposals along the scheme, so we are taking this opportunity to provide that clarification.

The supplementary consultation will run from Tuesday 17 July 2018 to Tuesday 14 August 2018. The consultation materials, containing details of the proposed changes, are available to view online at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation). Details of the consultation are contained in the notice and the proposed changes are described in the booklet that are enclosed with this letter.

### What you need to do now

We are grateful for the response to our earlier consultation and are acting on the feedback. We would now welcome your views on our proposed changes. Your further feedback will help us to make sure we have got the best scheme before we make our application later this year to build the scheme.

We will accept your response to this consultation provided it is received by **23.59 on Tuesday 14 August 2018**. This can be done in a number of ways:

- Complete a response form online at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation)
- Post a feedback form or write to us at Freepost A303 STONEHENGE CONSULTATION
- Email us at [A303Stonehenge@highwaysengland.co.uk](mailto:A303Stonehenge@highwaysengland.co.uk)

## J5 Supplementary consultation email, 16 July 2017

Dear Sir or Madam

Earlier this year you contributed your feedback to our consultation on improving the A303 past Stonehenge, between Amesbury and Berwick Down. We've been using the feedback we received to further develop our plans.

From this, we've identified three changes on which we would welcome your views before we submit our application to build the scheme.

These are:

- To remove the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site
- To widen the green bridge proposed near the existing Longbarrow roundabout
- To move the proposed modification to Rollestone crossroads.

A number of people also asked us to clarify our public rights of way proposals along the scheme, so we're taking this opportunity to do this.

Supplementary consultation on the proposed changes runs from 17 July 2018 to 14 August 2018.

You're welcome to view all the latest documentation and submit your feedback on the scheme online. We've updated the [scheme website](#) and [consultation page](#).

We look forward to hearing your views.

Kind regards

### J6.1 Supplementary consultation notice

#### A303 Stonehenge: Amesbury to Berwick Down

#### Development Consent Order Notice Publicising a Proposed Application for a Development Consent

#### Supplementary Consultation

**HIGHWAYS ENGLAND COMPANY LIMITED** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ (“the Applicant”) proposes to make an application (“the Application”) under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

Highways England undertook a statutory consultation in relation to its proposed application between 8 February 2018 and 23 April 2018. As part of the development of the scheme and having had regard to responses received to its statutory consultation, Highways England is now undertaking a supplementary consultation in relation to certain changes made to its proposals. This supplementary consultation is taking place from Tuesday 17 July 2018 to Tuesday 14 August 2018.

Highways England is proposing to upgrade the A303 past Stonehenge between Amesbury and Berwick Down to a dual two-lane carriageway. The scheme is approximately 8 miles (nearly 13km) long and comprises the following key elements:

- A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley;
- A new junction between the A303 and A360 to the west of and outside the World Stonehenge, Avebury and Associated Sites World Heritage Site (The World Heritage Site), replacing the existing Longbarrow roundabout;
- A twin-bore tunnel at least 1.8 miles (2.9 km) long past Stonehenge;
- A new junction between the A303 and A345 at the site of the existing Countess roundabout.

All of the supplementary consultation materials, containing details of the changes being consulted on, will be available to view online from Tuesday 17 July 2018 on the A303 Stonehenge scheme website at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation)

Public exhibitions of the proposed changes are being held in Amesbury and Winterbourne Stoke as indicated, when you may wish to speak with members of the Project Team at the following locations, dates and times:

Venue	Dates and times
<b>The Manor Barn</b> High St, Winterbourne Stoke, Salisbury, SP3 4SZ	Thursday 19 July 2018 at 14.00 to 20.00

If you do not have access to a computer a printed copy of the scheme plans and the PEI Report can be sent to you if requested. A charge of £135 + VAT/delivery costs will be made for each copy provided.

Any person may comment on the proposals or otherwise respond to this publicity. Responses must be received by 23.59 on Tuesday 14 August 2018. A supplementary consultation response form is available as part of the consultation materials. When providing your response, please include your name and address or, if you would prefer your comments to be anonymous, your postcode only. Please also confirm the nature of your interest in the scheme. Please complete your response form:

- online at [www.highways.gov/A303Stonehenge](http://www.highways.gov/A303Stonehenge)
- by emailing: [A303Stonehenge@highwaysengland.co.uk](mailto:A303Stonehenge@highwaysengland.co.uk)
- in writing: Freepost, A303 STONEHENGE CONSULTATION

**Responses must be received no later than 23.59 on Tuesday 14 August 2018.**

Highways England will consider and have regard to all responses in developing the application for a Development Consent Order once supplementary consultation has closed. The responses will be summarised in a Consultation Report and published on the scheme website when the application is submitted. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of the Consultation Report.

If you would like further information about this notice, the consultation or the scheme, please contact the project team by using one of the contact methods provided above.

**A303 STONEHENGE: AMESBURY TO BERWICK DOWN NOTICE PUBLISHING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER SUPPLEMENTARY CONSULTATION**

**HIGHWAYS ENGLAND COMPANY LIMITED** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

Highways England undertook a statutory consultation in relation to its proposed application between 8 February 2018 and 23 April 2018. As part of the development of the scheme and having had regard to responses received to its statutory consultation, Highways England is now undertaking a supplementary consultation in relation to certain changes made to its proposals. This supplementary consultation is taking place from Tuesday 17 July 2018 to Tuesday 14 August 2018.

