

A303 Amesbury to Berwick Down

TR010025

6.3 Environmental Statement Appendices

Appendix 6.1 Annex 3 Summary of assessment of
impacts and effects

APFP Regulation 5(2)(a)

Planning Act 2008

Infrastructure Planning (Applications: Prescribed
Forms and Procedure) Regulations 2009

October 2018

HIA Annex 3.1 – Inventory with summary descriptions of Asset Groups that convey the Attributes of the OUV of the WHS

Asset Group Number	Asset Group Name	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
AG06	Net Down Barrow Cemetery	Very High	None	Neutral	No Change	No Change	No Change	Neutral	None	Neutral
AG08	Winterbourne Stoke Down Barrows	Very High	None	Neutral	No Change	No Change	No Change	Neutral	None	Neutral
AG10	Rollestone Barrows	Very High	None	Neutral	No Change	No Change	No Change	Neutral	None	Neutral
AG11	Lesser Cursus Barrows and Pit Circle	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
AG12	Winterbourne Stoke Crossroads Barrows	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Adverse and Very Large Beneficial	Moderate Beneficial	Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303 to create a restricted byway. Archaeological mitigation in the form of excavation of the western tunnel approach roads will be required following archaeological evaluation.	Moderate Beneficial
AG13	The Diamond Group	Very High	Moderate	Large Adverse	No Change	Moderate Negative and Minor Positive Change	Large adverse and moderate beneficial	Slight Adverse	None	Slight Adverse
AG14	Robin Hood's Ball and Associated Sites	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
AG15	The Lesser Cursus	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral
AG16	North Kite Enclosure and Lake Barrows	Very High	Minor	Moderate adverse	No Change	Negligible Positive Change	Slight Beneficial	Slight Beneficial	None	Slight Beneficial
AG17	Barrow West of Stonehenge	Very High	Moderate	Large Adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
AG18	Cursus Barrows (West)	Very High	Minor	Moderate adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
AG19	Normanton Down Barrows	Very High	Moderate	Large Adverse	No Change	Minor Negative, Minor Positive and Moderate Positive Change	Moderate Adverse and Slight, Moderate and Large Beneficial	Moderate Beneficial	Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303 to create a restricted byway.	Moderate Beneficial
AG19A	Normanton Down Barrows (north)	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Adverse and Very Large beneficial	Slight Beneficial	Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303 to create a	Slight Beneficial

Asset Group Number	Asset Group Name	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
									restricted byway.	
AG19B	Normanton Down Barrows (central)	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
AG19C	Normanton Down Barrows (southwestern)	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
AG19D	Normanton Down Barrows (southeastern)	Very High	Moderate	Large Adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Slight Beneficial
AG20	Durrington Down Barrows	Very High	None	Neutral	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Slight Beneficial	None	Slight Beneficial
AG21	Stonehenge Down Barrows	Very High	Moderate	Large Adverse	No Change	Major Positive Change	Very Large Beneficial	Very Large Beneficial	None	Very Large Beneficial
AG22	Stonehenge	Very High	Moderate	Large Adverse	No Change	Major Positive Change	Very Large Beneficial	Very Large Beneficial	None	Very Large Beneficial
AG23	The Greater Cursus, Amesbury 56 and Winterbourne Stoke 30 Round Barrows, and the Amesbury 42 Long Barrow	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
AG24	Stonehenge Bottom / Luxenborough Barrows	Very High	Minor	Moderate Adverse	No Change	Major Positive Change	Very Large Beneficial	Very Large Beneficial	The construction of the existing A303 has partially destroyed a scheduled bowl barrow in the north of the Asset Group (NHLE 1008947). This site will be subject to protection measures during enabling works and construction. Sensitive mitigation, e.g. archaeological investigation or appropriate landscaping, will be applied to protect the asset and improve its setting in the new context of the restricted byway. Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303 to create a restricted byway.	Very Large Beneficial
AG25	Packway Barrows	Very High	None	Neutral	No Change	Negligible Positive Change	Slight Beneficial	Slight Beneficial	None	Slight Beneficial
AG26	Old and New King Barrows	Very High	Moderate	Large Adverse	No Change	Minor and moderate positive change	Moderate and Large Beneficial	Moderate Beneficial	There is a barrow immediately north of the	Moderate Beneficial

