## 1 INTRODUCTION

- 1.1.1 The purpose of this document is to set out the locations the Applicant considers the Examining Authority may wish to visit as part of an Accompanied Site Inspection (ASI).

## 2 ITINERARY

- 2.1.1 The proposed for the Accompanied Site Inspection (ASI) is provided in Table 2.1 below.
- 2.1.2 The ASI proposed would take an estimated time of 6 hours to complete.
- 2.1.3 The itinerary presented in Table 2.1 is supported by a plan showing the proposed route, contained in appendix A of this document. In addition to showing the proposed stopping locations, the plan also shows points of interest; these will be pointed out during the course of the ASI at the appropriate times.
- 2.1.4 The Applicant will bring relevant plans submitted as part of the Development Consent Order.
- 2.1.5 During the ASI the Applicant can make available a GPS-enabled mapping system with details of the scheme on tablets for use should anyone require this.
- 2.1.6 The ASI will involve the use of a minibus (to be provided by the Applicant to accommodate the attendees of the site visit) but will include some walking. The Applicant will provide hi-vis jackets / vests and would suggest that everyone attending be encouraged to use these. Please ensure that sturdy footwear is worn as the inspection will include some walking on uneven or wet ground, and clothing suitable to the weather conditions is worn.