Highways England is proposing to upgrade the A303 past Stonehenge between Amesbury and Berwick Down to a dual two-lane carriageway. The scheme is approximately 8 miles (nearly 13km) long and comprises the following key elements:

- A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley;
- A new junction between the A303 and A360 to the west of and outside the Stonehenge, Avebury and Associated Sites World Heritage Site (The World Heritage Site), replacing the existing Longbarrow roundabout;
- A twin-bore tunnel at least 1.8 miles (2.9 km) long past Stonehenge;
- A new junction between the A303 and A345 at the site of the existing Countess roundabout.

All of the supplementary consultation materials, containing details of the changes being consulted on, will be available to view online from Tuesday 17 July 2018 on the A303 Stonehenge scheme website at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation).

Public exhibitions of the proposed changes are being held in Amesbury and Winterbourne Stoke as indicated, when you may wish to speak with members of the Project Team at the following locations, dates and times:

Venue	Dates and times

**Director General / CEO Designate**  
**Health Service Executive, Ireland**

The overall purpose of the health service is to improve the health and well-being of people in Ireland by keeping people healthy, providing the healthcare people need, delivering high quality services and getting best value from health system resources.

The Health Service Executive is the largest public sector employer in the country. The public health service has a budget of €14.5 billion in 2018 and over 110,000 staff. The Government has committed to a significant programme of health reform arising from the Sláintecare Report and the new Director General will have a leading role in its implementation.

The Director General's role is to lead the HSE and to manage and be accountable for the operation of the Executive.

The ideal candidate will have:

- Significant strategic leadership experience with a proven track record of organisational management and improvement, preferably in a distributed and highly complex organisation;
- Demonstrable leadership of transformational change and reconfiguration in complex environments and a track record in implementing major system-wide reform;
- An ability to collaborate and work effectively with partners and key stakeholders and have a record of success in communicating, influencing and engaging at the highest levels;
- A track record of managing large budgets and getting the best from an Executive team.

*This advertised recruitment campaign will be complemented by an executive search process.*

The closing date for receipt of applications is 3:00pm Thursday 9 August 2018. For a confidential discussion, contact Sandra Cairns on +353 1 8587455 or email [sandra.cairns@publicjobs.ie](mailto:sandra.cairns@publicjobs.ie)

### TOWN PLANNING

#### DEPARTMENT FOR TRANSPORT TOWN AND COUNTRY PLANNING ACT 1990

The Secretary of State gives notice of the proposal to make an Order under section 247 of the above Act to authorise the stopping up of two part-widths of Berwick Close comprising footway, which lie at the entrance to its former garage blocks, at Waltham Cross in the Borough of Broxbourne.

If made, the Order would authorise the stopping up only to enable development as permitted by Borough of Broxbourne Council under reference 07/15/0511/F.

Copies of the draft Order and relevant plan will be available for inspection during normal opening hours at Waltham Cross Library, 123 High Street, Hertfordshire EN8 7AN in the 28 days commencing on 4 July 2018, and may be obtained, free of charge, from the address stated below quoting NATTRAN/E/S247/3377.

Any person may object to the making of the proposed order by stating their reasons in writing to the Secretary of State at nationalcasework@dtf.gsi.gov.uk or National Transport Casework Team, Tyneside House, Skinnerburn Road, Newcastle upon Tyne NE4 7AR, quoting the above reference. Objections should be received by midnight on 1 August 2018. Any person submitting any correspondence is advised that your personal data and correspondence will be passed to the applicant/agent to be considered. If you do not wish your personal data to be forwarded, please state your reasons when submitting your correspondence.

#### HIGHWAYS ENGLAND A303 STONEHENGE: AMESBURY TO BERWICK DOWN NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER SUPPLEMENTARY CONSULTATION

HIGHWAYS ENGLAND COMPANY LIMITED of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

Highways England undertook a statutory consultation in relation to its proposed application between 8 February 2018 and 23 April 2018. As part of the development of the scheme and having had regard to responses received to its statutory consultation, Highways England is now undertaking a supplementary consultation in relation to certain changes made to its proposals. This supplementary consultation is taking place from Tuesday 17 July 2018 to Tuesday 14 August 2018. Highways England is proposing to upgrade the A303 past Stonehenge between Amesbury and Berwick Down to a dual two-lane carriageway. The scheme is approximately 8 miles (nearly 13km) long and comprises the following key elements:

- A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley;
- A new junction between the A303 and A360 to the west of and outside the Stonehenge, Avebury and Associated Sites World Heritage Site (The World Heritage Site), replacing the existing Longbarrow roundabout;
- A twin-bore tunnel at least 1.8 miles (2.9 km) long past Stonehenge;
- A new junction between the A303 and A345 at the site of the existing Countess roundabout.

All of the supplementary consultation materials, containing details of the changes being consulted on, will be available to view online from Tuesday 17 July 2018 on the A303 Stonehenge scheme website at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation).