Asset Group Number	Asset Group Name	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
									existing A303 (NHLE 1012420). This site will be subject to protection measures during enabling works and construction. Sensitive mitigation, e.g. archaeological investigation or appropriate landscaping, will be applied to protect the asset and improve its setting in the context of downgrading the A303 to a restricted byway. Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303 to create a restricted byway.	
AG26A	King Barrows (Old King Barrows, north)	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
AG26B	King Barrows (New King Barrows, south)	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Beneficial	Moderate Beneficial	There is a barrow immediately north of the existing A303 (NHLE 1012420). This site will be subject to protection measures during enabling works and construction. Sensitive mitigation, e.g. archaeological investigation or appropriate landscaping, will be applied to protect the asset and improve its setting in the new context of the downgraded former A303. Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303 to create a restricted byway.	Moderate Beneficial
AG27	The Avenue	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
AG28	Cursus Barrows (East)	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
AG29	Coneybury Henge and Associated Monuments	Very High	Moderate	Large adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
AG30	The Avenue Barrows	Very High	Moderate	Large Adverse	No Change	Minor Positive	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial

Asset Group Number	Asset Group Name	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
						Change				
AG31	Countess Farm Barrows	Very High	Negligible	Slight Adverse	No Change	Negligible Negative, Minor Positive, No Change	Slight Adverse and Neutral	Slight Adverse	None	Neutral
AG31A	Countess Farm Barrows (north)	Very High	Negligible	Slight Adverse	No Change	No Change (northerly elements) and Negligible Negative Change (southerly elements)	Neutral and Slight Adverse	Slight Adverse	None	Slight Adverse
AG31B	Countess Farm Barrows (southwest)	Very High	Negligible	Slight Adverse	No Change	Negligible Negative, Minor Positive Change	Slight Adverse	Slight Adverse	None	Slight Adverse
AG31C	Countess Farm Barrows (southeast)	Very High	Negligible	Slight Adverse	No Change	Negligible Negative	Slight Adverse	Slight Adverse	None	Slight Adverse
AG32	Vespasian's Camp Barrows	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
AG33	Durrington Walls, Woodhenge and Associated Sites	Very High	Negligible	Slight Adverse	No Change	Negligible Positive	Slight Beneficial	Slight Beneficial	Design will include potential new signage at specific junctions within the highway boundary and along existing roads for the high load and diversionary route. If required, an archaeological watching brief will be undertaken on signage holes.	Slight Beneficial
AG37	Knighton Long Barrow	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
AG38	Larkhill Camp Long Barrow	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
AG39	Larkhill Causewayed Enclosure	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral

HIA Annex 3.2 – Summary of impacts and effects of proposed scheme on designated discrete and isolated assets that convey the Attributes of the OUV of the WHS

NHLE reference	Description	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
1008946	Bowl barrow 400m west of New King Barrows	Very High	Minor	Moderate adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
1008948	Bowl barrow 100m north of The Avenue and west of Old King Barrows	Very High	Minor	Moderate adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
1008949	Bowl barrow 450m SSW of Airman's Corner on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
1008950	Bowl barrow 550m south of Airman's Corner on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
1009138	Bowl barrow 400m north of the A303 on Countess Farm	Very High	Negligible	Slight Adverse	No Change	Negligible Negative impact	Slight Adverse	Slight Adverse	None	Slight Adverse
1009145	Bowl barrow 170m south east of Strangways on Countess Farm	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
1010831	Bowl barrow 400m west of Normanton Gorse	Very High	Minor	Moderate Adverse	No Change	Moderate Negative Change and a Major Positive Change	Large Adverse and Very Large Beneficial	Neutral	None	Neutral
1010832	Bowl barrow south of the A303 and north west of Normanton Gorse	Very High	Moderate	Large Adverse	No Change	Negligible Negative Change and Minor Positive Change	Slight Adverse and Moderate Beneficial effects	Slight Adverse	Protective fencing that incorporates a 10m buffer around the scheduled areas will be installed during scheme construction.	Slight Adverse
1010833	Pond barrow south of the A303 and 400m west of Normanton Gorse containing the 'Wilsford Shaft'	Very High	Moderate	Large Adverse	No Change	Negligible Negative Change and Minor Positive Change	Slight Adverse and Moderate Beneficial effects	Slight Adverse	None	Slight Adverse
1010838	Linear boundary within Normanton Gorse	Very High	Negligible	Slight Adverse	No Change	Negligible Negative Change	Slight Adverse	Slight Adverse	None	Slight Adverse
1010895	Pond barrow 50m north of A344 west of The Cursus	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral
1011039	Bell barrow 450m south of A344 on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
1011040	Bowl barrow 400m south of A344 on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral

NHLE reference	Description	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
1011041	Pond barrow 700m south of A344 on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
1011043	Bowl barrow 430m south of A344 on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
1011044	Bowl barrow 600m south of A344 on Winterbourne Stoke Down	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Neutral	None	Neutral
1011048	Bronze Age enclosure and bowl barrow 100m west of Longbarrow Cross Roads on Winterbourne Stoke Down	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Adverse and Very Large Beneficial	Slight Beneficial	None	Slight Beneficial
1011708	Bowl barrow 100m south east of the southern edge of The Diamond south of the A303	Very High	Minor	Moderate adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
1011709	Bowl barrow 450m east of The Diamond south of the A303	Very High	Minor	Moderate adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
1012388	Bowl barrow 500m WNW of New King Barrows north of the A303	Very High	Minor	Moderate adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
1012389	Bowl barrow 220m west of Old King Barrows north of the A303	Very High	Minor	Moderate adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
1012394	Four bowl barrows 140m north of the A303 on Stonehenge Down	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Adverse and Very Large Beneficial	Moderate Beneficial	None	Moderate Beneficial
1013812	Bowl barrow 350m south west of Normanton Gorse	Very High	Minor	Moderate Adverse	No Change	Moderate Negative Change and a Major Positive Change	Large Adverse and Very Large Beneficial	Neutral	None	Neutral
1014147	Two bowl barrows 700m north west of Normanton Down House	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral

HIA Annex 3.3 – Summary of impacts and effects of proposed scheme on discrete and isolated assets

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
MW111889	Totterdown. Findspot, Neolithic axe.	Neolithic	Findspot: excluded from assessment								
MW112438	Between The Cursus & Larkhill. Findspot. Neolithic polished flint knife.	Neolithic	Findspot: excluded from assessment								
MW112451	North-east of New King Barrows. Findspot. Collection of Neolithic flints	Neolithic	Findspot: excluded from assessment								
MW112458	Flint Scatter East of Fargo Wood, Settlement. Surface collection and excavation uncovered area of Early Neolithic activity.	Neolithic	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
MW112461	West of King Barrows, Findspot. Late Neolithic flint knife.	Neolithic	Findspot: excluded from assessment								
MW112462	West of the New King Barrows, Pit. A small Neolithic pit was excavated in 1968 by Faith Vatcher.	Neolithic	No longer extant: excluded from assessment								
MW112466	West of New King Barrow Wood, Pit. Neolithic pit containing flints and fragments of pottery found during excavation in 1967	Neolithic	No longer extant: excluded from assessment								
MW112477	Vespasian's Ridge, Pit. Neolithic pit excavated in 1967 contained a ground flint axe and nine fragments of bone.	Neolithic	No longer extant: excluded from assessment								
MW112479	East of the Cursus. Pit. Excavated Neolithic pit.	Neolithic	No longer extant: excluded from assessment								
MW112481	King Barrow Ridge, Settlement.	Neolithic	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
	Predominantly Late Neolithic flint scatter below which sample excavation produced pits.										
MW112483	North-west of Vespasian's Camp. Findspot. Part of a Neolithic stone axe.	Neolithic	Findspot: excluded from assessment								
MW112494	The Diamond, Findspot. 4 large cores; thought to be Neolithic and a large assemblage of flint tools.	Neolithic	Findspot: excluded from assessment								
MW112496	Find Spot, Fargo Plantation. Four sherds of Neolithic pottery.	Bronze Age	Findspot: excluded from assessment								
MW112501	Neolithic Pit, South of Stonehenge Cottage. Fragments of Neolithic pottery were found in a pit. The pit contained the remains of at least three Neolithic Grooved Ware vessels, worked flint and animal bone was found within an evaluation trench. Also found were plant macrofossils including beans.	Neolithic	No longer extant: excluded from assessment								
MW112502	North Verge of A303 East Stonehenge, Pit. Later Neolithic pit found during road widening and excavated by Faith Vatcher in 1969.	Neolithic	No longer extant: excluded from assessment								
MW112516	North-west of Stonehenge, Associated Finds. Some 'Sherds of "Late Bronze Age type" found during excavation of the underpass in 1968. They were in the lower of three turf layers'.	Bronze Age	Findspot: excluded from assessment								
MW112517	In Ditch of Stonehenge, Burial. A Bronze Age crouched burial in the	Bronze Age	No longer extant: excluded from								