Public exhibitions of the proposed changes are being held in Amesbury and Winterbourne Stoke as indicated, when you may wish to speak with members of the Project Team at the following locations, dates and times:

Venue	Dates and times
<b>The Manor Barn:</b> High St, Winterbourne Stoke, Salisbury, SP3 4SZ	Thursday 19 July 2018 at 14.00 to 20.00
<b>Antrobus House:</b> 39 Salisbury Rd, Amesbury, SP4 7HH	Tuesday 31 July 2018 at 14.00 to 20.00

Copies of the supplementary consultation materials including a booklet, maps and response form will be available for inspection free of charge from Tuesday 17 July 2018 to Tuesday 14 August 2018 at the following locations and times:

The County of Wiltshire (Various Byways and Footpath, Amesbury, Berwick St James, Durrington, Wilsford Cum Lake And Woodford)  
(Prohibition of Driving) Experimental Order 2018**

Notice is hereby given that on 26 June 2018 Wiltshire Council made the above-mentioned Experimental Order under the Road Traffic Regulation Act 1984. The Order will have a maximum duration of 18 months during which time consideration will be given to introducing a permanent Order. The effect of the Experimental Order will be to introduce a prohibition of driving for motor vehicles (except for access including agricultural vehicles, essential maintenance vehicles, emergency vehicles, vehicles associated with the security and operation of the World Heritage Site, vehicles associated with works and maintenance in connection with the A303, landowners and tenants and invalid carriages) on the complete lengths of Amesbury Byway 11 and Byway 12, Berwick St James Byway 11, Durrington Byway 10, Wilsford Cum Lake Byway 1, Byway 2 and Footpath 3, and Woodford Byway 16. Deposit copies of the Order, plan and Statement of the Council's Reasons for making the Order may be inspected at the offices of Wiltshire Council, County Hall, Bythesea Road, Trowbridge during normal office hours. Details of the scheme may be seen at Amesbury Library, Smithfield Street, Amesbury between the hours of 2pm to 7pm Monday, 9.30am to 5pm Tuesday and Friday, 9.30am to 7pm Thursday and 9.30am to 1pm Saturday for the duration of the objection period. Documents can also be viewed online at [www.wiltshire.gov.uk/trconclusions.htm](http://www.wiltshire.gov.uk/trconclusions.htm). Wiltshire Council will be considering in due course whether the provisions of the Experimental Order should be continued in force indefinitely. Objections to the making of an Order for the purposes of such indefinite continuation should be made only in writing, via email to [trafficorders@wiltshire.gov.uk](mailto:trafficorders@wiltshire.gov.uk) or via the Wiltshire Council website stating the grounds on which they are made, quoting reference LUB/TRO/AMSEXP (a) within a period of six months beginning with the day on which the Experimental Order came into force; or (b) if that Order is verified by another Order or modified pursuant to Section 10(2) of the Road Traffic Regulation Act 1984, within a period of six months beginning on the day on which the variation or modification or the latest variation or modification came into force. Any person aggrieved by the Experimental Order and desiring to question the validity of the Order or of any provision contained in the Order or of the grounds that it is not within the powers of the relevant

**Section 14(1) of the Road Traffic Regulation Act 1984**  
 Notice is hereby given that Wiltshire Council intends to make Orders to close temporarily to all traffic: **(a) Shady Bower (Part), Salisbury**; from its junction with Laverstock Road to its junction with Fowlers Hill; **(b) Shady Bower (Part), Salisbury**; from its junction with Fowlers Hill to its junction with Millford Mill Road to enable SGN to undertake works to replace a gas main. Alternative route via Shady Bower (unaffected length) - Manor Farm Road - Riverside Road - Laverstock Road and vice versa. This Order will come into operation on 30 July 2018 and it is anticipated that the closures will be required until 21 October 2018. Works will be phased and closures (a) and (b) will not be operation concurrently. For further information please contact Sally Merritt (SGN) on 02392624120. **(c) Barkers Hill (Part), Donhead St Andrews and Sedgemoor and Semley**; from a point outside property known as Pembroke House, Barkers Hill for a distance of approximately 1.02 kilometres in a northerly direction to enable BT Openreach to carry out underground cabling and clearing of potential duct. Alternative route via Barkers Hill (unaffected length) - Green Lane - Ansty Lane - Britmore Lane - Church Hill - West End - West End Lane and vice versa. This Order will come into operation on 1 August 2018 between the hours of 19:00 and 06:00 and it is anticipated that the closure will be required until 15 August 2018. For further information please contact N.Hancock (BT Openreach) on 07805204712. Orders (a) - (c) will have a maximum duration of 18 months. **The closures and diversion route will be clearly indicated by traffic signs.** It is anticipated that the works will take the stated duration to complete depending upon weather conditions. Access will be maintained for residents and businesses, although delays are likely due to the nature of the works.

**A303 STONEHENGE: AMESBURY TO BERWICK DOWN  
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER  
SUPPLEMENTARY CONSULTATION**

**HIGHWAYS ENGLAND COMPANY LIMITED** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

Highways England undertook a statutory consultation in relation to its proposed application between 8 February 2018 and 23 April 2018. As part of the development of the scheme and having had regard to responses received to its statutory consultation, Highways England is now undertaking a supplementary consultation in relation to certain changes made to its proposals. This supplementary consultation is taking place from Tuesday 17 July 2018 to Tuesday 14 August 2018.

Highways England is proposing to upgrade the A303 past Stonehenge between Amesbury and Berwick Down to a dual two-lane carriageway. The scheme is approximately 8 miles (nearly 13km) long and comprises the following key elements:

- A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley;
- A new junction between the A303 and A360 to the west of and outside the Stonehenge, Avebury and Associated Sites World Heritage Site (The World Heritage Site), replacing the existing Longbarrow roundabout;
- A twin-bore tunnel at least 1.8 miles (2.9 km) long past Stonehenge;
- A new junction between the A303 and A345 at the site of the existing Countess roundabout.

All of the supplementary consultation materials, containing details of the changes being consulted on, will be available to view online from Tuesday 17 July 2018 on the A303 Stonehenge scheme website at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation).

Public exhibitions of the proposed changes are being held in Amesbury and Winterbourne Stoke as indicated, when you may wish to speak with members of the Project Team at the following locations, dates and times:

Venue	Dates and times

If you do not have access to a computer a printed copy of the scheme plans and the PEI Report can be sent to you if requested. A charge of £135 + VAT/delivery costs will be made for each copy provided.

Any person may comment on the proposals or otherwise respond to this publicity. Responses must be received by 23.59 on Tuesday 14 August 2018. A supplementary consultation response form is available as part of the consultation materials. When providing your response, please include your name and address or, if you would prefer your comments to be anonymous, your postcode only. Please also confirm the nature of your interest in the scheme. Please complete your response form:

- online at [www.highways.gov.uk/A303Stonehenge](http://www.highways.gov.uk/A303Stonehenge)
- by emailing: [A303Stonehenge@highwaysengland.co.uk](mailto:A303Stonehenge@highwaysengland.co.uk)
- in writing: Freepost, A303 Stonehenge Consultation

**Responses must be received no later than 23.59 on Tuesday 14 August 2018**

Highways England will consider and have regard to all responses in developing the application for a Development Consent Order once supplementary consultation has closed. The responses will be summarised in a Consultation Report and published on the scheme website when the application is submitted. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of the Consultation Report.

If you would like further information about this notice, the consultation or the scheme, please contact the project team by using one of the contact methods provided above.

## Public Notices

### Announcements - Public Notices

**A303 STONEHENGE: AMESBURY TO BERWICK DOWN**  
**NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER**  
**SUPPLEMENTARY CONSULTATION**  
**HIGHWAYS ENGLAND COMPANY LIMITED** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order. Highways England undertook a statutory consultation in relation to its proposed application between 8 February 2018 and 23 April 2018. As part of the development of the scheme and having had regard to responses received to its statutory consultation, Highways England is now undertaking a supplementary consultation in relation to certain changes made to its proposals. This supplementary consultation is taking place from Tuesday 17 July 2018 to Tuesday 14 August 2018.  
 Highways England is proposing to upgrade the A303 past Stonehenge between Amesbury and Berwick Down to a dual two-lane carriageway. The scheme is approximately 8 miles (nearly 13km) long and comprises the following key elements:  
 • A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley;  
 • A new junction between the A303 and A360 to the west of and outside the Stonehenge, Avebury and Associated Sites World Heritage Site (The World Heritage Site), replacing the existing Longbarrow roundabout;  
 • A twin-bore tunnel at least 1.6 miles (2.9 km) long past Stonehenge;  
 • A new junction between the A303 and A345 at the site of the existing Countess roundabout.  
 All of the supplementary consultation materials, containing details of the changes being consulted on, will be available to view online from Tuesday 17 July 2018 on the A303 Stonehenge scheme website at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation).  
 Public exhibitions of the proposed changes are being held in Amesbury and Winterbourne Stoke as indicated, when you may wish to speak with members of the Project Team at the following locations, dates and times:

**Public Notices**

**A303 STONEHENGE: AMESBURY TO BERWICK DOWN**  
**NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER**  
**SUPPLEMENTARY CONSULTATION**

**HIGHWAYS ENGLAND COMPANY LIMITED** of Bridge House, 1 Walnut Tree Close, Guildford, GU1 4LZ ("the Applicant") proposes to make an application ("the Application") under Section 37 of the Planning Act 2008 to the Secretary of State for Transport for a Development Consent Order.

Highways England undertook a statutory consultation in relation to its proposed application between 8 February 2018 and 23 April 2018. As part of the development of the scheme and having had regard to responses received to its statutory consultation, Highways England is now undertaking a supplementary consultation in relation to certain changes made to its proposals. This supplementary consultation is taking place from Tuesday 17 July 2018 to Tuesday 14 August 2018.

Highways England is proposing to upgrade the A303 past Stonehenge between Amesbury and Berwick Down to a dual two-lane carriageway. The scheme is approximately 8 miles (nearly 13km) long and comprises the following key elements:

- A bypass to the north of Winterbourne Stoke with a viaduct over the Till valley;
- A new junction between the A303 and A360 to the west of and outside the Stonehenge, Avebury and Associated Sites World Heritage Site (The World Heritage Site), replacing the existing Longbarrow roundabout;
- A twin-bore tunnel at least 1.8 miles (2.9 km) long past Stonehenge;
- A new junction between the A303 and A345 at the site of the existing Countess roundabout.

All of the supplementary consultation materials, containing details of the changes being consulted on, will be available to view online from Tuesday 17 July 2018 on the A303 Stonehenge scheme website at [www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation).

Public exhibitions of the proposed changes are being held in Amesbury and Winterbourne Stoke as indicated, when you may wish to speak with members of the Project Team at the following locations, dates and times:

Venue	Dates and times
<b>The Manor Barn</b> High St, Winterbourne Stoke, Salisbury, SP3 4SZ	Thursday 19 July 2018 at 14.00 to 20.00

**Are you a homeowner aged 55 or over?**

Find out if you could release tax-free money from your home

✓ Tax-free cash lump sum  
✓ Maintain home ownership!  
✓ No monthly repayments required

Multi-asset ownership equity release specialist Age Partnership can help homeowners decide if equity release is right for them, how much they can release and what impact it could have on the size of their estate including their entitlement to means-tested benefits now, as in the future. Any money released, plus accrued interest would be repaid upon death, or moving into long-term care.