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
	Stonehenge ditch. A crouched inhumation of a young male in a grave cut into the ditch fill. Grave goods consisted of three barbed and tanged arrowheads and a stone wristguard.		assessment								
MW112523	Larkhill, Burial. Bronze Age grave found with 2 beakers.	Bronze Age	No longer extant: excluded from assessment								
MW112524	South-east of Stonehenge on Stonehenge Down, Findspot. 'Flanged copper alloy axe of Arreton Down Tradition with chevrons hammered on both faces. Found by donor while digging a trench at Amesbury.' The actual location of the discovery is unclear-NGR v. imprecise.	Bronze Age	Findspot: excluded from assessment								
MW112530	East of Fargo Wood I Flint Scatter. Surface collection and excavation produced Neolithic to Later Bronze Age pottery and Neolithic flints. Occupation.	Neolithic and Bronze Age	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
MW112534	Find Spot, Field North & North-west of the Lesser Cursus. A Prehistoric pottery fragment, possibly Bronze Age, and flint tools.	Bronze Age	Findspot: excluded from assessment								
MW112535	Hunters Hill, West Amesbury. Findspot. A probable Bronze Age pottery fragment was recovered from an evaluation excavation in 1997.	Bronze Age	Findspot: excluded from assessment								

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
MW112539	South east of Stonehenge, Findspot. Bronze Age axe.	Bronze Age	Findspot: excluded from assessment								
MW112540	Pit, Larkhill. A single pit and scoops were revealed during an evaluation and included a Bronze Age worked flint scatter.	Prehistoric	No longer extant: excluded from assessment								
MW112548	West of the New King Barrows, Pit. A small Early to Middle Neolithic pit was excavated by Faith Vatcher in 1968.	Neolithic	No longer extant: excluded from assessment								
MW112609	Burial, West of Willoughby Rd:Larkhill Camp. An undated burial found in grave with no grave goods to date it. Excavated 1966.	Unknown	No longer extant: excluded from assessment								
MW112614	Pit on West End of Cursus. A small hollow/pit cut by the ditch of barrow SU14SW738; it yielded pine charcoal, calcined flints and flint debitage.	Unknown	No longer extant: excluded from assessment								
MW112631	East of the Cursus, Burial. Undated unexcavated burial. Revealed in 2003. It is unclear whether the feature represents an in situ burial or whether the remains have been redeposited in a pit or ditch terminus.	Undated	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
MW112646	West of Old & New King Barrows. Round Barrow. Undated, levelled barrow only visible on a National Monuments Record aerial photograph.	Unknown	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112647	West of Old & New King Barrows. Round Barrow.	Unknown	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
	Undated levelled barrow visible as a soil mark.						Major Positive Change				
MW112648	West of Old & New King Barrows. Round Barrow. Undated levelled bowl barrow visible as a soil mark	Unknown	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112649	West of Old & New King Barrows. Round Barrow. An undated levelled bowl barrow.	Unknown	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112650	West of Old & New King Barrows. Round Barrow. An undated levelled barrow visible on aerial photographs.	Unknown	Very High	Moderate	Large Adverse	No Change	Minor Negative Change and Major Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112679	Ring ditch, west of the Cursus. An undated ring ditch visible on aerial photographs.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral
MW112680	South-west Fargo Plantation. Round barrow. An undated levelled barrow is visible on aerial photographs.	Unknown	Very High	Minor	Moderate adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112705	Bowl Barrow, Durrington Down. Site of an undated bowl barrow.	Unknown	Very High	None	Neutral	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Slight Beneficial	None	Slight Beneficial
MW112769	Bowl Barrow, North-west of Fargo Lodge. A Bronze Age bowl barrow excavated in the 19th century and not seen since.	Bronze Age	No longer extant: excluded from assessment								
MW112794	East of Old King Barrows. Undated pits were revealed during a geophysical survey in 1997.	Unknown	Unknown	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
MW112826	Barrow, west of Fargo Plantation. Possible site of undated barrow.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
MW112827	Pond Barrow, North of The Cursus. Possible Bronze Age pond barrow.	Bronze Age	Very High	None	Neutral	No Change	Neutral	Neutral	Neutral	None	Neutral
MW112831	Pond Barrow, North of The Cursus. A possible Bronze Age pond barrow. Depression believed to be natural.	Bronze Age	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
MW112849	South of Cursus. Contrary to HER monument type, not a barrow but a findspot point. refers to a 'decorated flanged bronze axe of Irish type found in 1952 while digging a trench'. The actual location of the discovery is unclear.	Bronze Age	Findspot: excluded from assessment								
MW112873	North of Halfmoon Clump. Possible site of an undated barrow.	Unknown	Very High	None	Neutral	No Change	No Change	Neutral	Neutral	None	Neutral
MW112879	Winterbourne Stoke Down, Round Barrow. A possible undated round barrow.	Bronze Age	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral
MW112918	North-east of Stonehenge. Barrow. Possible undated levelled barrow.	Undated	Very High	Moderate	Large Adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112942	East of New King Barrows. Ring ditch. Possible undated ring ditch visible on aerial photographs.	Unknown	Very High	Moderate	Large Adverse	No Change	Minor Positive Change	Moderate Beneficial	Moderate Beneficial	None	Moderate Beneficial
MW112943	West of Old King Barrows. Round barrow. A possible undated bowl barrow revealed as soilmark.	Unknown	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
MW112959	North-west of Vespasian's Camp. A possible undated ring ditch visible on aerial	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative	Slight Adverse	Slight adverse	None	Slight adverse

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
	photographs.										
MW112964	North-west of Vespasian's Camp. Possible undated ring ditch.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative	Slight Adverse	Slight adverse	None	Slight adverse
MW112965	North-west of Vespasian's Camp. Possible undated circular cropmark.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative	Slight Adverse	Slight adverse	None	Slight adverse
MW113050	South-east of New King Barrows, Ring Ditch. A possible undated ring ditch.	Undated	Very High	Moderate	Large adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
MW113118	Circular Enclosure, North-west of Fargo Lodge. Possible undated enclosure.	Unknown	Very High	Negligible	Slight Adverse	No Change	No Change	No Change	Neutral	None	Neutral
MW113119	Stonehenge Racecourse, Linear Feature. An undated linear ditch visible as a soilmark. It was observed in trenches during an evaluation excavation in 1998.	Unknown, possibly Middle Bronze Age	Unknown	Negligible	Uncertain (Adverse)	No Change	No Change	Neutral	Neutral	None	Neutral
MW113154	North of Avenue. Findspot. Fragment of Bluestone.	Unknown	Findspot: excluded from assessment								
MW113156	North of Winterbourne Stoke Group. 3 undated ring ditches visible on aerial photographs.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral
MW113157	North-west of Vespasian's Camp. Site of dubious and undated ring ditch.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative	Slight Adverse	Slight adverse	None	Slight adverse
MW113161	East of Fargo Plantation, Round Barrow. Site of undated barrow.	Unknown	Very High	Moderate	Large Adverse	No Change	Moderate Positive Change	Large Beneficial	Large Beneficial	None	Large Beneficial
MW16395	Ring Ditch, Winterbourne Stoke Down. One of two undated ring ditches.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Neutral	Neutral	None	Neutral
MW16403	Bronze Age Barrow,	Bronze Age	No longer								