Equity Release may involve a home reversion plan or a lifetime mortgage which is secured against your property. To understand the features and risks, ask for your personalised illustration. We provide initial advice for free and without obligation. Only if you choose to proceed and your case completes would a fee of 1.95% of the amount released be payable (maximum £1,495).

You only continue to own your own home with a lifetime mortgage.

## Improving the A303 past Stonehenge

Earlier this year we consulted on our proposals for improving the A303 past Stonehenge, between Amesbury and Berwick Down.

We need to improve this road to make travelling between the South West and the South East easier and safer, reduce congestion, make journey times more reliable and support wider economic growth.

We received over 5,000 responses to the consultation; thank you to everyone who shared their views. This feedback has highlighted certain aspects on which we would welcome your further views before we submit our proposals for development consent.

**Visit our website:**

[www.highways.gov.uk/A303Stonehenge/consultation](http://www.highways.gov.uk/A303Stonehenge/consultation) for details of what we are seeking your views on.

**Have your say:**

This is a further opportunity for you to contribute towards key aspects of the consultation before we submit our application to the Planning Inspectorate for a Development Consent Order.

**Join us at a local information event:**

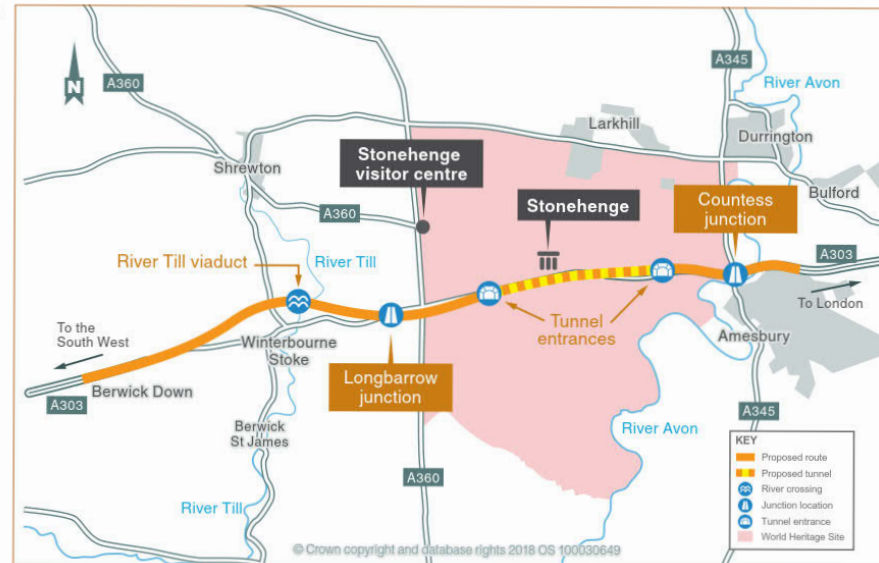

Members of our team will be on hand to answer your questions. Please see our website for details.

**See the proposals:**

Copies of consultation materials, maps and response form will be available at locations in the local area, as well as online, from 17 July.

**Call us on** 0300 123 5000 for details.

**The consultation will run from 17 July to 14 August 2018**

# Poldark gets the guns out for shot at comedy

**Theatre** Ann Treneman

**The Lieutenant of Inishmore**  
Noel Coward Theatre, WC2  
★★★★☆

This is a comedy about Irish terrorism in 1993, a time when there was quite a lot of it about, as you may remember. The playwright, Martin McDonagh, takes no prisoners, though (actually there are a few prisoners taken here but it's all in fun) as he tackles the heart of the issue. It's a violent play, first seen in 2001, that is anti-violence, a play about war that is anti-war.

But, actually it's mostly about cats. And no, that is not code.

The star is not, as you may believe, Aidan Turner, who features in a certain TV series called *Poldark* but here plays Mad Padraic, a man so violent even the IRA has rejected him. Instead all our eyes are on his adored feline, Wee Thomas, who, sadly, when we meet him has become roadkill with half his brains removed. (McDonagh delights in all gory details.)

The death of Wee Thomas on the island of Inishmore is a mystery. Is it a terrorist plot to lure Padraic home from his busy job trying to blow things up with the INLA? Or did Thomas die in the spokes of the pink bicycle belonging to the local lad named Davey whose hair is a crime in itself? Donny, Padraic's father, doesn't really care: he's too busy trying to cover up the death to avoid his crazy

Aidan Turner is hilarious as he plays Mad Padraic with bloodthirsty gusto in a play that tackles Irish terrorism with humour

## Firth's wife drops claims of stalking

Tom Kington Rome

The wife of the actor Colin Firth has dropped stalking charges against her former lover despite accusing him of waging "a frightening campaign of harassment" over several months.

After complaints from Livia Giuggioli, prosecutors in Rome charged Marco Brancaccia, an Italian journalist, with stalking.

When Ms Giuggioli's accusations were reported in March, Mr Brancaccia denied her claims and said that he had been her lover, not her stalker. The Firths admitted the affair and said that it occurred when they were separated.

When they ended their separation and Ms Giuggioli broke off with Mr Brancaccia the Firths said that he began to stalk her. Police checked Mr Brancaccia's phone and said that they found abusive messages and had enough evidence to prosecute.