HER or NHLE Reference	Name	Period	Value of Asset Group	Impact of existing baseline on Asset Group conveying attributes of OUV	Effect of existing baseline on Asset Group conveying attributes of OUV	Proposed scheme impact on fabric	Proposed scheme impact on setting	Range of effects of proposed scheme on Asset Groups conveying attributes of OUV	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, taking into account embedded mitigation (design)	Mitigation measures	Significance of effect of proposed scheme on Asset Groups conveying attributes of OUV, following proposed mitigation (residual effect)
	North of Winterbourne Stoke Roundabout. A Bronze Age levelled barrow. This was subject to geophysical survey and trial trench evaluation in 2018 associated with the present scheme. No traces of the putative barrow were identified.		extant: excluded from assessment								
MWI6920	Bowl Barrow G2 SU04SE668. Findspot. Neolithic serrated blade.	Neolithic	Findspot: excluded from assessment								
MWI6925	S of Greenland Farm. Findspot. Flakes, cores, burnt flint and miscellaneous debitage found during systematic fieldwork for the Brown Routes proposals of the A303.	Bronze Age	Findspot: excluded from assessment								
MWI74620	Pits, Airman's Corner. A number of pits of unknown date were identified by a geophysical survey.	Unknown	Unknown	None	Neutral	No Change	Neutral	Neutral	Neutral	None	Neutral
MWI74642	Pits, Normanton Down. A large number of pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Negative Change	Uncertain (Adverse)	Uncertain	None	Uncertain
MWI74648	Pits, Stonehenge. A number of pits around Stonehenge were identified by a geophysical survey.	Neolithic	Very High	Negligible	Slight Adverse	No Change	Negligible Negative and Negligible Positive Change	Slight Adverse and Slight Beneficial	Slight Beneficial	None	Slight Beneficial
MWI74695	Pits, Airman's Corner. Pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	None	Neutral	No Change	Neutral	Neutral	Neutral	None	Neutral
MWI74695	Pits, Airman's Corner. Pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	None	Neutral	No Change	Neutral	Neutral	Neutral	None	Neutral

MWI74878	Undated Pits, East of Winterbourne Stoke. Numerous pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Negative and Negligible Positive Change	Uncertain	Uncertain	None	Uncertain
MWI74896	Neolithic Pits, Durrington Walls. Pits of an unknown date were identified by a geophysical survey, later identified as Neolithic during an excavation.	Neolithic	No longer extant: excluded from assessment								
MWI75678	Possible Early Neolithic Pit or Pit-Like Feature. A borehole survey conducted from 2014-2016 uncovered deposits and evidence consistent with a pit or pit-like feature.	Early Neolithic	Very High	Negligible	Slight Adverse	No Change	Negligible Positive Change	Slight Beneficial	Slight Beneficial	None	Slight Beneficial
MWI75679	Possible Pit or Pit-Like Feature. A borehole survey conducted from 2014-2016 uncovered deposits and evidence consistent with pits or pit-like features of uncertain date.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Positive Change	Uncertain (Beneficial)	Uncertain	None	Uncertain
MWI75708	Undated Pits, South of Winterbourne Stoke. Pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Negative and Negligible Positive Change	Uncertain	Uncertain	None	Uncertain
MWI75709	Undated Pits, North of Vespasian's Camp. Pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Negative and Negligible Positive Change	Uncertain	Uncertain	None	Uncertain
MWI75710	Undated Ring Ditch, North of Vespasian's Camp. A ring ditch of an unknown date was identified by a geophysical survey.	Unknown	Very High	Negligible	Slight Adverse	No Change	Negligible Negative	Slight Adverse	Slight adverse	None	Slight adverse

MWI75713	Undated Pits, West of Countess Farm. Pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Negative and Negligible Positive Change	Uncertain	Uncertain	None	Uncertain
MWI75753	Worked and Burnt Flint, A303. Findspot. No significant concentrations appear to have been recorded.	Unknown	Findspot: excluded from assessment								
MWI75753	Worked and Burnt Flint, A303. Findspot. Worked and burnt flint identified during fieldwalking surveys.	Unknown	Findspot: excluded from assessment								
MWI75988	Undated Ring Ditch, Northwest of Normanton Gorse. A ring ditch of an unknown date was identified by a geophysical survey.	Unknown	Very High	Moderate	Large Adverse	No Change	Minor negative change and major positive change	Moderate Adverse and Very Large beneficial	Slight Beneficial	Archaeological monitoring will be undertaken on the removal of hardstanding material from the course of the existing A303.	Slight Beneficial
MWI75990	Undated Pits, Northwest of Normanton Gorse. Numerous pits of an unknown date were identified by a geophysical survey.	Unknown	Unknown	Negligible	Uncertain (Adverse)	No Change	Negligible Negative Change	Uncertain (Adverse)	Uncertain	None	Uncertain
MWI75995	Neolithic Pit, South of A303. A pit of a Neolithic date was found during an archaeological investigation.	Neolithic	No longer extant: excluded from assessment								
MWI76197	Bronze Age Flint, Roman Pottery and other Fieldwalking Finds, Between Stonehenge Down and Parsonage Down	Bronze Age	No longer extant: excluded from assessment								
MWI76197	Bronze Age Flint, Roman Pottery and other Fieldwalking Finds, Between Stonehenge Down and Parsonage Down	Bronze Age	No longer extant: excluded from assessment