Mr Brancaccia denied the charge. He said that Ms Giuggioli had not been separated from Mr Firth at the time of their affair and that she had invented the stalking story to cover it up.

A pre-trial hearing was held in Rome yesterday before a judge due to decide whether to send the case to trial. After the hearing, lawyers for the Firths and Mr Brancaccia issued a joint statement saying that the charges were being dropped. "In the best interests of their families, the parties have agreed a private settlement," the statement said.

## Highways England to consult further on proposed changes to A303 upgrade past Stonehenge

People interested in plans to upgrade the A303 past Stonehenge are urged to have their say on Highways England's revised proposals to further protect the World Heritage site.

Taking on feedback from a consultation earlier this year Highways England has adjusted some of the design detail of the planned £1.6bn scheme which will improve journeys on the busy route and create a much-needed bypass for Winterbourne Stoke while preserving the Outstanding Universal Value of the World Heritage Site.

The changes, which seek to further enhance the famous landscape and reconnect the two halves of the 6,500-acre World Heritage site (WHS), include:

- Removing the previously proposed link between Byways 11 and 12 in the Stonehenge WHS to avoid affecting the setting of the Normanton Down barrow group and tranquillity of the site in this area
- Widening the green bridge proposed near the existing Longbarrow roundabout to improve the physical and visual connection between the northern and southern parts of the WHS

- **Moving the proposed modification of Rollestone crossroads to provide a more compact layout**

**Derek Parody, Highways England Project Director for the A303 Stonehenge scheme, said: “We had a great response to our earlier consultation and have acted on the feedback. We now want to get people’s views on our proposed changes to our original consultation.**

**“The further feedback we get will allow us to make sure we have got the best scheme before we make our application later this year to build the scheme.**

**“Meanwhile we continue to work with heritage groups including Historic England, English Heritage, the National Trust, and experts in the field, including the Stonehenge Scientific Committee - a body of leading independent archaeologists - to ensure a new route is built sensitively to the World Heritage site.”**

**Highways England received more than 5,000 responses to consultation on improving the A303 route past Stonehenge, between Amesbury and Berwick Down, which includes a tunnel at least 1.8 miles long, a free-flowing dual carriageway and a much-needed bypass north of Winterbourne Stoke.**

**Consultation will run from 17 July to 14 August, with two public information events – at The Manor Barn, High Street, Winterbourne Stoke, SP3 4SZ, on 19 July (2pm-8pm) and Antrobus House, 39 Salisbury Road, Amesbury SP4 7HH, on 31 July (2pm-8pm).**

**During the consultation, Highways England will also clarify its public rights of way proposals accompanying the scheme, which will help people explore and enjoy the World Heritage site and enable them to walk or cycle unobstructed between Amesbury and Winterbourne Stoke.**

**As part of its £15 billion road strategy – the biggest investment in roads in a generation – the Government is committed to upgrading all remaining single carriageway sections of the A303/A358 between the M3 and M5 to dual carriageway standard.**

**The A303 at Stonehenge, the A303 between Sparkford and Ilchester, and the A358 between the M5 Taunton and the Southfields Roundabout on the A303 are the first**

**three schemes in that strategy.**

**The A303 Stonehenge upgrade will deliver major benefits to the World Heritage Site by reuniting the landscape and restoring tranquillity to the setting of one of our most famous cultural icons. At the heart of many of Highways England's proposed refinements to the scheme is the protection of the WHS and its Outstanding Universal Value.**

**The scheme will also support a major boost to the South West economy, currently lagging 24% behind the national economy, by providing an effective transport link, and reducing the traffic blight on local communities.**

**Further details of the proposed changes will be available during the supplementary consultation and in the meantime, anyone wanting further information on the scheme or anyone who wants to respond to the consultation can go to [www.highways.gov.uk/a303stonehenge](http://www.highways.gov.uk/a303stonehenge)**

## A303 Stonehenge: supplementary consultation July 2018

### Overview

Earlier this year we [consulted](#) on our proposals for improving the A303 past Stonehenge, between Amesbury and Berwick Down. We have been using this feedback to further develop our plans. From this we have identified three changes on which we would welcome your views before we submit our application for a development consent order to build the scheme.

These are:

- to remove the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site
- to widen the green bridge proposed near the existing Longbarrow roundabout
- to move the proposed modification of Rollestone crossroads.

We would welcome your views on these three proposed changes before we submit our proposals for development consent.

### Consultation booklet

We have produced a supplementary consultation booklet to explain the changes we are proposing to make. This booklet is available to view below, and can be downloaded from the bottom of this page.

**Closed 14 Aug 2018**

Opened 17 Jul 2018

Below the headline is a large image of a road with two tunnel entrances, a silver car, and a white van. The article is published by Faye Tryhorn at 138pm 4th July 2018. There are social media sharing buttons for Facebook, Twitter, WhatsApp, and Email. The text of the article reads: 'Yet another public consultation's being launched by Highways England - as they've drawn up revised proposals for the A303 upgrades past Stonehenge. We're told the changes to the plans are as a result of public feedback from the last consultation, held earlier this year. The £1.6 billion scheme aims to make the route through the World Heritage Site (WHS) a dual carriageway, put it within a 3 kilometre long tunnel and put in a bypass to the north of Winterbourne Stoke.'

## Highways England amends Stonehenge tunnel plans

5 JULY, 2018 • BY JESS CLARK

Highways England has amended its plans for the controversial £1.6bn Stonehenge tunnel scheme.

Changes include removing the proposed link between Byways 11 and 12, widening the green bridge proposed near the existing Longbarrow roundabout, and moving the proposed modification of Rollestone crossroads for a more compact layout.

In April, the International Council on Monuments and Sites UK told Highways England that it was "alarmed" by the "flawed" proposals, and the Stonehenge Alliance said the work would damage archaeological remains at the site.

Highways England A303 Stonehenge scheme project director Derek Parody said: "We had a great response to our earlier consultation and have acted on the feedback.

"We now want to get people's views on our proposed changes to our original consultation.

"The further feedback we get will allow us to make sure we have got the best scheme before we make our application later this year to build the scheme.

"Meanwhile we continue to work with heritage groups including Historic England, English Heritage, the National Trust, and experts in the field, including the Stonehenge Scientific Committee - a body of leading independent archaeologists - to ensure a new route is built sensitively to the World Heritage site."

## The UK Wants to Build an Underground Highway Near Stonehenge. Archeologists Say, Hmm, Let's Not, Shall We?

Critics say that digging the tunnel road could destabilize the ancient monument's massive stone slabs.

SHARE Archeologists are up in arms over plans to dig a 1.8-mile-long underground highway near Stonehenge, the ancient circle of monumental stone slabs built between 5000 BC and 2000 BC on the UK's Salisbury Plain.

SHARE

For the past four weeks, the public has been invited to weigh in on the revised plans for the tunnel. The review period for this [supplementary consultation](#) ends today, and the government is expected to move forward with the project.

A preliminary schedule calls for construction to begin in 2021 and to be completed by 2025. Between now and then, the plan is almost certain to face legal challenges from opponents.

Revised plans to upgrade the stretch of the A303 that passes Stonehenge have been revealed - and members of the public are urged to have their say.

Highways England has launched a supplementary consultation on the revised proposals, which aim to further protect the World Heritage site - and improve one of the main routes linking Devon and Cornwall with London.

Taking on feedback from a consultation earlier this year, Highways England says the adjustments to the £1.6bn scheme will still improve journeys on the busy route - and create a much-needed bypass for Waterhouse Stoke, while preserving the Outstanding Universal Value of the World Heritage Site.

The changes, which seek to further enhance the famous landscape and reconnect the two halves of the 3,000-year-old Stonehenge site (WSS), include:

- **Intersections** who agreed to marry if they were single at 40 or lost after chance reunion
- Removing the previously proposed link between Byways 11 and 12 in the Stonehenge WSS to avoid affecting the setting of the Normanton Down barrow group and tranquillity of the site in this area
- Widening the green bridge proposed near the existing Longbarrow roundabout to improve the physical and visual connection between the northern and southern parts of the WSS

## About this consultation

Welcome to this supplementary consultation event.

Earlier this year we consulted on our proposals for improving the A303 past Stonehenge, between Amesbury and Berwick Down. We have been using the feedback to further develop our plans.

The following boards provide details of three changes to the earlier consultation proposals on which we would now welcome your further views.

Please pick up a consultation booklet where you will find details of the changes to the proposed scheme and the questions on which we are seeking your views.

A number of people also asked us to clarify our public rights of way proposals along the scheme, so we are taking this opportunity to provide that clarification. The plans on the tables in this room show clearly the types of public rights of way we're proposing along the scheme and how they will link with existing ones.

If you have any queries please ask a member of the team.

A303 Stonehenge Amesbury to Berwick Down

# A303/A358 corridor

The A303/358 corridor is the most direct route between the South East and South West. The A303 at Stonehenge plays a big part in the daily lives of tens of thousands of people, and for many it can be a daily struggle.

Average traffic flows along the single carriageway section between Amesbury and Berwick Down are twice what it was designed for and the road is even busier in the summer tourist period.

The existing road passes 165 metres from the Stonehenge monument and cuts the WHS in two.

The Government is committed to updating the A303 at Stonehenge and detailed work undertaken in recent years has resulted in a proposed scheme that we believe succeeds in meeting this challenge.

## The aim of the scheme

Upgrading the A303 past Stonehenge will help unlock economic growth in the South West by transforming journey reliability, increasing safety and improving connectivity with neighbouring regions, while protecting or enhancing the environment.

The project has four objectives:

### 1. Transport

To create a high quality reliable route between the South East and the South West that meets the future needs of traffic.

### 3. Cultural heritage

To help conserve and enhance the WHS and to make it easier to reach and explore.

### 2. Economic growth

To enable growth in jobs and housing by providing a free-flowing and reliable connection between the South East and the South West.

### 4. Environment and community

To improve biodiversity and provide a positive legacy for nearby communities.

## Changes we are consulting on

### 1. Removing the previously proposed link between Byways 11 and 12 in the Stonehenge World Heritage Site

Byways 11 and 12 are Byways Open to All Traffic (BOATs) that run through the WHS and link up with the existing A303. We previously proposed a new link between Byways 11 and 12 to the south of the A303, accompanied by stopping up the northern part of Byway 11.

However, respondents were concerned that vehicles on the new link would have an adverse impact on the adjacent Normanton Down barrow group and on the tranquility of the WHS at this location.

Following further consideration, we are no longer proposing this new link or stopping up part of Byway 11. The plans below show the change.

Plan showing previously proposed link between Byways 11 and 12

Plan showing new proposal without link between Byways 11 and 12

The change means that motor vehicles will no longer be able to travel between Byways 11 and 12 because motorised access will be removed along the existing A303 when the tunnel is constructed. Non-motorised users will still have access between Byways 11 and 12 via the proposed new restricted byway along the line of the existing A303.

This will help achieve our objective to remove the sight and sound of traffic from much of the WHS landscape, a key aspiration also of the WHS Management Plan.

**2. To widen the green bridge proposed near the existing Longbarrow roundabout**

Our previous consultation options for the green bridge near Longbarrow roundabout (also known as green bridge No. 4) were to either locate it on the line of the existing A360 or further east, within the World Heritage Site. These options are shown on the plans below:

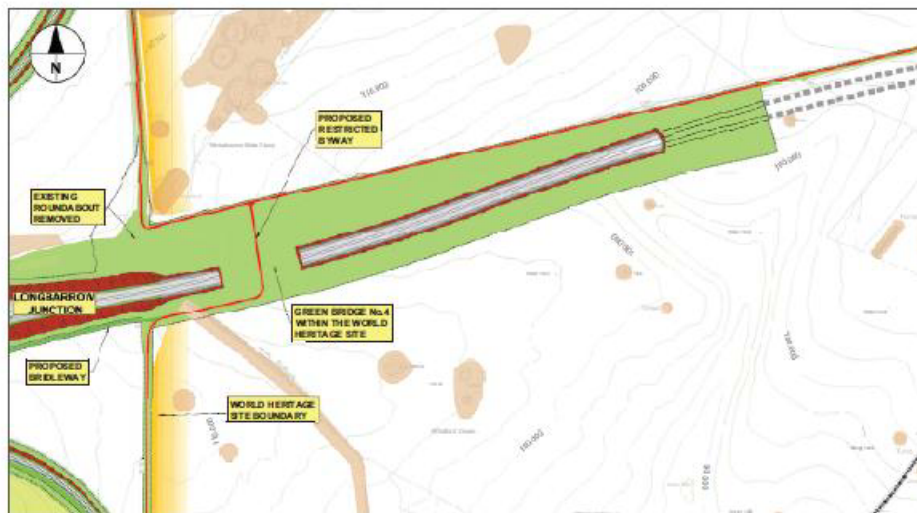

Green bridge No.4 along the line of the existing A360

Green bridge No.4 located further east into the World Heritage Site

Having analysed the responses, we have chosen to locate the green bridge within the WHS. We also propose to widen the bridge to approximately 150 metres. The location and width of the green bridge are shown on the plan below:

Plan showing revised location and width of green bridge

A wider green bridge at the proposed location will improve the physical and visual connection between the northern and southern parts of the WHS and the monuments within it.

### 3. To move the proposed modification of Rollestone crossroads

As part of the scheme, we are proposing to modify the layout of Rollestone crossroads to alter the traffic flow priorities and accommodate long vehicles.

The new layout is more compact than that previously proposed as illustrated on the plans below.

Plan showing new layout now proposed for Rollestone crossroads

The change means the junction will be located just inside the north west corner of the WHS. However, the area has been surveyed and found to be free of archaeological remains and there will be no adverse effect on the Outstanding Universal Value of the WHS.

#### Next steps

Because of its national significance, this scheme needs a special type of planning permission called a Development Consent Order (DCO) which is granted by the Secretary of State for Transport.

Your feedback from this supplementary consultation will inform our continuing development of the scheme. Once we have taken your feedback into consideration, we plan to submit our application for a Development Consent Order in autumn 2018.

If our application is approved, work on the scheme is planned to start in 2021 as indicated on the illustrated timeline.

**Subject:** A303 Stonehenge - Supplementary Consultation

Hi Karen,

This is to follow up on the discussion at Monday's Officer Steering Group. I can confirm more details of our supplementary non-statutory consultation proposals as follows, which we believe to be proportionate and appropriate in relation to the details of the scheme on which we are seeking further views.

- The consultation will be held on three changes we have been discussing with you to the proposals presented for statutory consultation earlier this year, namely:

- Removing the previously proposed link between Byways 11 and 12 in the WHS
- Widening the green bridge (No. 4) proposed near Longbarrow
- Moving the proposed modification of Rollestone crossroads

At the same time we will take the opportunity to clarify our public rights of way proposals along the length of the scheme.

- The consultation will run for 4 weeks, starting on Tuesday 17 July and ending on Tuesday 14 August.

- Adverts and notices will be placed in the national and local press as was done for the statutory consultation.

- We will notify the all those who were notified of the statutory consultation, including all the homes within the distribution area shown in Appendix 2 of the previously published SoCC.

- The same deposit/information locations identified in the previously published SoCC will be used to allow people to view paper copies of the consultation material and to obtain copies of the response form.

- We will hold two public exhibitions of the consultation material, one in Winterbourne Stoke on 19 July and the second in Amesbury on 31 July.

- We will arrange with you a convenient time to brief Council Members before the consultation starts, and we will also attend the Amesbury Area Board on 19 July to present the consultation material.

- During the consultation, we will also engage with the WHS Partnership Panel and Steering Groups, as well as ensuring all the groups represented on our Local Community Forum are fully informed.

We would be grateful for your review of the above, for the Council to consider the adequacy of our proposals for carrying out the supplementary (non-statutory) consultation. If you need any further information, please let me know.

Kind regards,

Chris

Hi Chris,

Thank you for your email outlining Highways England's detailed proposals for the supplementary consultation and for taking on board our earlier feedback.

I can confirm that the proposals for the supplementary consultation are acceptable to the Council.

Kind Regards,  
Karen
